It's never too late to improve your brain. Achieving and maintaining a higher level of mental fitness can be surprisingly fun—and to your brain, it's healthy exercise. In this follow-up volume to her bestselling 399 Games, Puzzle & Trivia Challenges Designed to Keep Your Brain Young, Nancy Linde offers a brand-new collection of puzzles, trivia challenges, brainteasers, and word games that are not only great fun to do but are specifically designed to give your brain the kind of workout that stimulates neurogenesis, the process that allows the brain to grow new cells. Cross-train your brain by targeting 6 key cognitive functions: Long-term memory, working memory, executive functioning, attention to detail, multitasking, and processing speed. This is the kind of exercise you'll want to do, and all it takes is 10 to 15 minutes a day for a full workout.

How videogames offer a new way to do journalism. Journalism has embraced digital media in its struggle to survive. But most online journalism just translates existing practices to the Web: stories are written and edited as they are for print; video and audio features are produced as they would be for television and radio. The authors of Newsgames propose a new way of doing good journalism: videogames. Videogames are native to computers rather than a digitized form of prior media. Games simulate how things work by constructing interactive models; journalism as game involves more than just revisiting old forms of news production. Wired magazine's game Cutthroat Capitalism, for example, explains the economics of Somali piracy by putting the player in command of a pirate ship, offering choices for hostage negotiation strategies. Videogames do not offer a panacea for the ills of contemporary news organizations. But if the industry embraces them as a viable method of doing journalism—not just an occasional treat for online readers—newsgames can make a valuable contribution.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being

rescued.

Established in 1911, The Rotarian is the official magazine of Rotary International and is circulated worldwide. Each issue contains feature articles, columns, and departments about, or of interest to, Rotarians. Seventeen Nobel Prize winners and 19 Pulitzer Prize winners - from Mahatma Ghandi to Kurt Vonnegut Jr. - have written for the magazine. Writing with wit and verve, Mike Veseth (a.k.a. the Wine Economist) tells the compelling story of the war between the market trends that are redrawing the world wine map and the terroirists who resist them. Wine and the wine business are at a critical crossroad today, transformed by three powerful forces. Veseth begins with the first force, globalization, which is shifting the center of the wine world as global wine markets provide enthusiasts with a rich but overwhelming array of choices. Two Buck Chuck, the second force, symbolizes the rise of branded products like the famous Charles Shaw wines sold in Trader Joe's stores. Branded corporate wines simplify the worldwide wine market and give buyers the confidence they need to make choices, but they also threaten to dumb down wine, sacrificing terroir to achieve marketable McWine reliability. Will globalization and Two Buck Chuck destroy the essence of wine? Perhaps, but not without a fight, Veseth argues. He counts on "the revenge of the terroirists" to save wine's soul. But it won't be easy as wine expands to exotic new markets such as China and the very idea of terroir is attacked by both critics and global climate change. Veseth has "grape expectations" that globalization, Two Buck Chuck, and the revenge of the terroirists will uncork a favorable future for wine in an engaging tour-de-force

that will appeal to all lovers of wine, whether it be boxed, bagged, or bottled.

"[A] timely book...It's All a Game provides a wonderfully entertaining trip around the board, through 4,000 years of game history." —The Wall Street Journal Board games have been with us longer than even the written word. But what is it about this pastime that continues to captivate us well into the age of smartphones and instant gratification? In It's All a Game, British journalist and renowned games expert Tristan Donovan opens the box on the incredible and often surprising history and psychology of board games. He traces the evolution of the game across cultures, time periods, and continents, from the paranoid Chicago toy genius behind classics like Operation and Mouse Trap, to the role of Monopoly in helping prisoners of war escape the Nazis, and even the scientific use of board games today to teach artificial intelligence how to reason and how to win. With these compelling stories and characters, Donovan ultimately reveals why board games have captured hearts and minds all over the world for generations.
