

Bruno Bonnet Eymard

Covering prehistoric times to the modern era, this fascinating resource presents pro-and-con arguments regarding unresolved, historic controversies throughout the development of the world. • Includes 58 chapters in four volumes that address significant historical questions focused upon topics such as the Old Testament, the Roman Empire, the historic Buddha, William Shakespeare, the assassination of John F. Kennedy, and weapons of mass destruction • Provides a pro-and-con debate format that encourages readers to evaluate the validity of arguments and evidence

The faking and forgery of works of art and antiquities is probably now more extensive than ever before. The frauds are aided by new technologies, from ink jet printers to epoxy resins, and driven by the astronomical prices realised on the global market. This book aims to provide a comprehensive survey of the subject over a wide range of materials, emphasising how the fakes and forgeries are produced and how they may be detected by technical and scientific examination. The subject is exemplified by numerous case studies, some turning out not to be as conclusive as is sometimes believed. The book is aimed at those likely to have a serious

File Type PDF Bruno Bonnet Eymard

interest in these investigations, be they curator, collector, conservator or scientist. Paul Craddock has recently retired from the Department of Conservation, Documentation and Science at the British Museum, where he was a materials scientist.

Islam at the Gates

A la découverte des temps évangéliques et apostoliques

File Type PDF Bruno Bonnet Eymard

Cet ouvrage présente au lecteur francophone, la thèse de Dan Gibson, qui postule que l'islam serait né à Pétra et non pas à La Mecque actuelle. Cette hypothèse hardie, disons-le, repose sur de nombreux arguments archéologiques mais aussi textuels issus du Coran, de la tradition et des sources historiques islamiques. L'argument archéologique mis en avant par l'auteur serait l'étonnante convergence de la direction des premières mosquées vers la citée de Pétra et non pas vers La Mecque, comme on pourrait s'y attendre. Quant aux arguments textuels sont

File Type PDF Bruno Bonnet Eymard

basés sur le Coran et la tradition. Ils décrivent selon l'interprétation de Gibson, une géologie, une faune et une flore ne correspondant pas à un lieu désertique comme celui d'une ville sud arabique du Hedjaz. La présentation des travaux des Gibson est suivie d'une revue critique, incluant les avis de grands spécialistes tels que : le Pr David KING, le Dr Rick OAKES, le chercheur indépendant Amod Jason DEUS, le Dr Edouard-Marie Gallez, Khaled BALKIN et enfin notre propre évaluation critique.

A curious thing happened to Tim Wallace-Murphy and Marilyn Hopkins when they

File Type PDF Bruno Bonnet Eymard

published *Rex Deus*, their first book on the bloodline of Christ: they were contacted by a man from the very lineage they were studying. And instead of denying the existence of the bloodline or berating them for revealing secrets, he actually confirmed that the *Rex Deus* lineage exists and even disclosed some of its fundamental secrets. The story of the *Rex Deus* families, direct descendents of Christ--who is believed to have survived the crucifixion?turns out to be much more extensive than the authors first thought. Instead of beginning during the time of Jesus, it

File Type PDF Bruno Bonnet Eymard

stretches far back into antiquity, to the Egyptian Mystery Schools. Instead of being only a propagation of the holy bloodline, the Rex Deus families are also carriers of the secret teachings of Jesus.

Custodians of Truth reveals the purpose and secrets of the Rex Deus lineage. Jesus was not only a holy man, but an adept of ancient knowledge, which informed his own teachings. This secret knowledge was suppressed by the Church in their voracious quest for power and influence in the secular world. These teachings have manifested throughout history in

File Type PDF Bruno Bonnet Eymard

different forms--Gnostic philosophy around the time of Jesus, the Order of the Knights Templar, Freemasons, and the current resurgence of interest in New Age thought. Finally, the time is right for the hidden message of Jesus to be revealed--a message of tolerance, brotherhood, and respect for nature. The next chapter in the legend of the Holy Grail and the bloodline of Christ--from the best-selling authors of Rosslyn. In Preparation for a Centenary (1898-1998) Sourate III, Dieu des délivrances et cinq études linguistiques et historiques : Jésus, Mahomet, La Mecque,

John Briggs, son of Richard A. Briggs, was born 1 May 1697 in Thornbury, Gloucestershire, England. He married Agnes Tay Tayer (Thayer) of Thornbury on 11 Nov 1623. They immigrated to Massachusetts before 1657. No death date is listed form John or Agnes. They had four children. Their descendants have lived in Massachusetts, Michigan, New Hampshire, New York, and other areas throughout the United States.

How Christendom defeated the Ottoman Turks. Historian Diane Moczar pulls back the curtain on one of the most important acts in the drama of Muslim aggression against the West: the 500-year-long siege of Europe by the Ottoman Turks. Islam at the Gates chronicles the heroes and villains, the battles and atrocities, the tragic errors and timely miracles, that marked the Ottomans' incursions from Europe's borders to the very heart of Christendom; and afterwards, by the grace of God, their eventual repulsion and final defeat.

In this fully revised and updated edition, the bestselling authors of *The Templar Revelation* present new and compelling evidence linking Leonardo da Vinci with the forgery of Christianity's most famous relic. For centuries the Turin Shroud was believed to be Christ's authentic burial cloth, miraculously imprinted with his image -- but in 1988 carbon dating revealed it is a medieval- or Renaissance-era forgery. However, authors Lynn Picknett and Clive Prince realized that the 1988 discovery prompted even more questions: The image seems to be a photograph -- so could the Turin Shroud actually be the world's first photograph? If the face of the man on the Shroud is not Jesus', whose is it? Who had the sheer audacity to create what would become an infamous relic of Christianity, faking even Christ's holy, redemptive blood? Whoever did this was not only a genius but also a heretic.... After more than a decade of

File Type PDF Bruno Bonnet Eymard

research, Picknett and Prince have accumulated evidence that shows not only was the forger of the Turin Shroud none other than Leonardo da Vinci but also that he used his own face for that of Christ. The Turin Shroud is, among other things, a five-hundred-year-old photograph of Leonardo da Vinci. Could Christianity's greatest relic in fact be an attempt to undermine the religion itself?

Interest in the Turin Shroud continues to the present day even though it was finally carbon dated in 1988 and shown not to be of an age consistent with Christ's burial. Scientifically, the age of the shroud cloth is of little consequence, but to the general public, it is of considerable significance. The author Harry E. Gove is a co-inventor of accelerator mass spectrometry and was responsible for its use in establishing whether the Turin Shroud could have been Christ's burial cloth. Relic, Icon or Hoax?:

File Type PDF Bruno Bonnet Eymard

Carbon Dating the Turin Shroud presents an eyewitness account of the events that culminated in the final determination of the age of the linen cloth of the Turin Shroud and some of the subsequent reactions to the results. The book discusses the application of accelerator mass spectrometry to the carbon dating of the Turin Shroud using samples only a few square centimeters in area and weighing only a few tens of milligrams.

This volume is a major revision and expansion of Taylor's seminal book Radiocarbon Dating: An Archaeological Perspective. It covers the major advances and accomplishments of the ^{14}C method in archaeology and analyzes factors that affect the accuracy and precision of ^{14}C -based age estimates. In addition to reviewing the basic

File Type PDF Bruno Bonnet Eymard

principles of the method, it examines ^{14}C dating anomalies and means to resolve them, and considers the critical application of ^{14}C data as a dating isotope with special emphasis on issues in Old and New World archaeology and late Quaternary paleoanthropology. This volume, again a benchmark for ^{14}C dating, critically reflects on the method and data that underpins, in so many cases, the validity of the chronologies used to understand the prehistoric archaeological
