

Black Visions

Los Angeles is well-known as a temperate paradise with expansive beaches and mountain vistas, a booming luxury housing market, and the home of glamorous Hollywood. During the first half of the twentieth century, Los Angeles was also seen as a mecca for both African Americans and a steady stream of migrants from around the country and the world, transforming Los Angeles into one of the world's most diverse cities. The city has become a multicultural maze in which many now fear that the political clout of the region's large black population has been lost. Nonetheless, the dream of a better life lives on for black Angelenos today, despite the harsh social and economic conditions many confront. Black Los Angeles is the culmination of a groundbreaking research project from the Ralph J. Bunche Center for African American Studies at UCLA that presents an in-depth analysis of the historical and contemporary contours of black life in Los Angeles. Based on innovative research, the original essays are multidisciplinary in approach and comprehensive in scope, connecting the dots between the city's racial past, present, and future. Through historical and contemporary anecdotes, oral histories, maps, photographs, illustrations, and demographic data, we see that Black Los Angeles is and has always been a space of profound contradictions. Just as Los Angeles has come to symbolize the complexities of the early twenty-first-century city, so too has Black Los Angeles come to embody the complex realities of race in so-called "colorblind" times. Black Visions: The Roots of Contemporary African-American Political Ideologies University of Chicago Press

This dynamic and comprehensive text from nationally renowned scholars continues to demonstrate the profound influence African Americans have had—and continue to have—on American politics. Using two interrelated themes—the idea of universal freedom and the concept of minority-majority coalitions—the text demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes. The authors show that through the quest for their own freedom in the United States, African Americans have universalized and expanded the freedoms of all Americans. New to the Ninth Edition • Updated sections on intersectionality, dealing with issues of race and gender. • Updated section on African American music, to include the role of Hip Hop. • Updated sections on mass media coverage of African Americans and the African American Celebrity impact on politics, adding new mention of the CROWN Act and politics of Black hair. • Updated section on the "Black Lives Matter" movement, adding a new section on the "MeToo" movement. • Updated sections on African Americans in Congress, with a new mention of the Squad. • Updated voting behavior through the 2020 elections, connecting the Obama years with the new administration. • Provides a comparison of the 2016 and

2020 presidential elections. • Discusses the way in which race contributes to the polarization of American politics in the 2020 presidential campaign. • Provides an analysis of the racial attitudes of President Trump, and the institutionally racist policies of his administrations. • Updated chapter on state and local politics, including a new section on state executive offices and Black mayors. • Updated sections on material well-being indicators, adding a new section on the coronavirus pandemic and the Black community. • Provides the first overall assessment of the Obama administration in relation to domestic and foreign policy and racial politics.

All across the US in the last few years, there has been a resurgence of Black protest against structural racism and other forms of racial injustice. *Black Resistance in the Americas* draws attention to this renewed energy and how this theme of resistance intersects with other communities of Black people around the world. This edited collection examines in depth stories of resistance against slavery, narratives of resistance in African American, Afro-Caribbean, and Afro-Latin American Literature, resistance in politics, education, religion, music, dance, and film, exploring a range of new perspectives from established and emerging researchers on Black communities. The essays in this pivotal book discuss some of the mechanisms that Black communities have used to resist bondage, domination, disempowerment, inequality, and injustices resulting from their encounters with the West, from colonization to forced migration.

Slave Missions and the Black Church in the Antebellum South

VISIONS OF A SKYLARK DRESSED IN BLACK is composed of 2 works of short fiction and 52 poems. It was first written and published as the global community not only came to grips with the reality of the attacks on 9/11 in 2001 but as a number of catastrophes shook humanity to its collective core throughout the first decade of the new century. People during that time on the one hand found themselves often reeling from the manmade horrors of war and terrorism. On the other, they also had to cope with the seemingly increasing fury of nature in the form of hurricanes, earthquakes, and tsunamis. Yet these external challenges frequently intensified individuals' inner resolve and moved them to confront physical world chaos with a persistent kind of grace and startled integrity.

This comprehensive analysis of the complex relationship of black political thought identifies which political ideologies are supported by blacks, then traces their historical roots and examines their effects on black public opinion.

BLACK PANTHER AND PHILOSOPHY Should Wakanda rule the world? Did Killmonger have a point? Do Wakanda's Black Lives Matter? Does hiding in the shadows make Wakanda guilty? What does Wakanda have to offer the world? Directed by Ryan Coogler and starring the late Chadwick

Boseman and Michael B. Jordan, 2018's Black Panther took the ruler and protector of Wakanda from the comic book to the movie screen. Earning seven Oscar nominations (including Best Picture) and winning three awards, Black Panther's nearly all-black cast (which included Oscar winners Lupita Nyong'o and Forest Whitaker, and Oscar nominated actress Angela Bassett) offered audiences the most socially and culturally significant film in the Marvel Cinematic Universe. Black Panther and Philosophy explores the characters and world of the Black Panther film and comics through the lenses of philosophy. Original essays on morality, justice, feminism, metaphysics, epistemology, existentialism, and Afrofuturism, tackle issues such as colonialism and chattel slavery, Black Lives Matter and the Black Panther Party, and intersectionality. With timely critical analysis, the authors not only illuminate Black Panther and Wakanda, but also help us navigate our interconnected world. As T'Challa says, "this never gets old." So, if you want to return to Wakanda, fight alongside Okoye and the Dora Milaje, help Shuri test out the latest panther suit in her lab, or maybe you think Killmonger was more of a victim than a villain, then Black Panther and Philosophy will engage you while not only showing what Wakanda can offer the world, but also what Wakanda can teach us about humanity's future.

What is the best way to understand black political ideology? Just listen to the everyday talk that emerges in public spaces, suggests Melissa Harris-Lacewell. And listen this author has--to black college students talking about the Million Man March and welfare, to Southern, black Baptists discussing homosexuality in the church, to black men in a barbershop early on a Saturday morning, to the voices of hip-hop music and Black Entertainment Television. Using statistical, experimental, and ethnographic methods Barbershops, Bibles, and B.E.T offers a new perspective on the way public opinion and ideologies are formed at the grassroots level. The book makes an important contribution to our understanding of black politics by shifting the focus from the influence of national elites in opinion formation to the influence of local elites and people in daily interaction with each other. Arguing that African Americans use community dialogue to jointly develop understandings of their collective political interests, Harris-Lacewell identifies four political ideologies that constitute the framework of contemporary black political thought: Black Nationalism, Black Feminism, Black Conservatism and Liberal Integrationism. These ideologies, the book posits, help African Americans to understand persistent social and economic inequality, to identify the significance of race in that inequality, and to devise strategies for overcoming it.

In Visions of the Black Belt, Robin McDonald and Valerie Pope Burnes offer a richly illustrated tour of the Black Belt, the fertile arc that represents the cultural efflorescence of Alabama's heartland. Like knowledgeable friends, McDonald and Burnes guide readers through the Black Belt's towns and architecture and introduce the region's great panoply of citizens, farmers, craftspeople, cooks, writers, and musicians. A constellation of Black Belt towns arose during Alabama's early decades, communities like Selma, Camden, Eutaw, Tuskegee, Greenville, and many more. Visions of the Black Belt recounts their stories and others, such as Demopolis's founding by exiles from Napoleon's France. Under a stormy sky, the ruins of Cahaba Alabama's lost capital reveal the secrets of this once-thriving Black Belt town. Also on this picturesque tour are the Black Belt's homes, from artless cabins wreathed in fern to great mansions wrapped with stately columns, such as Kirkwood and Reverie. Among the emblematic houses of worship lovingly photographed in Visions of the Black Belt is Prairieville's St. Andrew's Episcopal Church, noted for its Carpenter Gothic style. Also reflecting the region's history of faith are poignant graveyards such as Greenville's Pioneer Cemetery with its homespun memorials of seashell and concrete and the elegant lichen-clad marbles of Selma's Live Oak Cemetery. In photos and text, McDonald and Burnes bring to life the layers of history that shaped the Black Belt's tastes, sounds, and colors. Their gastronomic discoveries include the picant crawfish of the Faunsdale Bar & Grill and GainesRidge Dining Club's famed Black Bottom pie. They bring the sounds of the Black Belt to life, highlighting musicians representing a range of musical traditions from Native American to blues to country to gospel and of musical events like Eutaw's Black Belt Folk Roots Festival. They also introduce writers who draw inspiration from the Black Belt and visit the studios and workshops of the artists and craftspeople who transform the raw materials of their environment from wood, metal, and clay to cloth, glass, paint, and even hay into beautiful, profound, witty, and whimsical works of art. Including two maps and more than 370 full-color photographs, Visions of the Black Belt offers a timeless message of faith, determination, and the rich simplicity of living in harmony with the rhythms of the land and nature.

This dynamic and comprehensive text from two nationally renowned scholars continues to demonstrate the profound influence African Americans have had -- and continue to have -- on American politics. Through the use of two interrelated themes -- the idea of universal freedom and the concept of minority-majority coalitions -- the text demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes. The authors show that through the quest for their own freedom in the United States, African Americans have universalized and expanded the freedoms of all Americans. "Originally published, with appendix, in the Greenwood Press series, Contributions in Afro-American and African studies, no. 36, Westport, CT, c1979"--T.p. verso.

Militant Visions examines how, from the 1940s to the 1970s, the cinematic figure of the black soldier helped change the ways American moviegoers saw black men, for the first time presenting African Americans as vital and integrated members of the nation. In the process, Elizabeth Reich reveals how the image of the proud and powerful African American serviceman was crafted by an unexpected alliance of government propagandists, civil rights activists, and black filmmakers. Contextualizing the figure in a genealogy of black radicalism and internationalism, Reich shows the evolving images of black soldiers to be inherently transnational ones, shaped by the displacements of diaspora, Third World revolutionary philosophy, and a legacy of black artistry and performance. Offering a nuanced reading of a figure that was simultaneously conservative and radical, Reich considers how the cinematic black soldier lent a human face to ongoing debates about racial integration, black internationalism, and American militarism. Militant Visions thus not only presents a new history of how American cinema represented race, but also demonstrates how film images helped to make history, shaping the progress of the civil rights movement itself.

This book investigates the role, duties, and obligations of leaders and citizens through examining post-Civil Rights Black leaders and the patterns of behavior within the African American community. The major themes of this book include the significance of service, sacrifice, and commitment to the common good.

Dark Visions (Sarah Roberts Book One) Eighteen-year-old Sarah Roberts experiences blackouts from which she wakes to notes written by her own hand. Prophecies. *Dark Visions*. Future events with dire consequences only she can avert. Sarah is an Automatic Writer who suffers from a rare obsessive-compulsive disorder called trichotillomania. She receives a message that details a kidnapping and what she can do to stop it. She has averted kidnappings before. The notes are quite specific. She's convinced it won't be that hard. But things go wrong when the kidnappers spot her. People are killed. Witnesses place Sarah at the scene. The police find her notebook riddled with prophecies of accidents and crimes, and they want answers. Sarah is in a fight for her life with no one to trust and a kidnapping ring who only want to find out how she knows so much about them. The police are hunting her for very different reasons and her parents think she's at a sleepover.

"Black Hammer created by Jeff Lemire and Dean Ormston."

Prior to the 1960s, when African Americans had little access to formal political power, black popular culture was commonly seen as a means of forging community and effecting political change. But as Richard Iton shows, despite the changes politics, black artists have continued to play a significant role in the making of critical social spaces.

Meet T'Challa, the Black Panther, and explore his wondrous home of Wakanda in this beautifully crafted volume! Featuring action-packed artwork from all eras of Panther storytelling — beginning with his debut in Stan Lee and Jack Kirby's legendary FANTASTIC FOUR, through his first stint as a mighty Avenger, to his modern status as a solo-series star! There's jungle action aplenty as T'Challa, his closest allies and his fiercest foes star in stunning illustrations by legends such as Kirby, John Buscema, Rich Buckler, John Byrne, Mark Texeira and John Romita Jr.! Plus: Awesome covers and pages from the recent blockbuster revolution of Wakanda courtesy of the creative minds of writer Ta-Nehisi Coates and artistic collaborators Brian Stelfreeze, Chris Sprouse, Daniel Acuña and more!

This volume shares the experiences of African American students, faculty, staff, administrators and alumni who studied, worked, struggled and triumphed at Northwestern University from the late 19th century to the present. Through over fifty first person accounts, the stories of individuals and groups critical to the progression of the Black experience at Northwestern are used to reveal that evolution.

The story of art collective Gran Fury—which fought back during the AIDS crisis through direct action and community-made propaganda—offers lessons in love and grief. In the late 1980s, the AIDS pandemic was annihilating queer people, intravenous drug users, and communities of color in America, and disinformation about the disease ran rampant. Out of the activist group ACT UP (AIDS Coalition to Unleash Power), an art collective that called itself Gran Fury formed to campaign against corporate greed, government inaction, stigma, and public indifference to the epidemic. Writer Jack Lowery examines Gran Fury's art and activism from iconic images like the "Kissing Doesn't Kill" poster to the act of dropping piles of fake bills onto the trading floor of the New York Stock Exchange. Lowery offers a complex, moving portrait of a collective and its members, who built essential solidarities with each other and whose lives evidenced the profound trauma of enduring the AIDS crisis. Gran Fury and ACT UP's strategies are still used frequently by the activists leading contemporary movements. In an era when structural violence and the devastation of COVID-19 continue to target the most vulnerable, this belief in the power of public art and action persists.

Collects Star Wars: Vader - Dark Visions #1-5. Who is Darth Vader? He has been many things: enforcer, commander, destroyer. He is, to many throughout the Galactic Empire the ultimate symbol of power and fear. But there are those who have seen the Dark Lord in a different light. Some corners of the galaxy are so desperate that even Vader can be a knight in shining armor - while for certain Imperial Commanders, Vader's anger is the price of failure. But what is it like to lose your heart to a Sith Lord - and what fate awaits the star-crossed lover who has fallen for a man so unattainable? Plus learn how it feels to be an X-wing pilot going head-to-head with Vader's TIE Fighter - and discover more of the many sides of the galaxy's greatest villain!

An examination of the interrelationship between gender, race, narrative, and nationalism in black politics specifically within American politics as a whole. The author not only highlights the critical role of race and gender, she goes further to show how they operate to define political discourse and to determine public policy.

THE INSTANT NEW YORK TIMES BESTSELLER. From Kahran and Regis Bethencourt, the dynamite husband and wife duo behind CreativeSoul Photography, comes **GLORY**, a photography book that shatters the conventional standards of beauty for Black children. Featuring a foreword by Amanda Seales With stunning images of natural hair and gorgeous, inventive visual storytelling, **GLORY** puts Black beauty front and center with more than 100 breathtaking photographs and a collection of powerful essays about the children. At its heart, it is a recognition and celebration of the versatility and innate beauty of black hair, and black beauty. The glorious coffee-table book pays homage to the story of our royal past, celebrates the glory of the here and now, and even dares to forecast the future. It brings to life past, present, and future visions of black culture and showcases the power and beauty of recognizing and celebrating oneself. Beauty as an expression of who you are is power. When we define our own standards of beauty, we take back that power. **GLORY** encourages children around the world to feel that power and harness it.

Offers guidance to help African American males achieve their potential and fully realize their manhood, examining and comparing the actions of men and boys to provide a measuring stick to gauge personal development.

This timely interdisciplinary book considers national identity through the lens of urban spaces. By bringing together scholars from a range of disciplines, *The City as Power* provides broad comparative perspectives about the critical importance of urban landscapes as forums for creating, maintaining, and contesting identity and belonging. **GIFTED AND CURSED** Kaitlyn Fairchild has always felt like an outsider in her small hometown. Her haunting eyes and prophetic drawings have earned her a reputation as a witch. But Kait's not a witch: She's a psychic. Tired of being shunned, Kait accepts an

invitation to attend the Zetes Institute, where she can have a fresh start and study with other psychic teens. Learning to hone her abilities with four other gifted students, Kait discovers the intensity of her power -- and the joy of having true friends. But those friendships quickly become complicated when Kait finds herself torn between two irresistible guys. Rob is kind and athletic, and heals people with his good energy. Gabriel is aggressive and mysterious, a telepath concealing his true nature as a psychic vampire, feeding off of others' life energy. Together, Rob and Gabriel's opposing forces threaten the group's stability. Then one of the experiments traps the five teens in a psychic link. A link that threatens their sanity and their lives. And Kaitlyn must decide whom to trust...and whom to love.

Collection of seven new horror stories by Stephen King, Dan Simmons and George R R Martin.

*Within the history of African American struggle against racist oppression that often verges on dystopia, a hidden tradition has depicted a transfigured world. Daring to speculate on a future beyond white supremacy, black utopian artists and thinkers offer powerful visions of ways of being that are built on radical concepts of justice and freedom. They imagine a new black citizen who would inhabit a world that soars above all existing notions of the possible. In *Black Utopia*, Alex Zamalin offers a groundbreaking examination of African American visions of social transformation and their counterutopian counterparts. Considering figures associated with racial separatism, postracialism, anticolonialism, Pan-Africanism, and Afrofuturism, he argues that the black utopian tradition continues to challenge American political thought and culture. *Black Utopia* spans black nationalist visions of an ideal Africa, the fiction of W. E. B. Du Bois, and Sun Ra's cosmic mythology of alien abduction. Zamalin casts Samuel R. Delany and Octavia E. Butler as political theorists and reflects on the antiutopian challenges of George S. Schuyler and Richard Wright. Their thought proves that utopianism, rather than being politically immature or dangerous, can invigorate political imagination. Both an inspiring intellectual history and a critique of present power relations, this book suggests that, with democracy under siege across the globe, the black utopian tradition may be our best hope for combating injustice.*

*Some of the best known African American poems are sonnets: Claude McKay's "If We Must Die," Countee Cullen's "Yet Do I Marvel," Gwendolyn Brooks's "First fight. Then fiddle." Yet few readers realize that these poems are part of a rich tradition that formed after the Civil War and comprises more than a thousand sonnets by African American poets. Paul Laurence Dunbar, Jean Toomer, Langston Hughes, Margaret Walker, and Rita Dove all wrote sonnets. Based on extensive archival research, *The African American Sonnet: A Literary History**

traces this forgotten tradition from the nineteenth century to the present. Timo Müller uses sonnets to open up fresh perspectives on African American literary history. He examines the struggle over the legacy of the Civil War, the trajectories of Harlem Renaissance protest, the tensions between folk art and transnational perspectives in the thirties, the vernacular modernism of the postwar period, the cultural nationalism of the Black Arts movement, and disruptive strategies of recent experimental poetry. In this book, Müller examines the inventive strategies African American poets devised to occupy and reshape a form overwhelmingly associated with Europe. In the tightly circumscribed space of sonnets, these poets mounted evocative challenges to the discursive and material boundaries they confronted.

In a world in which political opportunity and liberation seem far away, the genre of science fiction grows in cultural importance and popularity. The contributors to this collection are political and social theorists from a range of disciplines who use science fiction as inspiration for new theories and examples of speculative politics. In dystopian governments, they find locations and forms of resistance. Representations of Political Resistance and Emancipation in Science Fiction explores a range of political and social theoretical concerns for the twenty-first century. Contributors analyze themes of post-humanism, resistance, agency, political community making, and ethics and politics during the Anthropocene.

How slaves created the organized black church while still under the oppression of bondage.

Black Intellectual Thought in Education celebrates the exceptional academic contributions of African-American education scholars Anna Julia Cooper, Carter G. Woodson, and Alain Leroy Locke to the causes of social science, education, and democracy in America. By focusing on the lives and projects of these three figures specifically, it offers a powerful counter-narrative to the dominant, established discourse in education and critical social theory--helping to better serve the population that critical theory seeks to advocate. Rather than attempting to "rescue" a few African American scholars from obscurity or marginalization, this powerful volume instead highlights ideas that must be probed and critically examined in order to deal with prevailing contemporary educational issues. Cooper, Woodson, and Locke's history of engagement with race, democracy, education, gender and life is a dynamic, demanding, and authentic narrative for those engaged with these important issues.

Barack Obama's election as the first black president in American history forced a reconsideration of racial reality and possibility. It also incited an outpouring of discussion and analysis of Obama's personal and political exploits. Paint the White House Black fills a

significant void in Obama-themed debate, shifting the emphasis from the details of Obama's political career to an understanding of how race works in America. In this groundbreaking book, race, rather than Obama, is the central focus. Michael P. Jeffries approaches Obama's election and administration as common cultural ground for thinking about race. He uncovers contemporary stereotypes and anxieties by examining historically rooted conceptions of race and nationhood, discourses of "biracialism" and Obama's mixed heritage, the purported emergence of a "post-racial society," and popular symbols of Michelle Obama as a modern black woman. In so doing, Jeffries casts new light on how we think about race and enables us to see how race, in turn, operates within our daily lives. Race is a difficult concept to grasp, with outbursts and silences that disguise its relationships with a host of other phenomena. Using Barack Obama as its point of departure, *Paint the White House Black* boldly aims to understand race by tracing the web of interactions that bind it to other social and historical forces.

American Dreams and Racial Realities

The Missing Traditions of Anna Julia Cooper, Carter G. Woodson, and Alain LeRoy Locke

Black Intellectual Thought in Education

Black Utopia

Paint the White House Black

Historically, Black Americans have easily found common ground on political, social, and economic goals. Yet, there are signs of increasing variety of opinion among Blacks in the United States, due in large part to the influx of Afro-Latino, Afro-Caribbean, and African immigrants to the United States. In fact, the very definition of "African American" as well as who can self-identity as Black is becoming more ambiguous. Should we expect African Americans' shared sense of group identity and high sense of group consciousness to endure as ethnic diversity among the population increases? In Black Mosaic, Candis Watts Smith addresses the effects of this dynamic demographic change on Black identity and Black politics. Smith explores the numerous ways in which the expanding and rapidly changing demographics of Black communities in the United States call into question the very foundations of political identity that has united African Americans for generations. African Americans' political attitudes and behaviors have evolved due to their historical experiences with American Politics and American racism. Will Black newcomers recognize the inconsistencies between the American creed and American reality in the same way as those who have been in the U.S. for several generations? If so, how might this recognition influence Black immigrants' political attitudes and behaviors? Will race be a site of coalition between Black immigrants and African Americans? In addition to face-to-face interviews with African Americans and Black immigrants, Smith employs nationally representative survey data to examine these shifts in the attitudes of Black Americans. Filling a significant gap in the political science literature to date, Black Mosaic is a groundbreaking study about the state of race, identity, and

politics in an ever-changing America.

In 1969, nineteen-year-old Robert Hunt was found dead in the Cairo, Illinois, police station. The white authorities ruled the death a suicide, but many members of the African American community believed that Hunt had been murdered -- a sentiment that sparked rebellions and protests across the city. Cairo suddenly emerged as an important battleground for black survival in America and became a focus for many civil rights groups, including the NAACP. The United Front, a black power organization founded and led by Reverend Charles Koen, also mobilized -- thanks in large part to the support of local Christian congregations. In this vital reassessment of the impact of religion on the black power movement, Kerry Pimblott presents a nuanced discussion of the ways in which black churches supported and shaped the United Front. She deftly challenges conventional narratives of the de-Christianization of the movement, revealing that Cairoites embraced both old-time religion and revolutionary thought. Not only did the faithful fund the mass direct-action strategies of the United Front, but activists also engaged the literature on black theology, invited theologians to speak at their rallies, and sent potential leaders to train at seminaries. Pimblott also investigates the impact of female leaders on the organization and their influence on young activists, offering new perspectives on the hypermasculine image of black power. Based on extensive primary research, this groundbreaking book contributes to and complicates the history of the black freedom struggle in America. It not only adds a new element to the study of African American religion but also illuminates the relationship between black churches and black politics during this tumultuous era.

The four men spotlighted in this book, together with other black religious and political leaders and communities, have developed distinctive and significant traditions of moral thinking and social criticism. . Although the principal concern of these thinkers was social justice entailing significant institutional transformations in American society, they were also attentive to the substantive content and formal character of the authentically free life and moral person. Indeed, most of them realized that authentic liberation required personal as well as social transformation. . Despite the significance and diversity of perspective in black theology, however, much of it does not adequately attend to the host of issues related to personal identity, wholeness, and fulfillment. ... This general inattention to the personal dimension of the liberation enterprise has important consequences. Failure to understand the person-centered dimension of a broader, inclusive societal transformation can lead to a disturbing paradox: an optimism concerning the future of society existing alongside personal and familial disintegration, despair and frustration. . Our method for correcting the perspectival imbalance in black theology is to identify the finest and most-trusted resources and reflections on personal wholeness in the modern black community and to present them for revision, reconsideration, and possible reappropriation. . In this book, I examine

*visions of human fulfillment and of the just society as presented by Booker T. Washington (1856-1915), W. E. B. Du Bois (1868-1963), Malcolm X (1925-1965), and Martin Luther King, Jr. (1929-1968). . As I examined the ranks of post-Reconstruction African American leaders, I did so with an eye for those whose intellectual and political influence upon past and present Americans could be characterized as monumental.
Poems expressing anger and Black pride.*
