The Emmett Till Story

Lessons from 500 of the World's Best Unknown Companies

This Handbook offers a comprehensive overview of the latest research from leading scholars on the international political economy of energy and resources. Highlighting the important conceptual and empirical themes, the chapters study all levels of governance, from global to local, and explore the wide range of issues emerging in a changing political and economic environment.

First published in 2004. The purpose of this reference work is to offer a range of materials covering the history of the East India Company during the two and a half centuries of its existence. Volume III provides primary materials on the vivid controversy that engulfed the Company at one of the most crucial moments in this transition, leading to the British government's first intervention in 1772-3 to reconstruct the Company's management both at home and in India. The controversy is examined through two publications, William Bolts' Considerations on India Affairs (1772) and Harry Verelst's A View of the Rise, Progress and Present State of the English Government in Bengal (1772).

Describes the management techniques followed by lesser-known companies that have, nonetheless, attained global market shares of seventy percent

"This is a biography of Milt Schornack, one of Detroit's top mechanics in the 1960s, who pioneered the Ram Air system and, as a tuner and driver, became the face of Pontiac's legendary GTO"--Provided by publisher.

"This book will provide a complete and easy-to-understand reference for the growing band of people wishing to keep their own chickens for both food and pleasure. Pitched at the novice but also containing plenty to interest the experienced chicken-keeper, the book will contain no-nonsense advice, tips, facts and step-by step sequences, as well as plenty of relevant photographs and diagrams. As more people keep chickens nowadays than at any time since the Second World War, this book is a timely addition to the Haynes range."--Publisher description.
