

## *Book List English Section S1*

This book is based on a study of referees' reports and letters from journal editors on reasons why papers written by non-native researchers are rejected due to problems with English (long sentences, redundancy, poor structure etc). It draws on English-related errors from around 5000 papers written by non-native authors, around 3000 emails, 500 abstracts by PhD students, and over 1000 hours of teaching researchers how to write and present research papers. The exercises are organized into ten chapters on: punctuation and spelling word order writing short sentences and paragraphs link words - connecting phrases and sentences together being concise and removing redundancy ambiguity and political correctness paraphrasing and avoiding plagiarism defining, comparing, evaluating and highlighting anticipating possible objections, indicating level of certainty, discussion limitations, hedging, future work writing each section of a paper Some exercises require no actual writing but simply choosing between various options, thus facilitating self-study, e-reading and rapid progress. In those exercises where extended writing is required, model answers are given. Exercise types are repeated for different contexts, for example the importance of being concise is tested for use in papers, referees' reports, and emails of various types. Such repetition of similar types of exercises is designed to facilitate revision. The exercises can also be integrated into English for Academic Purposes (EAP) and English for Special Purposes (ESP) courses at universities and research institutes. The book can be used in conjunction with the other exercise books in the series and is cross-referenced to: English for Research: Usage, Style, and Grammar English for Writing Research Papers

This new edition of Teaching Secondary English is thoroughly revised, but its purpose has not changed. Like the popular first edition, it balances content knowledge with methodology, theory with practice, and problem-posing with suggested solutions. The tone and format are inviting, while addressing student-readers on a professional level. Rather than attempting to cover everything, the text provides a framework and materials for teaching a secondary English methods course, while allowing considerable choice for the instructor. The focus is on teaching literature, writing, and language--the basics of the profession. Attention is given to the issues that arise as one seeks to explore what it means to "teach English." The problems and tensions of becoming a teacher are discussed frankly, in a manner that helps students figure out their own attitudes and solutions. Features: \* Focuses on a few central concepts in the teaching of secondary English \* Provides an anthology of 22 readable and challenging essays on key topics--allowing students to hear a variety of voices and opinions \* Includes an applications section for each reading that extends the discussion and asks students to explore problems and grapple with important issues related to the articles \* Offers short writing assignments in questions that follow the readings and in brief writing tasks in the applications, and a longer writing assignment at the end of each chapter \* Addresses student readers directly without talking down to them New in the Second Edition: \* This edition is shorter, tighter, and easier to use. \* The opening and concluding chapters more directly address the concerns of new teachers. \* The anthology is substantially

updated (of the 22 articles included, 14 are new to this edition). \* Each essay is preceded by a brief introduction and followed by questions for further thought. \* There are fewer applications, but these are more extensive and more fully integrated within the text. \* A writing assignment is provided at the end of each chapter. \* Interviews with college students--before and after student teaching--are included in Chapters 1 and 6. \* The bibliographies at the end of each chapter are fully updated.

Learning English Incidentally

Publishing your research in an international journal is key to your success in academia. This guide is based on a study of over 1000 manuscripts and reviewers' reports revealing why papers written by non-native researchers are often rejected due to problems with English usage and poor structure and content. With easy-to-follow rules and tips, and examples taken from published and unpublished papers, you will learn how to: prepare and structure a manuscript increase readability and reduce the number of mistakes you make in English by writing concisely, with no redundancy and no ambiguity write a title and an abstract that will attract attention and be read decide what to include in the various parts of the paper (Introduction, Methodology, Discussion etc) highlight your claims and contribution avoid plagiarism discuss the limitations of your research choose the correct tenses and style satisfy the requirements of editors and reviewers This new edition contains over 40% new material, including two new chapters, stimulating factoids, and discussion points both for self-study and in-class use. EAP teachers will find this book to be a great source of tips for training students, and for preparing both instructive and entertaining lessons. Other books in the series cover: presentations at international conferences; academic correspondence; English grammar, usage and style; interacting on campus, plus exercise books and a teacher's guide to the whole series. Please visit <http://www.springer.com/series/13913> for a full list of titles in the series. Adrian Wallwork is the author of more than 30 ELT and EAP textbooks. He has trained several thousand PhD students and academics from 35 countries to write research papers, prepare presentations, and communicate with editors, referees and fellow researchers.

**Library Catalogues of the English Renaissance**

This book focuses on strategies and procedures for assessing the academic language ability of students entering an English-medium university, so that those with significant needs can have access to opportunities to enhance their language skills.

A series of four books that provide extensive guidance and English practice in key areas of the language. This book for lower-intermediate to intermediate students provides extensive guidance and practice in four crucial areas: Grammar, Vocabulary, Situations and Writing. Recycling Intermediate English can be used to supplement any coursebook at this level, in class or for self-study. It provides useful extra practice for the Cambridge Preliminary English Test (PET) and the Skills for Life Entry 3 examination.

The English Ladder is a four-level course designed to help pupils take their first steps in English. Join the Fantastic family for fun, adventure and lively language learning through engaging stories, challenging songs, games, tongue twisters, and communication activities. Part of a four-level course, this Level 3 Teacher's Book features lesson-by-lesson teaching notes, notes for activities in the Pupil's Book and Activity Book, tests for the end of each unit and each level and clear guidance on language presentation. Accessible and hands-on, this textbook provides a comprehensive introduction to teaching language through content, an approach known as Content-Based Language Teaching (CBLT). A content-based, language-focused approach to teaching in the disciplines is essential to serving the language and disciplinary needs of English learners (ELs) in the classroom. Guided by learning standards and informed by research, this book demonstrates how content materials in the English Language Arts (ELA), Mathematics, Science, and Social Studies can be harnessed to develop the English language proficiency of ELs as well as advance their disciplinary knowledge and skills. Using content materials in ELA, Mathematics, Science, and Social Studies as a starting point, this textbook illustrates how to teach English as an additional language effectively by integrating language instruction with disciplinary teaching. It showcases numerous learning and instructional activities, complete with targeted language exemplified in sentential and discourse contexts, direct instruction, teacher modeling, guided and individual practices, and assessments, which are further backed up by detailed discussions of their goals, rationales, and implementation. This textbook also features a discussion of differentiation to address the varied needs of students. To further assist readers in determining how to incorporate language instruction, Peng identifies extensive possibilities for language teaching that are based on the same content materials and beyond those targeted by sample learning activities. Each chapter ends with three types of exercises—multiple-choice questions, open-ended discussion questions, and problems of application—to bolster understanding, promote reflection, and encourage application. Complementing the book are additional online resources, including ready-to-use PowerPoints, which are available on the book's webpage at [Routledge.com/9780367521134](http://Routledge.com/9780367521134). Covering key issues such as characteristics of effective language instruction, differentiation, and the challenges associated with CBLT, this is an essential text in TESOL methods and content-area language teaching, as well as an invaluable resource for pre-service and in-service ESL/EFL teachers and content-area teachers who are interested in furthering their students' language and literacy development.
