Leadership doesn't happen without courage. In fact, leadership might be defined as "courage in action." But the truth is that courage is poorly understood and not what you typically think. In their second original short format work, Finding the Courage to Lead, James Kouzes and Barry Posner offer a perspective on what ordinary leaders say about what courage is to them, and what their courageous experiences mean for the daily practice of leadership. Courage is one of those big, bold words. It has the reputation of being something way out there on the edges of human experience, commonly associated with superhuman feats, life-and-death struggles, and overcoming impossible odds. It gives rise to images of daring feats of bravery and nerves of steel. It has such a mystique about it that many think the concept doesn't apply to them. But, when you look beyond the headlines, you find out that this account of courage is certainly not the whole story. There is very little relevant discussion of courage in the leadership literature. For all the talk about how leaders need to be courageous, there is next to nothing written about what it really means for leadership. Grounded in award-winning original research and rich with insight, Finding the Courage to Lead is valuable for leaders at any level to understand how courage shapes our leadership potential on and off the job, and is required reading for any fans of Kouzes & Posner's work.

Uncover the extraordinary leader in you with straightforward exercises and advice from two of the world's foremost leadership experts From the bestselling authors of *The Leadership Challenge* and over a dozen award-winning leadership books comes a new book that examines a question of fundamental importance: How do people learn to become leaders? *Learning Leadership: The Five Fundamentals of Becoming an Exemplary Leader* is a comprehensive guide to unleashing the inner leader in us all and to building a solid foundation for a lifetime of leadership growth and mastery. The book offers a concrete framework to help individuals of all levels, functions, and backgrounds take charge of their own leadership development and become the best leaders they can be. Arguing that all individuals are born with the capacity to lead, bestselling authors Kouzes and Posner provide readers with a practical series of actions and specific coaching tips for harnessing that capacity and creating a context in which they can excel. Supported by over 30 years of research, from over seventy countries, and with examples from real-world leaders, *Learning Leadership* is a clarion call to unleash the leadership potential that is already present in society today. *Learning Leadership* provides readers with evidence-based strategies to ignite the habit of continuous improvement and the mindset of becoming the best leaders they can be. Emerging leaders, as well as leadership developers, internal and external coaches and trainers, and other human resource professionals will learn from first-hand stories and practical examples so that they can deeply understand and apply the fundamentals for becoming the best leaders they can be. *Learning Leadership: The Five Fundamentals of Becoming an Exemplary Leader* is divided into digestible bite-sized chapters that encourage daily actions to becoming a better leader. Key takeaways from the book include: Believe in Yourself. Believing in oneself is the essential first step in developing leadership competencies. The best leaders are learners, and they can't achieve mastery until and unless they truly decide that inside them there is a person who can make and difference and learn to be a better leader than they are right now. *Aspire to Excel*. To become an exemplary leader, people must determine what they care most about and why they want to lead. Leaders with values-based motivations are the most likely to excel. They also must have a clear image of the kind of leader they want to be in the future—and the legacy they want to leave for others. *Challenge Yourself*. Challenging oneself is critical to learning leadership. Leaders must seek new experiences and test themselves. There will be inevitable setbacks and failures along the way that require curiosity, grit, courage, and resilience to persist in learning and becoming the best. *Engage Support*. One can't lead alone, and one can't learn alone. It is essential to get support and coaching on the path to achieving excellence. Whether it's family, managers at work, or professional coaches, leaders need the advice, feedback, care, and support of others. *Practice Deliberately*. No one gets better at anything without continuous practice. Exemplary leaders spend more time practicing than ordinary leaders. Simply being in the role of a leader is insufficient. To achieve mastery, leaders must set improvement goals, participate in designed learning experiences, ask for feedback, and get coaching. They also put in the time every day and make learning leadership a daily habit. Kouzes and Posner offer unrivaled insights into what it means to become an exemplary leader in today's world with their original research and over 30 years of experience studying the practices of extraordinary leadership. They show that anyone can become a better leader if they believe in themselves, aspire to excel, challenge themselves to grow, engage the support of others, and practice deliberately. *Learning Leadership* challenges readers to do the meaningful and disciplined work necessary to becoming the best they can, using a new mindset and toolkit that can make extraordinary things happen. It's not the once-in-a-while transformational acts that demonstrate leadership. It's the little things that one does day in and day out that pave the path to greatness.

The Five Practices that Create Great Workplaces

Everyday People, Extraordinary Leadership

Leadership is Everyone's Business

Self Assessment

In this provocative book, leadership experts and authors of the best-selling *The Leadership Challenge*, Jim Kouzes and Barry Posner take on a unique challenge and explore the question of leadership and legacy. Kouzes and Posner examine in twenty-two chapters the critical questions all leaders must ask themselves in order to leave a lasting impact. These powerful essays are grouped into four categories: Significance, Relationships, Aspirations, and Courage. In each essay the authors consider a thorny and often ambiguous issue with which today's leaders must grapple issues—such as how leaders serve and sacrifice, why leaders need loving critics, why leaders should want to be liked, why leaders can't take trust for granted, why it's not just the leader's vision, why failure is always an option, why it takes courage to "make a life," how to liberate the leader in everyone, and ultimately, how the legacy you leave is the life you lead.

Please note: This is a companion version & not the original book. Sample Book Insights: #1 Leadership is essential because it makes a significant difference in people's levels of engagement, commitment, and performance.

Developing your leadership abilities will help you improve the way people around you feel about their workplace and promote more productive organizations. #2 There are people who believe that not everyone has the potential to lead, and that not everyone has the capacity to learn to lead. These myths, misconceptions, and false assumptions about leadership create barriers to developing leaders at all levels. #3 The talent myth has captivated the training and development world for years, and some have come to accept it as the new gospel. However, leadership is not a talent that you have or don't have. It is an observable, learnable set of skills and abilities. #4 The myth that leadership is a position and that if you don't have a title of authority, you aren't a leader, is completely false. Leadership is not a rank, title, or place. It's about the actions you take, the values that guide your decisions and actions, and the visions you have for yourself and others.
