philosophize on Igwebuike and to honour Professor KANU, Ikechukwu Anthony, O.S.A. These two tasks or goals go hand in hand because Igwebuike is Professor Kanu's philosophy. The book clearly demonstrates why Kanu deserves honour as an African philosopher who has introduced a way of doing African philosophy. It is an approach of doing philosophy that takes into account African ontology and cosmology. Igwebuike as a systematic African thought is exploratory in nature. It investigates issues with a view of seeing how they are related. Doing philosophy in this way takes into account not only the African context but the world as a complex entity with myriads of

challenges. The myriads of challenges facing humanity have a representation in this book. For this reason the book is bound to have a global impact. In terms of philosophizing, this book demonstrates that Africa is confronted with many discourses. Discourses that are already going on but need a more systematic African philosophical approach. Some of the discourses are on the environment, governance, infrastructure, human and material resource among others.

Enterprise Integration, have limited guidance on how best to use Enterprise Models and Modeling Tools to support their practice. It is widely recognized that the practice of engineering enterprises needs a number of models, but how to maintain the relation between these models with ease is still a problem. Model interoperability is an issue on multiple counts:

- How to interchange models between enterprise modeling tools?
- How to maintain the interdependencies between
