*The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.*

*Finalist for the 1991 National Book Award and a New York Times Notable book, Praying for Sheetrock is the story of McIntosh County, a small, isolated, and lovely place on the flowery coast of Georgia--and a county where, in the 1970s, the white sheriff still wielded all the power, controlling everything and everybody. Somehow the sweeping changes of the civil rights movement managed to bypass McIntosh entirely. It took one uneducated, unemployed black man, Thurnell Alston, to challenge the sheriff and his courthouse gang--and to change the way of life in this community forever. "An inspiring and absorbing account of the struggle for human dignity and racial equality" (Coretta Scott King)*

*What do all these people have in common: the first man to die in the American Revolution, a onetime chief of the Crow Nation, the inventors of peanut butter and the portable X-ray machine, and the first person to make a wooden clock in this country? They were all great African Americans. For parents and teachers interested in fostering cultural awareness among children of all races, this book includes more than 70 hands-on activities, songs, and games that teach kids about the people, experiences, and events that shaped African American history. This expanded edition contains new material throughout, including additional information and biographies. Children will have fun designing an African mask, making a medallion like those worn by early abolitionists, playing the rhyming game "Juba," inventing Brer Rabbit riddles, and creating a unity cup for Kwanzaa. Along the way they will learn about inspiring African American artists, inventors, and heroes like Harriet Tubman, Benjamin Banneker, Rosa Parks, Langston Hughes, and Louis Armstrong, to name a few.*

Well-documented classic examines the South's plantation economy and its influence on the slave trade, the role of Northern merchants in financing the slave trade during the 19th century, and much more.

Originally written in 1980 by the late Lorenzo J. Greene, Gary R. Kremer, and Antonio F. Holland, Missouri's Black Heritage remains the only book-length account of the rich and inspiring history of the state's African-American population. It has now been revised and updated by Kremer and Holland, incorporating the latest scholarship into its pages. This edition describes in detail the struggles faced by many courageous African-Americans in their efforts to achieve full civil and political rights against the greatest of odds. Documenting the African-American experience from the horrors of slavery through present-day victories, the book touches on the lives of people such as John Berry Meachum, a St. Louis slave who purchased his own freedom and then helped countless other slaves gain emancipation; Hiram Young, a Jackson County free black whose manufacturing of wagons for Santa Fe Trail travelers made him a legendary figure; James Milton Turner, who, after rising from slavery to become one of the best-educated blacks in Missouri, worked with the Freedmen's Bureau and the State Department of Education to establish schools for blacks all over the state after the Civil War; and Annie Turnbo Malone, a St. Louis entrepreneur whose business skills made her one of the state's wealthiest African-Americans in the early twentieth century. A personal reminiscence by the late Lorenzo J. Greene, a distinguished African-American historian whom many regard as one of the fathers of black history, offers a unique view of Missouri's racial history and heritage. Because Missouri's Black Heritage, Revised Edition places Missouri's experience in the larger context of the national experience, this book will be welcomed by all students and teachers of American history or black studies, as well as by the general reader. It will also promote pride and a greater understanding among African-Americans about their past and provide an increased appreciation of the contributions and hardships of blacks.

Sixteen months after the start of the American Civil War, the Federal government, having vastly underestimated the length and manpower demands of the war, began to recruit black soldiers. This revolutionary policy gave 180,000 free blacks and former slaves the opportunity to prove themselves on the battlefield as part of the United States Colored Troops. By the end of the war, 37,000 in their ranks had given their lives for the cause of freedom. In Forged in Battle, originally published in 1990, award-winning historian Joseph T. Glatthaar re-creates the events that gave these troops and their 7,000 white officers justifiable pride in their contributions to the Union victory and hope of equality in the years to come. Unfortunately, as Glatthaar poignantly demonstrates, memory of the United States Colored Troops' heroic sacrifices soon faded behind the prejudice that would plague the armed forces for another century.

*The men who launched and shaped black studies This book examines the lives, work, and contributions of two of the most important figures of the early black history movement, Carter G. Woodson and Lorenzo Johnston Greene. Drawing on the two men's personal papers as well as the materials of the Association for the Study of Negro Life and History (ASNLH), Pero Gaglo Dagbovie probes the struggles, sacrifices, and achievements of these black history pioneers. The book offers the first major examination of Greene's life. Equally important, it also addresses a variety of issues pertaining to Woodson that other scholars have either overlooked or ignored, including his image in popular and scholarly writings and memory, the democratic approach of the ASNLH, and the pivotal role of women in the association.*

*The Paper Bag Principle: Class, Colorism, and Rumor in the Case of Black Washington, D.C. considers the function of oral history in shaping community dynamics among African American residents of the nation's capitol. The only attempt to document rumor and legends relating to complex in black communities, The Paper Bag Principle looks at the divide that has existed between the black elite and the black "folk." The Paper Bag Principle focuses on three objectives: to record lore related to the "paper bag principle" (the set of attitudes that granted blacks with light skin higher status in black communities); to investigate the impact that this "principle" has had on the development of black community consciousness; and to link this material to power that results from proximity to whiteness. The Paper Bag Principle is sure to appeal to scholars and historians interested in African American studies, cultural studies, oral history, folklore, and ethnic and urban studies.*

*Excerpt from Free Negro Owners of Slaves in the United States in 1830: Together With Absentee Ownership of Slaves in the United States in 1830 attached hereto developed in a similar way. The investigators were impressed also with the frequent occurrence of such wide separation of the mas ter from the slave. In noting the cases of free Negro ownership it was a simple matter, then, to record also the cases of absentee ownership, and it was done accordingly. *A riveting account of one of the most remarkable episodes in American history. In his critically acclaimed history Freedom Summer, award-winning author Bruce Watson presents powerful testimony about a crucial episode in the American civil rights movement. During the sweltering summer of 1964, more than seven hundred American college students descended upon segregated, reactionary Mississippi to register black voters and educate black children. On the night of their arrival, the worst fears of a race-torn nation were realized when three young men disappeared, thought to have been murdered by the Ku Klux Klan. Taking readers into the heart of these remarkable months, Freedom Summer shines new light on a critical moment of nascent change in America. "Recreates the texture of that terrible yet rewarding summer with impressive verisimilitude." -Washington Post*

*Rediscover the forgotten story of how President Lincoln welcomed African Americans to his White House in America's most divided and war-torn era. Jonathan White illuminates why Lincoln's then-unprecedented welcoming of African American men and women to the White House transformed the trajectory of race relations in the United States. From his 1862 meetings with Black Christian ministers, Lincoln began inviting African Americans of every background into his home, from ex-slaves from the Deep South to champions of abolitionism such as Frederick Douglass and Sojourner Truth. More than a good-will gesture, the president conferred with his guests about the essential issues of citizenship and voting rights. Drawing from an array of primary sources, White reveals how African Americans used the White House as a national stage to amplify their calls for equality. Even 155 years after the signing of the Emancipation Proclamation, Lincoln's inclusion of African Americans remains a necessary example in a country still struggling from racial divisions today.*

*The Negro in Illinois was produced by a special division of the Illinois Writers' Project, one of President Roosevelt's Works Progress Administration programs. Headed by Harlem Renaissance poet Arna Bontemps and white proletarian writer Jack Conroy, The Negro in Illinois employed Richard Wright, Margaret Walker, Katherine Dunham, Fenton Johnson, Frank Yerby, Richard Durham, and other major black writers living in Chicago. The authors chronicled the African American experience in Illinois from the beginnings of slavery to the Great Migration. Individual chapters discuss various aspects of public and domestic life, recreation, politics, religion, literature, and performing arts. After the project's cancellation in 1942, most of the writings went unpublished for more than half a century--until now. Editor Brian Dolinar provides an informative introduction and epilogue which explain the origins of the project and place it in the context of the Black Chicago Renaissance.*
