Never before have the forces and individuals of television news been so thoroughly and authoritatively examined.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free Stateland having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years|it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

The Hollywood Reporter

"In the courtroom and the classroom, in popular media, public policy, and scholarly pursuits, the Holocaust-its origins, its nature, and its implications-remains very much a matter of interest, debate, and controversy. Arriving at a time when a new generation must come to terms with the legacy of the Holocaust or forever lose the benefit of its historical, social, and moral lessons, this volume offers a richly varied, deeply informed perspective on the practice, interpretation, and direction of Holocaust research now and in the future. In their essays the authors-an international group including eminent senior scholars as well those who represent the future of the field-set the agenda for Holocaust studies in the coming years, even as they give readers the means for understanding today's news and views of the Holocaust, whether in court cases involving victims and perpetrators; international, national, and corporate developments; or fictional, documentary, and historical accounts. Several of the essays-such as one on nonarmed "amidah" or resistance and others on the role of gender in the behavior of perpetrators and victims-provide innovative and potentially significant interpretive frameworks for the field of Holocaust studies. Others; for instance, the rounding up of Jews in Italy, Nazi food policy in Eastern Europe, and Nazi anti-Jewish scholarship, emphasize the importance of new sources for reconstructing the historical record. Still others, including essays on the 1964 Frankfurt trial of Auschwitz guards and on the response of the Catholic Church to the question of German guilt, bring a new depth and sophistication to highly charged, sharply politicized topics. Together these essays will inform the future of the Holocaust in scholarly research and in popular understanding."--De l' é diteur.

A collection of interrelated tales chronicles the corporate rise of Adam Posner, who is spiritually and psychologically haunted by the legacy and dreams of his dead parents, survivors of the Holocaust. A first collection. Reprint.

Elie Wiesel: A Religious Biography argues that Wiesel's religious faith is the driving force behind Wiesel's status as a moral authority|that he is essentially a generative religious personality, a poet-prophet|who deepened his own particular Jewish vision to eventually become a "link" with humanity. As a religious genius and spiritual innovator of the post-modern era, Wiesel is a conflicted individual who joins his own personal and existential struggle for meaning and identity with the quest of the oppressed after the Holocaust.

An autobiographical narrative in which the author describes his experiences in Nazi concentration camps, watching family and friends die, and how they led him to believe that God is dead.

For the first time ever, a book unravels the complex process of the tremendous delegitimization efforts directed toward Israel. "The War of a Million Cuts" explains how these attempts at the delegitimization of Israel, as well as anti-Semitism can be fought. The book describes the hateful messages of those who defame Israel and the Jews, details why anti-Semitism and anti-Israelism have the same core motifs, and discusses the main groups of inciters, including Muslim states, Muslims in the Western world, politicians, media, NGOs, church leaders, those on the extreme left and the extreme right, Jewish self-haters, academics, social democrats and many others. It explains how the hate messages are effectively transmitted to the public at large, and discusses what impact the delegitimization has already made on Israel and the Jews.

An in-depth look at Elie Wiesel's writings, from his earliest works to his final novels. Elie Wiesel (1928–2016) was one of the most important literary voices to emerge from the Holocaust. The Nazis took the lives of most of his family, destroyed the community in which he was raised, and subjected him to ghettoization, imprisonment in Auschwitz and Buchenwald, and a death march. It is remarkable not only that Wiesel survived and found a way to write about his experiences, but that he did so with elegance and profundity. His novels grapple with questions of tradition, memory, trauma, madness, atrocity, and faith. The Struggle for Understanding examines Wiesel's literary, religious, and cultural roots and the indelible impact of the Holocaust on his storytelling. Grouped in sections on Hasidic origins, the role of the Other, theology and tradition, and later works, the chapters cover the entire span of Wiesel's career. Books analyzed include the novels Dawn, The Forgotten, The Gates of the Forest, The Town Beyond the Wall, The Testament, The Time of the Uprooted, The Sonderberg Case, and Hostage, as well as his memoir, Night. What emerges is a portrait of Wiesel's work in its full literary richness. Patterns: Words aren't arranged randomly or alphabetically, but in similar groups based on meaning and origin that make words easier to remember over time. 2. Deeper Meanings, More Examples: Full explanations–not just brief definitions–of what the words mean, plus multiple examples of the words in sentences. 3. Quick Activities: Frequent short quizzes help you test how much you've learned, while helping your brain internalize their meanings.

"Dispels the myth that people of color are somehow predisposed to poor health, blaming systemic injustice in the health care system." —New York Times Book Review Legendary comedian D.L. Hughley uses his "hilarious yet soul-shaking" (Black Enterprise) humor to confront racism's unjust impact on the health and wellbeing of Blacks and minorities White people love survival guides. But have you noticed they're always about ridiculous activities in locations far from home, with chapters like "How to Survive an Avalanche" or "How to Live on Bugs in the Jungle." Huh?! You know who really needs a survival guide? Black and brown Americans. For surviving their own damn country! Minority populations wake up every day in a battle for their health and safety. Thankfully, legendary activist-comedian D.L. Hughley offers How to Survive America, a fearless satire that exposes racism's unjust toll on our bodies and minds. Even before COVID-19 disproportionately impacted minority communities, life expectancy for Blacks was a full three years less than for white Americans. The very air we breathe is more polluted, our water is more contaminated, our local food options are toxic, and our jobs are underpaid. Despite the obvious need, the quality of our health care is tragically inadequate. Our communities are statistically less safe than the average, and yet we're terrorized by the law-enforcement and criminal-justice systems that are supposed to protect us, sending Blacks to prison at five times the rate of whites. Not least, our means of addressing these injustices—voting—is perennially under assault. It's enough to drive you crazy. Well, guess what? According to Cigna, Blacks are 20 percent more likely to report "psychological distress" yet "50 percent less likely to receive counseling or mental health treatment." It's almost like the entire country has been structured with no regard for our welfare. Hmmm. Whether you're Black, white, brown, or Asian, don't leave home without arming yourself with How to Survive America!

The Comparative Survey of Freedom is an institutional effort by Freedom House to monitor the progress and decline of political rights and civil liberties in 191 nations and 59 related territories. These year-end reviews of freedom began in 1955, when they were called the Balance Sheet of Freedom and, still later, the Annual Survey of the Progress of Freedom. This program was expanded in the early 1970s, and has appeared in Freedom Review since 1973. It has also been issued in a more developed context as a yearbook since 1978. Since 1989, the Survey project has been a year-long effort produced by regional experts, consultants and human rights specialists. The Survey derives its information from a wide range of sources. Most valued of these are the many human rights activists, journalists, editors and political figures around the world who keep us informed of the human rights situation in their countries. Throughout the year, Freedom House personnel regularly conduct fact-finding missions to gain more in-depth knowledge of the vast political transformations affecting our world. During these week-to-month-long investigations, we make every effort to meet a cross-section of political parties and associations, human rights monitors, religious figures, representatives of both the private sector and trade union movement, academics and journalists. During the past year, Freedom House staff traveled to numerous countries throughout most of the world's geographical and political regions. The Survey project team also consults a vast array of published source materials, ranging from the reports of other human rights organizations to often rare, regional newspapers and magazines. This year's Survey team includes: Adrian Karatnycky, Martin Edwin Anderson, Kristen Guida, Marshall Freeman Harris, Thomas R. Lansner, Arch Puddington, Leonard R. Sussman, and George Zarycky. The general editor of Freedom in the World is Roger Kaplan; the managing editor is Tara Kelly. This year's research coordinator was Charles Graybow.

Islamist political parties and groups are on the rise throughout the Muslim world, constituting a new political Islam that is global in scope and yet local in action. Emmanuel Karagiannis explains how various Islamists have endorsed human rights, democracy, and justice to gain influence and mobilize supporters.

Controversial manifesto by acclaimed cultural theorist debated by leading writers Fredric Jameson's pathbreaking essay "An American Utopia" radically questions standard leftist notions of what constitutes an emancipated society. Advocated here are—among other things—universal conscription, the full acknowledgment of envy and resentment as a fundamental challenge to any communist society, and the acceptance that the division between work and leisure cannot be overcome. To create a new world, we must first change the way we envision the world. Jameson's text is ideally placed to trigger a debate on the alternatives to global capitalism. In addition to Jameson's essay, the volume includes responses from philosophers and political and cultural analysts, as well as an epilogue from Jameson himself. Many will be appalled at what they will encounter in these pages—there will be blood! But perhaps one has to spill such (ideological) blood to give the Left a chance. Contributing are Kim Stanley Robinson, Jodi Dean, Saroj Giri, Agon Hamza, Kojin Karatani, Frank Ruda, Alberto Toscano, Kathi Weeks, and Slavoj Žižek.

Quantile regression is gradually emerging as a unified statistical methodology for estimating models of conditional quantile functions. By complementing the exclusive focus of classical least squares regression on the conditional mean, quantile regression offers a systematic strategy for examining how covariates influence the location, scale and shape of the entire response distribution. This monograph is the first comprehensive treatment of the subject, encompassing models that are linear and nonlinear, parametric and nonparametric. The author has devoted more than 25 years of research to this topic. The methods in the analysis are illustrated with a variety of applications from economics, biology, ecology and finance. The treatment will find its core audiences in econometrics, statistics, and applied mathematics in addition to the disciplines cited above.

An urgent manifesto and a dramatic memoir of awakening, this is the story of revolutionary love. Finalist for the Dayton Literary Peace Prize • "In a world stricken with fear and turmoil, Valarie Kaur shows us how to summon our deepest wisdom."—Elizabeth Gilbert, author of Eat Pray Love How do we love in a time of rage? How do we fix a broken world while not breaking ourselves? Valarie Kaur—renowned Sikh activist, filmmaker, and civil rights lawyer—describes revolutionary love as the call of our time, a radical, joyful practice that extends in three directions: to others, to our opponents, and to ourselves. It enjoins us to see no stranger but instead look at others and say: You are part of me I do not yet know. Starting from that place of wonder, the world begins to change: It is a practice that can transform a relationship, a community, a culture, even a nation. Kaur takes readers through her own riveting journey—as a brown girl growing up in California farmland finding her place in the world; as a young adult galvanized by the murders of Sikhs after 9/11; as a law student fighting injustices in American prisons and on Guantánamo Bay; as an activist working with communities recovering from xenophobic attacks; and as a woman trying to heal from her own experiences with police violence and sexual assault. Drawing from the wisdom of sages, scientists, and activists, Kaur reclaims love as an active, public, and revolutionary force that creates new possibilities for ourselves, our communities, and our world. See No Stranger helps us imagine new ways of being with each other—and with ourselves—so that together we can begin to build the world we want to see.
