3 things to know about the focus of Dynamic Business Law, 2e: Emphasis on ETHICAL DECISION-MAKING. In chapter 2, the authors introduce a framework for making ethical business decisions that students can use on a regular basis. Following each case there are questions designed to train students to apply this approach. Then repeatedly throughout the chapters, questions about business ethics are raised in the text. This framework is designed to help improve the learning process of students and to give a sense of relevancy to the ethical decision making process. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. Emphasis on the BUSINESS in business law. Dynamic Business Law emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly “defending” the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law contains a helpful instructor’s manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. Instructor’s Supplements: The Online Learning Center contains the complete IM, Test Bank, PowerPoint, image library, and video clips. Instructor’s Manual: The Instructor’s Manual provides a clear outline of how to begin using this text and is especially helpful to adjuncts who teach Business Law. Sample syllabi are included, as well as detailed lecture outlines incorporating PowerPoints and other materials professors can bring into their lectures. Exciting and new examples from outside the text are also included, and can be discussed in class to help generate excitement and involvement in the course from students. Test Bank: The Test Bank, developed by Vonda Laughlin of Carson-Newman College, contains a variety of true/false, multiple choice, and essay questions - as well as “scenario-based” questions, which are application-based, and use a situation described in a narrative, with 3 - 5 multiple-choice test questions based on the situation described in the narrative. We’ve aligned our Test Bank with the new AACSB guidelines, tagging each question according to its knowledge and skills areas. Categories include Global, Ethics and Social Responsibility, legal and other External Environment, communication, Diversity, Group Dynamics, Individual Dynamics, Production and IT. Designations aligning questions with Learning Objectives, features, and case, exist as well. PowerPoint Presentation slides: Developed by Jeff Penley at Catawba Valley Community College, we offer two different sets of slides for professors. The “Basic” set consists of an outline of each chapter. The “Premium” set expands on this outline to include hypotheticals and ethical dilemmas, allowing the instructor to incorporate application into the lecture. Instructor Video DVD (ISBN: 0077339118, 13-digit: 9780077339111): The Instructor Video DVD contains video clips from CBS that highlight current legal issues. Instructor Notes, located on the OLC, give insight into how to incorporate segments into the classroom and offer questions to stimulate discussion. Most of these videos are also part of Premium content - a big plus for instructors teaching online/hybrid courses.

No one doubts any longer that sustainable development is a normative imperative. Yet there is unmistakably a great reluctance to acknowledge any legal basis upon which companies are obliged to forgo ‘shareholder value’ when such a policy clearly dilutes responsibility for company action in the face of continuing environmental degradation. Here is a book that boldly says: ‘Shareholder primacy’ is wrong. Such a narrow, short-term focus, the author shows, works against the achievement of the overarching societal goals of European law itself. The core role of EU company and securities law is to promote economic development, notably through the facilitation of market integration, while its contributory role is to further sustainable development through facilitation of the integration of economic and social development and environmental protection. There is a clear legal basis in European law to overturn the poorly substantiated theory of a ‘market for corporate control’ as a theoretical and ideological basis when enacting company law. With rigorous and persuasive research and analysis, this book demonstrates that: European companies should have legal obligations beyond the maximization of profit for shareholders; human and environmental interests may and should be engaged with in the realm of company law; and company law has a crucial role in furthering sustainable development. As a test case, the author offers an in-depth analysis of the Takeover Directive, showing that it neither promotes economic development nor furthers the integration of the economic, social and environmental interests that the principle of sustainable development requires. This book goes to the very core of the ongoing debate on the function and future of European company law. Surprisingly, it does not make an argument in favour of changing EU law, but shows that we can take a great leap forward from where we are. For this powerful insight - and the innumerable recognitions that support it - this book is a timely and exciting new resource for lawyers and academics in ‘both camps’ those on the activist side of the issue, and those with company or official policymaking responsibilities.

Packed with 2013 and 2014 cases, FUNDAMENTALS OF BUSINESS LAW TODAY: SUMMARIZED CASES, 10e covers core business law topics like contracts and sales in a concise paperback. Summarized cases integrated throughout the text illustrate key points of law without unnecessary detail. Intended for the one-term course focused primarily on contracts and sales, the text condenses the latest legal topics—including cyberlaw, health-care, financial reform, and more—for quick comprehension. An entire chapter is devoted to Internet Law, Social Media, and Privacy. Current, abbreviated, and affordable, FUNDAMENTALS OF BUSINESS LAW TODAY: SUMMARIZED CASES, 10e provides an easy-to-understand alternative to traditional Business Law texts. Titles in Barron’s Business Review series are widely used as classroom supplements to college textbooks and often serve as a main textbook in business brush-up programs. Business Law focuses on the importance of legal theory in the everyday business world, explaining such subjects as tort responsibility, government regulations, contracts, environmental law, product liability, consumer protection, and international law, among many other topics. Also discussed in detail are the legal aspects of partnerships, franchises, and corporations, as well as special topics that include business crimes, property as a legal concept, intellectual property, and similar pertinent topics. A study aid labeled Key Terms appears at the beginning of each chapter, and You Should Remember summaries are strategically interspersed throughout the text.

The Legal Environment of Business: Text and Cases

Introduction to Business Law

Essentials of Business Law and the Legal Environment

Contracts: A Modern Coursebook, Second Edition by Ben Tempin is an innovative coursebook unlike any other on the market. The book takes a hybrid approach between a “traditional” casebook and a problems-based casebook, incorporating a more thorough discussion of the law followed by cases then problems. Featuring a unique design that engages the reader and incorporates professional skills and experiential-type learning. Contracts: A Modern Coursebook is a revolutionary, classroom-tested book. Rather than playing “hide the ball,” professors using this book will be able to say, “Here’s the ball. Let’s play catch.” New to the Second Edition: Now Over 500 Questions and Problems, nearly doubling the number of questions and answers for professors to use to assess students. A new section—Questions for Review—tests students’ understanding of the law before they try the more difficult analytic problems. Enhanced analytic problems—updated based on feedback from professors and students New cases with tighter editing to adjust the mix between classic and contemporary cases for greater balance, and to focus on the core lesson More flowcharts and tables, providing additional visual learning aids to help students synthesize concepts More examples and case illustrations to keep students engaged and to stimulate critical thinking Design enhancements, including a redesign of “Rule Boxes” that makes parsing the rule statements easier for students A new numbering system to more easily track “Learning Outcomes” to “Explanations” to “Case Law” to “Assessments” Professors and students will benefit from: Learning Objectives: Unlike traditional casebooks, every chapter begins with three to seven precise learning goals. Millennials respond positively when learning objectives are stated at the beginning of a lesson. The defined learning objectives for each chapter help professors comply with ABA requirements to establish learning outcomes that consist of “clear and concise statements of knowledge that students are expected to acquire.” Clear and Concise Explanations of the Law: Much like a hornbook, every chapter provides clear and concise explanations of the law. Overarching rules are identified and highlighted visually. An analytical framework is provided to help students parse the rule. Examples and Case Illustrations explain the parameters and application of the rule. Test Yourself questions are embedded exercises within the explanation section to let students assess their understanding of the rules. Case Law—Developing Critical Reasoning Skills: Since students learn the law before reading the cases, the focus of case analysis is on the reasoning that the court applies. By posing direct questions and giving students prompts to respond to as they read the case, students build critical reasoning skills, and, as a result, are better prepared for class. Problem Solving and Analysis—Built-in Formative Assessment: At the end of each chapter, the Problem Solving and Analysis section provides students the opportunity to build critical thinking skills (the highest level of Bloom’s Taxonomy of Educational Objectives) through a series of thought-provoking hypotheticals based on real-world scenarios. The rich set of questions builds accountability and addresses the challenge of providing in-semester formative feedback to large classes to help professors comply with ABA formative assessment standards. Contemporary Layout and Design: The contemporary book design is optimized for student engagement, and increase retention. Concise and Compact: Shorter than competing casebooks, the casebook can be used in 4-credit, 5-credit, or 6-credit courses. Classroom Tested: Contracts: A Modern Coursebook has been classroom tested over three years. More than 400 students have used the text for both the first year contracts course and as a supplement for a third year remedies course. Students have been overwhelmingly enthusiastic about the content, format, and approach. The purchase of this Kindle edition does not entitle you to receive access to the online e-book, practice questions from your favorite study aids, and outline tool available through CasebookConnect.
