

## Boy Scout Camping Merit Badge Answers

**Abstract: This study of science education in the Boy Scouts of America focused on males with Boy Scout experience. The mixed-methods study topics included: merit badge standards compared with National Science Education Standards, Scout responses to open-ended survey questions, the learning styles of Scouts, a quantitative assessment of science content knowledge acquisition using the Geology merit badge, and a qualitative analysis of interview responses of Scouts, Scout leaders, and scientists who were Scouts. The merit badge requirements of the 121 current merit badges were mapped onto the National Science Education Standards: 103 badges (85.12%) had at least one requirement meeting the National Science Education Standards. In 2007, Scouts earned 1,628,500 merit badges with at least one science requirement, including 72,279 Environmental Science merit badges. "Camping" was the "favorite thing about Scouts" for 54.4% of the boys who completed the survey. When combined with other outdoor activities, what 72.5% of the boys liked best about Boy Scouts involved outdoor activity. The learning styles of Scouts tend to include tactile and/or visual elements. Scouts were more global and integrated than analytical in their thinking patterns; they also had a significant intake element in their learning style. Earning a Geology merit badge at any location resulted in a significant gain of content knowledge; the combined treatment groups for all location types had a 9.13% gain in content knowledge. The amount of content knowledge acquired through the merit badge program varied with location; boys earning the Geology merit badge at summer camp or working as a troop with a merit badge counselor tended to acquire more geology content knowledge than boys earning the merit badge at a one-day event. Boys retained the content knowledge learned while earning the merit badge. Scientists, Scout leaders, and Scouts felt that Scouts learned science through participation in the Boy Scout program, both in the merit badge program and also through activities, trips, outdoors, in meetings, and through rank advancement. On an open-ended questionnaire, 75.2% of Scouts reported that doing merit badges helped them do better in school. Scout leaders indicated that the overall Scouting environment introduced boys to science. Scout scientists credited Boy Scouts with providing experiences that interested and/or helped them in their scientific careers.**

**Super Secret Undercover Campfire Badges is the concept of Greg Cieply - a veteran of the scouting program. After spending many days and nights camping with his own troop as well as years at weekly troop meetings, he realized that there were certain topics that have loads of value and import for young men but are just never taught - and sometimes just don't fit. Seeing that young boys needed to know about these "other" things - often "Secret" things - he decided to fulfill this need and his desire to make learning fun and intellectually energizing.**

***In this process he realized that while mental development and character building were occurring, strong bonds were also developing through associations and connections. Bonds that would pay dividends for many years to come in the lives of these boys. His a dream was to create a quick and easy way to not only cram more information into the short period of time he had with his scouts, but to get everyone involved and learn through teaching. This book is a self-empowering resource, that will help all boys learn something new, make some new friends and grow even deeper relationships with other scouts, friends and leaders. Inspired by the respected merit badge program of the Boy Scouts of America, each "Campfire" badge will take a much shorter period of time to complete and includes step by step instructions for achieving these simple and fun activities. Boys from 11-17 and older will enjoy learning how to do stand up comedy, understand fine dining, the ins and outs of duct tape and much much more.***

Boy Scouts of America: Official Handbook for Boys was first published in 1910 and continues to be published until this day. It outlines the principles and tenets of the Boy Scouts of America, the merit badges boys can attain for completing tasks and challenges, the classes and levels of scout, and the various skills a scout must possess. The motto "Always Be Prepared" is not taken lightly, and the handbook goes on to describe everything from tying knots, camping, and self defense to field observation, first aid, wildlife conservation, and chivalry. Filled with instructions accompanied by diagrams and pictures, this comprehensive guide is a must-have for any scout's, or anyone's, survival kit. The Boy Scouts of America was founded in 1910, and since its inception has remained one of the largest organizations in America, with more than four million boys participating today. Influenced by the Boy Scout Movement in England by Robert Baden-Powell, it was started in America by a group of young men and boys anxious to be a part of the noble and deserving enterprise.

A handbook to help Scout leaders, parents, agency personnel, and others who realize the importance of involving young people in the care of the world around them. Contains many addresses and contacts.

*Photos, anecdotes, and outdoor-cooking recipes celebrating the history of the U.S. Forest Service. Dedicated protectors of our national forests and grasslands, Forest Service agents live much of their lives outdoors, and that includes mealtimes. In decades past, rangers' wives prepared meals with limited resources as they accompanied their husbands in the field, often supplementing cooking with k-rations cooked over an open fire. In rustic and remote locations, delicious, time-tested creations were prepared and served, including Dutch Oven Beer Bread, Parmesan Mashed Potatoes, Pioneer Night Stew, and Creamy Pumpkin Pie. Here, the National Museum of Forest Service History presents a unique cookbook that celebrates decades of camp cooking by countless Forest Service agents in the field. Featuring legendary recipes for Dutch oven meals, open-fire dishes, and other tasty outdoor specialties used daily in the early days of the Forest Service, Camp Cooking also includes photos and anecdotes that tell the whole history of these brave and hardy individuals.*
