

Botham S Century My 100 Great Cricketing Characters

One hundred colourful portraits of the cricketing characters whom Ian Botham has come across in his eventful career and who have influenced the game for good in his time: from top players, umpires and coaches to pop stars, writers and philanthropists.

Sir Ian Botham and the Ashes are as closely intertwined as willow and leather or Merv Hughes and his moustache. You simply cannot think of one without the other. In this book, Sir Ian takes you on a ride through a lifetime's relationship with cricket's oldest and most treasured prize, revealing just how it has shaped his life and how he has helped to turn it into the contest it is today. From the moment he first watched the likes of Ken Barrington stride to the wicket in jaw-jutting defiance to the day he flayed Australia's bowling attack around Headingley as if playing with his mates in the park, and then onwards to his role in commentating on what was arguably the finest series of the lot, in 2005, Sir Ian has a rich and varied connection with the Ashes, and he tells all here. The Ashes is a series that has provided incredible highs and heartbreaking lows for English and Australian fans alike over the past 35 years. Sir Ian has often been at the centre of the roller-coaster ride. Whether it is his account of his days as England's dogsbody in 1977 in Melbourne or the story of his

refusal to let Bob Willis bowl downwind until he was angry enough to skittle the Aussies in 1981, all is revealed in depth in Botham's Book of the Ashes. Portugal is a small country, but for many years it possessed the world's third largest empire; and its armed forces deserve to be better known than they are in the English-speaking world. Fortunately, the British co-author was able to meet a Portuguese colleague who was not only an authority on Portuguese military history and uniforms, but who had also served in Mocambique himself. A collaborative venture seemed the best way of providing the kind of 'hard' information about Portuguese weapons, organisation, uniforms and insignia that has been lacking until now.

In My Sporting Heroes, one of the country's great sportsmen, Sir Ian Botham, draws up his template of what he believes makes a true sporting hero. Botham singles out the ten qualities he believes are the basic elements in any true sportsperson - bravery, passion, composure, determination, skill, leadership, instinct, dedication, humour and compassion - then highlights the sportsmen and women who he believes best demonstrate each quality, backing up his selection with personal anecdotes of his time spent with them or watching them in action. Covering a wide variety of sports and discussing admired athletes of both the past and present, from Ian Woosnam, Paul Gascoigne

and Jonathan Davies to Joe Calzaghe, Lewis Hamilton and Andy Murray, My Sporting Heroes is a lively celebration of exactly what makes a true sporting legend - from someone who knows a thing or two about it!

Cricket is an enduring paradox. On the one hand, it symbolises much that is outmoded: imperialism; a leisured elite; a rural, aristocratic Englishness. On the other, it endures as a global game and does so by skilful adaptation, trading partly on its mythic past and partly on its capacity to repackage itself. This ambitious new history recounts the politics of cricket around the world since the Second World War, examining key cultural and political themes, including decolonisation, racism, gender, globalisation, corruption and commercialisation. Part One looks at the transformation of cricket cultures in the ten territories of the former British Empire in the years immediately after 1945, a time when decolonisation and the search for national identity touched every cricket playing region in the world. Part Two focuses on globalisation and the game's evolution as an international sport, analysing: social change and the Ashes; the campaigns for new cricket formats; the development of the women's game; the new breed of coach; the limits to the game's global expansion; and the rise of India as the world's leading cricket power. Cricket: A Political History of the Global Game, 1945-2017 is fascinating reading for anybody interested in the contemporary history of sport.

From Mumbai and Lahore to the Highveld of the Transvaal and in his native Wales, Alan Wilkins is internationally known and admired as an accomplished sports broadcaster.

Growing up as a talented young cricketer in 1970s Cardiff, Alan dreamt of a life in sport and yearned to travel the world but, as he reveals in Easier Said Than Done, he could never have imagined he would realise his dream via a microphone and camera rather than with a bat and a ball. With great humility and humour, Alan Wilkins tells the fascinating story of how he swapped the life of a sports teacher for a career as a professional cricketer with Glamorgan and Gloucestershire – taking over 370 wickets and playing in the 1977 Gillette Cup final – and how it was brought to a devastating end in 1983 by a debilitating shoulder injury.

Determined that his Life in Sport would not end after his enforced retirement from cricket, Alan vividly describes how, with determination and enthusiasm, he embarked on a new and successful career in sports broadcasting which has seen him commentate on many of the world's greatest sporting occasions – from Wimbledon to The Masters and from the Rugby World Cup to the Indian Premier League and Pakistan Super League – and how he has forged lifelong friendships

with many legends of the sporting world. Millions of sports fans know Alan Wilkins the broadcaster but now, with Easier Said Than Done, they can get to know the man behind the microphone and the absorbing story of his Life in Sport.

This book to fully examines the web of legal and ethical questions that arise when criminal prosecutions are mounted against parents whose children die as a result of religion-based medical neglect. It explores efforts to balance judicial protections for the religious liberty of faith-healers against the state's obligation to the rights of children.

With a flamboyant approach to the game on and off the pitch, Australia's greatest bowler Shane Warne is an irresistible cricketing force. In Shane Warne's Century, he candidly profiles 100 players from every Test nation who have had the most significant impact on his cricketing life. Warne is famous for having never scoring a Test century, although he came tantalisingly close on several occasions. He now wants to set the record straight by writing about a century of cricketing stars he has encountered during his illustrious career, The famous names featured here include fellow Australian legends Allan Border, Steve Waugh, Ricky Ponting and Glenn McGrath, as well as adversaries such as Brian Lara, Sachin Tendulkar, Jonty Rhodes and Freddie Flintoff. Warne also puts together a dream Test match

of those he would have loved to have played alongside versus a team of international legends. Pulling no punches and giving a fascinating insight into the game, Warne serves up highly readable anecdotes and opinions. Throughout the book, Warne covers the serious issues affecting cricket today, such as cheating and match-fixing, and assesses a large number of professional relationships he has enjoyed and endured, including those with Sri Lankan star Arjuna Ranatunga and South African captain Graeme Smith. Shane Warne's Century is a genuine page-turner by one of cricket's most popular stars and is a must-read for all cricket fans.

Daniel Karlin has selected poetry written and published during the reign of Queen Victoria, (1837-1901). Giving pride of place to Tennyson, Robert Browning, and Christina Rossetti, the volume offers generous selections from other major poets such as Arnold, Emily Bronte, Hardy and Hopkins, and makes room for several poem-sequences in their entirety. It is wonderful, too, in its discovery and inclusion of eccentric, dissenting, un-Victorian voices, poets who squarely refuse to 'represent' their period. It also includes the work of Elizabeth Barrett Browning, George Meredith, James Thomson and Augusta Webster.

Voted the greatest English cricketer of the 20th century by the fans, Sir Ian Botham is the English game's one true living legend and his story both on and off the pitch

reads like a Boy's Own rollercoaster ride. Born with a natural genius for cricket, Botham began breaking records with bat and ball from a young age and soon became the man English cricket expected most from. After a troubled period as England's captain, Botham rose once again to become a national hero with his display in the Miracle Ashes of 1981. But, with his confrontational nature and wild streak, he began regularly making the wrong kind of headlines. With accusations of drink and drugs, affairs and ball-tampering, he became hounded by the tabloid pack, never sure whether they wanted him to triumph or implode. Now a Knight and just as famous for his tireless charity work, Beefy gives us the definitive story of his never-dull life and times in his own no-nonsense words.

Andrew 'Freddie' Flintoff is one of the most exciting cricketers in the world and has improved out of all recognition during the last two years. In 2003, he was England's best player at the World Cup. Then, explosively, he lit up the second half of the summer in 2004, lifting spirits at Lord's with a bat-smashing 142. He walked off with the England man of the series award and averages to flaunt. This book marks his story so far in his own words, taking us up to and including the summer of 2005, during which Flintoff has performed heroics with both bat and ball against Australia. Freddie will highlight the moments and matches in his career that helped him dramatically on his way forward, and reveals what it is like to play for one of the most successful

England cricket teams in history.

My Uncle, the Clockmaker

‘That day I cried like a baby not because I feared what cancer would do but because I didn’t want the disease. I wanted my life to be normal, which it could not be.’ For the first time Yuvraj Singh tells the real story behind the 2011 World Cup when on-the-field triumph hid his increasingly puzzling health problems and worrying illnesses. In his debut book *The test of my life*, he reveals how—plagued with insomnia, coughing fits that left him vomiting blood, and an inability to eat—he made a deal with God. On the night before the 2011 ICC Cricket World Cup final, Yuvraj prayed for the World Cup in return for anything God wanted. In this book, he lays bare his fears, doubts, and the lows he experienced during chemotherapy—when he lost his energy, his appetite, and his hair—and his battle to find the will to survive. Poignant, personal, and moving—*The test of my life*—is about cancer and cricket; but more importantly, it is about the human will to fight adversity and triumph despite all odds.

over, summertime means cricket bats to be oiled, rain forecasts analysed and tea in the pavilion. Cricket has enthralled us since the seventeenth century. But what is it about the game that provokes such fervour? Award-winning sports author Gavin Mortimer calls together a cast of salt-of-the-earth Yorkshiremen, American billionaires and dashing Indian princes to tell the strange and remarkable tale of cricket's journey from medieval village sport of 'club-ball' to the global media circus graced by superstars from Denis Compton to Sachin Tendulkar. If you've ever wanted to know what a hoop skirt has to do with overarm bowling, why England fight Australia over a burnt bail, or how to avoid tickling a jaffa in the corridor of uncertainty, Mortimer chalks up a stunning century of tales in the first truly accessible global history of cricket.

Former England captain and impeccably stylish batsman David Gower, himself inducted into cricket's Hall of Fame, here takes a leap of faith and names his 50 greatest players of all time. Going back through the history of the game, he honours the finest run-getters, wicket-takers, glove men and captains he played with and against, as well as those he has been able to observe as a spectator or commentator, and legendary achievers from earlier eras. Full of first-hand recollections and anecdotes, this book is sure to delight - and occasionally infuriate - cricket

enthusiasts everywhere. Who was the best of the great West Indian quicks? Have England heroes like Boycott, Pietersen and Flintoff made the cut? Who has been the greatest Australian batsman, post-Bradman? All is revealed in this lively and contentious celebration of cricket's true greats. What's the difference between short leg and deep midwicket? When would you be thinking about bowling a yorker? What's so great about the sound of leather on willow? Cricket's vocabulary is a mixture of jargon and cliché, poetry and prose, misty-eyed romanticism and old-gits' cynicism. Arm-ball to Zooter is a witty guide to the peculiarities of the game, its history and major figures; cricket-lovers might find their own pet hates confirmed; cricket newcomers might be amazed at what cricket-lovers have been up to all these years.

In this fascinating cultural history of interracial marriage and its legal regulation in the United States, Fay Botham argues that religion--specifically, Protestant and Catholic beliefs about marriage and race--had a significant effect on legal decisions concerning miscegenation and marriage in the century following the Civil War. She contends that the white southern Protestant notion that God "dispersed" the races and the American Catholic emphasis on human unity and common origins point to ways that religion influenced the course of litigation and illuminate the religious bases for Christian racist and antiracist movements.

100 Great Test Centuries

From Cricket to Cancer and Back

No season exerts a grip on the hearts of English cricket followers quite like the summer of 1981. For the first time in a generation, the whole country was transfixed by a Test series. What made it all the more remarkable was that the fortunes of the national team, not to mention those of the game in general and the country itself, seemed at rock bottom. During the course of an Ashes series that shifted from the mundane to the fantastical with breathtaking speed, the third Test at Headingley proved to be the turning-point. Amid record unemployment and the worst outbreak of civil unrest in a century, England, 500-1 against at one stage (odds taken by two members of the Australian team), achieved the most improbable sporting triumph of the 20th century, mounting a dramatic comeback to beat Australia by 18 runs. The names of Ian Botham, Bob Willis and Mike Brearley duly became forever entwined with what readers of the Observer recently voted 'Most Memorable Sporting Moment'. 500-1 recreates the match with the aid of those who were there - players, officials, groundstaff, spectators and media - while placing events in their full context, tracing a timeless tale in rich, vivid and unprecedented detail. As the thirtieth anniversary approaches, 500-1: The Miracle of Headingley has been fully updated to reflect the impact that Test had on the game and those who watched it, at a time of struggle in both the game and society as a whole.

regional identity. In this collection, eleven contributors explore the intersections of race, religion, and region to show how they transformed the West. From the Punjabi Mexican Americans of California to the European American shamans of Arizona to the Mexican Chinese of the borderlands, historical meanings of race in the American West are complex and are further complicated by religious identities. This book moves beyond familiar stereotypes to achieve a more nuanced understanding of race while also showing how ethnicity formed in conjunction with religious and regional identity. The chapters demonstrate how religion shaped cultural encounters, contributed to the construction of racial identities, and served as a motivating factor in the lives of historical actors. The opening chapters document how religion fostered community in Los Angeles in the first half of the twentieth century. The second section examines how physical encounters—such as those involving Chinese immigrants, Hermanos Penitentes, and Pueblo dancers—shaped religious and racial encounters in the West. The final essays investigate racial and religious identity among the Latter-day Saints and southern California Muslims. As these contributions clearly show, race, religion, and region are as critical as gender, sexuality, and class in understanding the melting pot that is the West. By depicting the West as a unique site for understanding race and religion, they open a new window on how we view all of America.
