Chapter 1 BLUEPRINTS
**When you have read and
understood this chapter,**

Page 66/135

Online Library Blueprint
Reading For The Machine
Trades 7th Edition Answer Key
Book

**you should be able to
answer the following
learning objectives:
Describe blueprints and
how they are produced.
Identify the information
contained in blueprints.**

Explain the proper filing of blueprints. Blueprints (prints) are copies of mechanical or other types of technical drawings. The term blueprint reading, means

Online Library Blueprint
Reading For The Machine
Trades 7th Edition Answer Key
Book

**interpreting ideas
expressed by others on
drawings, whether or not
the drawings are actually
blueprints. Drawing or
sketching is the universal
language used by**

Online Library Blueprint

**the drawing. Blueprints
show the construction
details of parts,
machines, ships, aircraft,
buildings, bridges, roads,
and so forth. BLUEPRINT
PRODUCTION Original**

Online Library Blueprint
Reading For The Machine
Trades 7th Edition Answer Key
Book

**drawings are drawn, or
traced, directly on
translucent tracing paper
or cloth, using black
waterproof India ink, a
pencil, or computer aided
drafting (CAD) systems.**

The original drawing is a tracing or “master copy.” These copies are rarely, if ever, sent to a shop or site. Instead, copies of the tracings are given to persons or offices where

Online Library Blueprint
Reading For The Machine
Trades 7th Edition Answer Key
Book

needed. Tracings that are properly handled and stored will last indefinitely. The term blueprint is used loosely to describe copies of original drawings or

tracings. One of the first processes developed to duplicate tracings produced white lines on a blue background; hence the term blueprint. Today, however, other

methods produce prints of different colors. The colors may be brown, black, gray, or maroon. The differences are in the types of paper and developing processes

used. A patented paper identified as BW paper produces prints with black lines on a white background. The diazo, or ammonia process, produces prints with

either black, blue, or maroon lines on a white background. Another type of duplicating process rarely used to reproduce working drawings is the

photostatic process in which a large camera reduces or enlarges a tracing or drawing. The photostat has white lines on a dark background. Businesses use this

process to incorporate reduced-size drawings into reports or records. The standards and procedures prescribed for military drawings and blueprints are stated in

military standards (MIL-STD) and American National Standards Institute (ANSI) standards. The Department of Defense Index of Specifications

Online Library Blueprint
Reading For The Machine
Trades 7th Edition Answer Key
Book

and Standards lists these standards; it is issued on 31 July of each year. The following list contains common MIL-STD and ANSI standards, listed by number and title, that
