The Ciano Diaries are one of the most important documents recording the events taking place in Europe leading up to the Second World War and how they effected the rest of the world. Galezzo Ciano was in the forefront of those momentous events, not only because he happened to be Mussolini's son in law, but most important because at the age of 35 he was also Italy's Minister of Foreign Affairs and one of the major proponents of

A groundbreaking handbook--the "method" companion to its critically acclaimed predecessor, The Flavor Thesaurus--with a foreword by Yotam Ottolenghi. Niki Segnit used to follow recipes to the letter, even when she'd made a dish a dozen times. But as she tested the combinations that informed The Flavor Thesaurus, she detected the basic rubrics that underpinned most recipes. Lateral Cooking offers these formulas, which, once readers are familiar with them, will prove infinitely adaptable. The book is divided into twelve chapters, each

covering a basic culinary category, such as "Bread," "Stock, Soup & Stew," or "Sauce." The recipes in each chapter are arranged on a continuum, passing from one to another with just a tweak or two to the method or ingredients. Once you've got the hang of flatbreads, for instance, then its neighboring dishes (crackers, soda bread, scones) will involve the easiest and most intuitive adjustments. The result is greater creativity in the kitchen: Lateral Cooking encourages improvisation, resourcefulness, and, ultimately, the knowledge and confidence to cook by heart. Lateral Cooking is a practical book, but, like

Plutarch: Demosthenes and Cicero

Life of Vittorio Alfieri

Leonardo da Vinci periodico illustrato di educazione e diletto

This volume is the first translation of Romano Bilenchi's 1940 masterpiece to appear in English. This is surprising since The Conservatory of Santa Teresa is much more than an invaluable historical document of life in provincial Tuscany around the time of the First World War. It is truly one of the most important works of fiction published in Italy under Fascism. In telling of the pre-adolescent Sergio's

encounter with the larger world of sex, politics, and the violence and cruelty of adult life, Bilenchi succeeds in representing a universal paradigm, that of the clash of innocence with experience. But what makes Sergio's trajectory unique is that he goes through it in the company of three extraordinary women who are at once femmes fatales and benevolent guides: his mother, his aunt, and his tutor, all almost unbearably beautiful, as least in Sergio's eyes. These women, plus the dazzling landscape of the Sienese countryside as captured by Bilenchi, make Sergio's journey an enviable even if sometimes painful and bewildering experience.

Together they reveal the searching intellect, clarity and passionate commitment of a great writer at work. 'This literally marvelous collection of letters shows him to have been gregarious, puckish, funny, combative, and, above all, wonderful company, and opens a new and fascinating perspective on one of the master writers of the twentieth century. In deepening our understanding of the symposium in ancient Greece, this book embodies the wit and play of the images it explains: those decorating Athenian drinking vessels from the sixth and fifth centuries B.C. The vases used at banquets often depict the actual drinkers who commissioned their production and convey the flowing together of wine,

poetry, music, games, flirtation, and other elements that formed the complex structure of the banquet itself. A close reading of the objects handled by drinkers in the images reveals various metaphors, particularly that of wine as sea, all expressing a wide range of attitudes toward an ambiguous substance that brings cheer but may also cause harm. Not only does this work offer an anthropological view of ancient Greece, but it explores a precise iconographic

system. In so doing it will encourage and enrich further reflection on the role of the image in a given culture. Originally published in 1990. Thomas Mann, fascinated with the concept of genius and with the richness of German culture, found in Johann Wolfgang von Goethe the embodiment of the German culture hero. Mann's novelistic biography of Goethe was first

published in English in 1940. Lotte in Weimar is a vivid dual portrait—a complex study of Goethe and of Lotte, the still-vivacious woman who in her youth was the model for Charlotte in Goethe's widely-read *The Sorrows of Young Werther*. Lotte's thoughts, as she anticipates meeting Goethe again after forty years, and her conversations with those in Weimar who knew the great man, allow Mann to assess Goethe's genius from many points of view. In October 1986, Ronald Reagan and Mikhail Gorbachev met for a forty-eight-hour summit in Reykjavik, Iceland. Planned as a short, inconsequential gathering to outline future talks, the meeting quickly turned to major international issues, including the strategic defense initiative and the possibility of eliminating all nuclear weapons—negotiations that laid the groundwork for the most sweeping arms accord in history the

Symposiacs By Plutarch Plutarch (Lucius Mestrius Plutarchus), was a Greek historian, biographer, and essayist, known primarily for his Parallel Lives and Moralia. He is considered today to be a Middle Platonist. He was born to a prominent family in Chaeronea, Boeotia, a town about twenty miles east of Delphi. Symposiacs is one of Plutarch's less known essays. Happens to many works of antiquity like this one, small pieces of the book are missing. Unfortunately because that, some "questions" made in the Symposiacs are forever missing an answer. YOU have demanded of me, Novatus, that I should write how anger may be soothed, and it appears to me that you are right in feeling especial fear of this passion, which is above all others hideous and wild: for the others have some alloy of peace and quiet, but this consists wholly in action and the impulse of grief, raging with an utterly inhuman lust for arms, blood

Some of the wisest of men have in consequence of this called anger a short madness: for it is equally devoid of self control, regardless of decorum, forgetful of kinship, obstinately engrossed in whatever it begins to do, deaf to reason and advice, excited by

Cutting through the familiar clichés, he instructs us with a cascade of anecdotes and provides a marvellous guided tour through centuries of history. He examines Machiavelli and Mussolini, popes, pilgrims and prostitutes, cliques and conspiracies, Casanova and the crippling power of the Church. Clearly organised, it describes patterns in the sentence structure, sound system, word formation and word use in AAE. The textbook examines topics such as education, speech events in the secular and religious world, and the use of language in literature and the media to create black images. It includes exercises to accompany each chapter and will be essential reading for students in linguistics, education, anthropology, African American studies and literature.
