granted employees the right to pursue their own commercial interests while in the firm's employ. Exploring trade network dynamics, decision-making processes, and ports and organizational context, Emily Erikson demonstrates why the English East India Company was a dominant force in the expansion of trade between Europe and Asia, and she sheds light on the related problems of why England experienced rapid economic development and how the relationship between Europe and Asia shifted in the eighteenth and nineteenth centuries. Though the Company held a monopoly on

English overseas trade to Asia, the Court of Directors extended the right to trade in Asia to their employees, creating an unusual situation in which employees worked both for themselves and for the Company as overseas merchants. Building on the organizational infrastructure of the Company and the sophisticated commercial institutions of the markets of the East, employees constructed a cohesive internal network of peer communications that directed English trading ships during their voyages. This network integrated Company operations, encouraged innovation, and increased the

aspires to provide a world-class student learning assessment for the region, catering to the needs and context of different countries. The first cycle of this assessment, conducted in 2019 with six participating countries, sought to find out what Grade 5 children know and can do in reading, writing and mathematics. For the first time, global citizenship attitudes, values and behaviours of children were also measured by a large-scale learning assessment at primary education level.

[Abstract]

Even skilled salespeople buckle in tough selling situations-getting defensive with prospects who challenge them on price or too quickly caving to discount pressure. Those are examples of the fight-or-flight response-something salespeople learn to avoid when they build their emotional intelligence. Studies have shown that emotional intelligence (EI) is a strong indicator of success. In Emotional Intelligence for Sales Success, sales trainer and

Get Free Borang Permohonan Online Biasiswa Mara 2018 2019 Mara

expert Colleen Stanley shows how closely EI is tied to sales performance and how salespeople can sharpen their skills to maximize results. Readers will discover: * How to increase impulse control for better questioning and listening * The EI skills related to likability and trust * How empathy leads to bigger sales conversations and more effective solutions * How emotional intelligence can improve prospecting efforts * The EI skills shared by top sales producers * And much more

Get Free Borang Permohonan Online Biasiswa Mara 2018 2019 Mara

Emotional intelligence plays a vital role at every stage of the sales process, from business development to closing the deal. When customers can get product information and price comparisons online, the true differentiator is the ability to deftly solve problems and build relationships—EI territory!

history. Your task is to take that information and apply it to what you know about your own career. In this partnership, you can create an effective resume that gets you one big step closer to landing the job you want. Scroll up and click to buy!

Malaysia's multicultural society supports one of the most dynamic economies in Asia. This completely revised new edition of the standard text, first published twenty years ago, traces the history of the country from early times to the present day. The authors give particular attention to the evolution of Malay polities and their close links with indigenous groups who lived on the oceans and in the deep jungles of

2019 Mara

the region, from Sumatra to Borneo. This provides the background to the establishment of the Malay port of Melaka, which was conquered by the Portuguese in 1511, foreshadowing the establishment of a British colonial regime in the late nineteenth century. Although the large numbers of Chinese and Indian migrants who arrived to work in the tin and rubber industries contributed to economic expansion, colonial policies did not encourage communal interaction. The authors trace the process by which post-independence leaders in Malaya attempted to counter the legacy of ethnic hostility while answering Malay demands for an affirmation

Get Free Borang Permohonan Online Biasiswa Mara 2018

2019 Mara

of their rights and a stronger commitment to Islam. The incorporation of the Borneo states of Sarawak and Sabah into the Federation of Malaysia in 1963 rendered the goal of welding a nation from areas that were geographically separated and culturally disparate even more problematic. The intense emotions attached to issues of race were made tragically evident in the racial riots of May 1969, which this book sees as a watershed in modern Malaysian history. As Malaysia enters the twenty-first century, the government is determined to oversee the transition to an economy focused on manufacturing and advanced

technology, and to eliminate poverty and the association between occupation and race. While several recent studies deal with the impact of colonial rule and Malaysia's spectacular economic transition, this book is unique because it tracks developments from early times and identifies continuities as well as change. Combining the authors' specialist knowledge of precolonial sources with the most recent contemporary research, this new edition reinforces the position of A History of Malaysia position as a standard reference for all those interested in the historical processes which led to the emergence of this culturally varied and economically

“Creativity and innovation are to events, what the heart and soul are to the living.” The book aims at encouraging readers to capture the traits and develop skills for enhancing their creative and innovative capabilities, cultivating the culture of creativity and innovation. Creativity is inventiveness with new ideas; critical thinking is generating and selecting ideas; and innovation turns creativity into products, processes and services.

Creativity + Critical thinking + Innovation = Path of Desired Change

The primary difference between creativity and innovation is that the former

Get Free Borang Permohonan Online Biasiswa Mara 2018 2019 Mara

refers to conceiving a new idea while the latter involves converting that idea into a marketable commodity.

Creativity and innovation are an attempt to gain a competitive advantage. Organizations are now focusing on enhancing their employees' creativity and not merely developing their technical competencies and skills.

Undoubtedly, creativity is the most important human resource of all without which there would be no progress, and we would be forever repeating the same patterns. Innovation is at the heart of all successful companies.

Agricultural waste refers to the waste produced by various agricultural activities. It can include both organic waste, like unwanted produce, manure, etc; and inorganic waste like excess pesticides, agrochemicals, silage, waste from machineries like oil, grease, etc. Agricultural waste has become a growing concern for environmentalists. Thus, its management has become a priority. Agriculture waste management insures that the

Get Free Borang Permohonan Online Biasiswa Mara 2018

things used for agricultural activities are recycled, reused and the use of non-biodegradable waste is reduced. This book will elucidate the various concepts and theories to manage agricultural waste and provide case studies to comprehend the usefulness of their applications. The topics covered here in will offer readers new insights in this field. It is an essential guide for agriculturists, environmentalists, ecologists and those who wish to pursue this discipline further.

Secrets to Save Time, Money and Trouble

Islam Di Pahang

Who really creates wealth in our world? And how do we decide the value of what they do? At the heart of today's financial and economic crisis is a problem hiding in plain sight. In modern capitalism, value-extraction - the siphoning off of profits, from shareholders' dividends to bankers' bonuses - is rewarded more highly than value-creation: the productive process that drives a healthy economy and society. We misidentify takers as makers, and have lost sight of what value really means. Once a central plank of economic thought, this concept of value - what it is, why it matters to us - is simply no longer discussed.

Yet, argues Mariana Mazzucato in this penetrating and passionate new book, if we are to reform capitalism - to radically transform an increasingly sick system rather than continue feeding it - we urgently need to rethink where wealth comes from. Who is creating it, who is extracting it, and who is destroying it? Answers to these questions are key if we want to replace the current parasitic system with a type of capitalism that is more sustainable, more symbiotic: that works for us all. The Value of Everything will reignite a long-needed debate about the kind of world we really want to live in.

The SME Competitiveness Outlook 2021 analyses how small businesses can rebuild from the COVID-19 (coronavirus) pandemic so they are better prepared to face the looming crisis of climate change. It provides a 20-point Green Recovery Plan to foster competitive, resilient and environmentally sustainable small and medium-sized enterprises (SMEs). The report finds that firms owned by women and young people were hurt more by the pandemic and are more vulnerable to future shocks, such those brought by a changing climate. It shows how business support organizations,

Get Free Borang Permohonan

After the United Nations adopted the 17 Sustainable Development Goals (SDGs) to "end poverty, protect the planet, and ensure prosperity for all," researchers and policy makers highlighted the importance of targeted investment in science, technology, and innovation (STI) to make tangible progress. Science, Technology, and Innovation for Sustainable Development Goals showcases the roles that STI solutions can play in meeting on-the-ground socio-economic and environmental challenges among

domestic and international organizations concerned with the SDGs in three overlapping areas: agriculture, health, and environment/energy. Authors and researchers from 31 countries tackle both big-picture questions, such as scaling up the adoption and diffusion of new sustainable technologies, and specific, localized case studies, focusing on developing and middle-income countries and specific STI solutions and policies. Issues addressed include renewable energy, automated vehicles, vaccines, digital health, agricultural biotechnology, and precision agriculture. In bringing together diverse voices from both policy and academic spheres, this volume provides
