Ryan and Selena Frederick were newlyweds when they landed in Switzerland to pursue Selena's dream of training horses. Neither of them knew at the time that Ryan was living out a death sentence brought on by a worsening genetic heart defect. Soon it became clear he needed major surgery that could either save his life--or result in his death on the operating table. The young couple prepared for the worst. When Ryan survived, they both realized that they still had a future together. But the near loss changed the way they saw all that would lie ahead. They would live and love fiercely, fighting for each other and for a Christ-centered marriage, every step of the way. Fierce Marriage is their story, but more than that, it is a call for married couples to put God first in their relationship, to measure everything they do and say to each other against what Christ did for them, and to see marriage not just as a relationship they should try to keep healthy but also as one worth fighting for in every situation. With the gospel as their foundation, Ryan and Selena offer hope and practical help for common struggles in marriage, including communication problems, sexual frustration, financial stress, family tension, screen-time disconnection, and unrealistic expectations.

This workbook contains a variety of exercises and activities designed to help young learners advance the fine motor skills that are essential to the handwriting process, beginning by tracing lines and curves, and then gently introducing some letter-writing practice. Several mazes are also included in the book as a fun way to promote visual motor skills, eye-hand coordination, and problem-solving skills. Young students are introduced to the letters of the alphabet in exercises that have them trace Lowercase Alphabet and then practice writing them on their own. Numbers are also presented in an engaging way, with a lesson in phonetics as well as exercises for tracing and writing numerals. A section of connect-the-dot games provides more motor skills development along with helping children learn the order of alphabet, while fill-in-the-blank games reinforce alphabet learning in a different way and provide more practice in writing the missing letters. My BIG Book of Writing! is a versatile tool that can help children who are struggling with writing skills to work at a comfortable level, as well as assisting those for whom writing comes more easily to experience the multitask learning their developing minds are hungry to absorb. Whatever level a child is at, the activities and exercises in this workbook will stimulate the learning process and prepare him or her for reading and other learning challenges ahead.

Awaken one...awaken them all. Insomniac Piper Laurel focuses on the simple things, the feel-good things. She likes her coffee black, her wine cheap, and her men gone by morning. But when her last living relative dies, she must confront the feel-bad things. She's the last Laurel, she's almost thirty, and she's completely alone. When she returns to her sleepy seaside hometown, her ex is still as yummy as ever, and a familiar-seeming stranger is also there to tug at her heartstrings. But a love triangle isn't the only thing waiting for her. The immortal Anik has spent centuries plotting to claim the last Laurel--and a lot of innocent souls in the bargain. To survive Anik and the Realm Wars, Piper must forget her version of reality and awaken to her destiny as a Seekin, Guardian of Souls. With two men vying for her heart and hellhounds on her heels, Piper must decide who she trusts and who she loves while embracing her destiny with her eyes wide open.

Carol Tyler has been a professional (and highly acclaimed) cartoonist for over 20 years, appearing in such venues as WeirDo, Wimmen's Comix, and Drawn & Quarterly magazine. But over the years her status as a working mother has drastically curtailed her ability to set aside time for her cartooning. Thus each rare new story from her pen has been greeted with hurrahs as well they should be, because she's one of the most skillful, caustic, and emphatic cartoon storytellers of her generation. This new book presents the biggest, richest and most delightful collection of Tyler's work to date featuring many new and previously unpublished works. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.9px Arial; color: #424242}

Are you harnessing the power of a journal? If you are going through life right now feeling like everything is out of control or that things are not happening the way you planned, you need a journal. I don't mean to be too direct, but it is time for you to discover why you feel the way you do and then figure out what to do about it. Or you can just write stuff in it! The great thing about a lined journal is you can make it into anything you want. A day timer, travel journal, diary, notebook for school, etc. If you need to write something down, a journal is the tool you need. If you want to use it for more than just a notepad then keep reading. Benefits Of Keeping A Journal Almost every successful person seems to have kept a journal in one form or another. Success in this case is not defined by money but overall happiness. Whether or not they called it journaling doesn't matter as they kept a record of their goals, success, failures, feelings and their daily life. Your journal contains the answers to your most burning questions. It is literally the best self-help book you could ever read because it is all about you. Just some of the benefits of journaling are: Allows you to reflect on your life and the changes you are choosing to make or not make Clarifies your thinking and as Tony Robbins says "Clarity is Power" Houses all your million dollar ideas that normally get lost in all the noise of life Exposes repeated patterns of behaviors that get you the results you DON'T want Acts as a bucket for you to brain dump in - a cluttered mind leads to a disorganized life Revisits daily situations giving you a chance to look at it with a different perspective Doesn't crash and lose everything you put into it like electronics (just like electronics though don't get it wet) You may want to keep multiple journals. One that contains your truest and most secret feelings that you guard heavily, but need a way to express. Another that contains all those fantastic ideas, dreams and awesome goals. Maybe just something you doodle in. No matter how you use it getting into the daily habit of journaling has the potential to improve the quality of your life. How To Use A journal Let's look past the simple fact you know how to physically write in a journal and dig into how to actually use your journal. It might contain all the secrets to life's biggest problems but unless you know how to uncover those secrets they stay hidden away in your words. Let the words flow from the heart and be filled with emotions, no holdbacks Make a daily journaling schedule. Each and every day take the time to record your thoughts morning and night. If you love to type notes into your phone all day transfer them to your journal after. Sit in a quiet spot and allow yourself to be judgement free. Your journal is not a reason to turn yourself into an emotional punching bag. Start small. You do not need to write a specific number of words. Just the right amount of honest words that let you feel a sense of being free from negativity and energized with possibility. If you write in your journal like someone is going to read it, you will ever allow yourself to fully express what needs to be expressed. Write like no one will ever read it because it is likely no one ever will unless you want them to. Write how you loved something, were mad at someone, wished something was different or anything you need to. Just do it. Start today writing in your journal. You could even put "Today I bought this awesome journal and will recommend all my friends do the same." Wink Wink Scroll up and hit the add to cart button now.

Ghosts and other entities can appear at anytime and in any place and you want to be prepared to document your encounters. This book was designed to help you do just that. Whether you are new at ghost hunting or a long time avid ghost hunter (without the TV crew and back-up brigade) it is important to track your encounters.

Alphabet Tracing, Letters A-Z, provides extensive focus on alphabet tracing and printed letter formation for the preschool and kindergarten beginning writer. The full-page format focuses on one alphabet at a time, which allows additional alphabet tracing practice for the beginning writer. This children's handwriting workbook has a minimum of 30 opportunities to trace each alphabet before free-writing practice pages are presented. Once a student has adequately mastered tracing each alphabet they may then move on to the next section or skip around to other alphabets as comfortable. Daily penmanship practice will help increase your student's ability to: -Print uppercase and lowercase letters of the alphabet and recognize the difference between the two. -Write from left to right and top to bottom of page. -Recognize spacing between printed alphabet letters and eventually words. -Understand the concept of writing letters. -Write words and brief sentences that are legible. -Write his/her own first and last name and other important words. Some neurologists advocate writing to learn. One states, "The practice of writing can enhance the brain's intake, processing, retaining, and retrieving of information. Through writing, students can increase their comfort with and success in understanding complex material, unfamiliar concepts, and subject-specific vocabulary." Preschool and Kindergarten is the perfect time to prepare for alphabet tracing and handwriting practice since preschool, kindergarten and 1st grade students do not have to prepare for assessments. Focus can instead be placed on their literacy development. Reading to children and talking to them directly can be huge. Parents can start conversations-helping to build verbal vocabulary, write a grocery list together-helping to practice handwriting skills, and select books together at the library-allowing students to enjoy the usefulness of the printed word. Another way to raise their awareness of language in their environment is to point to street signs, billboards, traffic signs, and menus in restaurants-saying the whole word and/or pointing to each individual alphabet while saying calling out each letter. This alphabet tracing workbook for preschool, kindergarten, and 1st grade is a perfect companion to online and computerized alphabet software to teach kids alphabet recognition. It can be used on short and long car rides. Getting students used to using paper workbooks will give them a distinct advantage over students who have only used wipe clean alphabet books and computerized alphabet software-this alphabet tracing book is similar to the writing, social studies, and language arts workbooks students will use in their classrooms.
