This revised and expanded new edition is a meticulously documented resource dealing with the age-old creation/evolution controversy. The author, who received a PhD from M.I.T., carefully explains and illustrates scientific evidence from biology, astronomy, and the physical and earth sciences that relates to origins and the flood. The hydroplate theory, developed after more than 30 years of study by Dr. Walt Brown, explains, with overwhelming scientific evidence, earth's defining geological event - a worldwide flood. This book includes an index, extensive endnotes and references, technical notes, answers to 36 frequently asked questions on related topics, and hundreds of illustrations, most in full color.

coined the term "radioactivity," discovered polonium and radium, and helped develop treatments for cancer. She was the first woman to win a Nobel Prize, but her dedication to physics ultimately caused her death from radiation.

Winner, Mitchell A. Wilder Award for Excellence in Publication and Media Design, Texas Association of Museums, 2002 Western Books Exhibition, The Rounce & Coffin Club, 2002 Small lives end every day—the unfledged bird fallen from its nest, the unwary lizard caught by a cat—as unnoticed in dying as they were living. Deeply moved by these small deaths since her childhood in South Australia, photographer-artist Kate Breakey has been photographing found animal remains since the mid-1990s, creating stunning, oversized, hand-colored images that—paradoxically—glow with life. This volume is the first book-length work devoted to the photographs of Kate Breakey. It gathers color images from her ongoing "Small Deaths" series. These birds, flowers, lizards, and insects vividly express Breakey's desire to preserve each lost creature—to "freeze it in time, suspend it in space, immortalize it so that its beauty and its death are memorialized." In a brief afterword,

Breakey traces the origins of her art to a childhood spent among domestic and rescued animals on the Australian coast. In the introduction, noted art critic A. D. Coleman links Breakey's work to the larger traditions of still-life painting and the postmortem photography of the nineteenth century.

This new extended edition of *Story of Life* is the perfect gift for those with a love of the natural world. Wander the galleries - open 365 days a year - and discover a collection of curated exhibits on every page, accompanied by informative text. Each chapter features key species from a different geological era with fantastic new artwork from Katie Scott.

This textbook offers an approachable guide to all key concepts within corporate finance. Emphasizing the use of common sense rather than number-crunching models, it provides a compact, easy to read experience for any reader, practitioners and students alike, whatever their background. *A Practical Guide to Corporate Finance* begins with the basics of how to read financial statements and how to estimate future cash flows. It also includes a guide to subjects such as capital budgeting decisions, the cost of financing for businesses, cash and working capital management, the process of business valuation, and how stock markets work. This textbook breaks the financial ice by offering real, practical advice, helping the reader to avoid common pitfalls, and translate the 'financialese', or business jargon that can cause confusion for those without a financial or banking background. Every chapter features real-life applications, and is punctuated with mini case studies in the form of a 'Slice of Life' and numerous dialogues that help shape the comprehension of the reader.

Joel Meyerowitz: Where I Find Myself

Sibley's Backyard Birds

The children of the forest live deep in the roots of an old pine tree. They collect wild mushrooms and blueberries and shelter under toadstools when it rains. They play with the squirrels and frogs, and when fall comes, they collect and prepare food to see them through the long winter, until the warm spring breeze starts to blow. A mini gift edition of Elsa Beskow's classic story.

Finally back in print, a frighteningly lucid feminist horror story about marriage The Dry Heart begins and ends with the matter-of-fact pronouncement, "I shot him between the eyes." Everything in between is a plunge into the chilly waters of loneliness, desperation, and bitterness—and as the tale proceeds, the narrator's murder of her flighty husband takes on a certain logical inevitability. In this powerful novella, Natalia Ginzburg's writing is white-hot, fueled by rage, stripped of any preciousness or sentimentality; she transforms an ordinary dull marriage into a rich

Where I Find Myself is the first major single book retrospective of one of America's leading photographers. It is organized in inverse chronological order and spans the photographer's whole career to date: from Joel Meyerowitz's most recent picture all the way back to the first photograph he ever took. The book covers all of Joel Meyerowitz's great projects: his work inspired by the artist Morandi, his work on trees, his exclusive coverage of Ground Zero, his trips in the footsteps of Robert Frank across the US, his experiments comparing color and black and white pictures, and of course his iconic street photography work. Joel Meyerovitz is incredibly eloquent and candid about how photography works or doesn't, and this should be an inspiration to anyone interested in photography.
