The manual includes: course scope and sequence Stage summary: cultural background, story line, language features, focus of exercises thorough background on cultural references and photographs teaching suggestions for each section of the Stage translations of readings and exercises additional testing materials answer keys for the Student Book and Omnibus Workbook bibliography

The Red and the Black Stendahl - First published in 1830, The Red and the Black, is widely considered the masterpiece of 19th century French author Marie-Henri Beyle, known more commonly by his pen name, Stendahl. It follows the ambitions of Julien Sorel, a young man raised in the French countryside who wishes to rise above his provincial station by climbing the social ranks of Parisian society. Through a series of events, Julien's talent and hard work give way to deception and hypocrisy when he realizes the limitations for advancement of a sincere and honest man of humble origins. Although Julien achieves much which he aspires to, ultimately his pride gets the better of him when he commits a violent crime of passion, leading to his tragic downfall. Through the deep psychological introspection of Julien we see Stendahl's unique literary genius, the remarkable way in which he allows readers to live in the minds of his characters. Set against the backdrop of the July Revolution of 1830, The Red and the Black is a narrative which embodies the rich social conflict of that time. This edition is translated with an introduction by Horace B. Samuel.

Teaches children the basics of Latin grammar and vocabulary, as well as Roman British history and culture, through vocabulary lists, mythical tales, and illustrations.

North American Cambridge Latin Course Unit 3 Student's Book

The Study Books are designed to be used in conjunction with the core books of the Cambridge Latin Course. Student's Study Book II: Answer Key provides informative and comprehensive answers to the exercises in Student Study Book II. The Key will be of use to teachers, students and independent learners. Clearly structured answers are given for material which includes a rich variety of comprehension and translation exercises; activities to practise the language and grammar; vocabulary checklists; investigations into Roman civilisation and revision sessions.

Designed for North American students, this special version of the Oxford Latin Course combines the best features of both modern and traditional methods of Latin teaching, providing an exciting, stimulating introduction and approach to Latin based on the reading of original texts. In this four-volume North American edition, the order of declensions corresponds to customary U.S. usage, and the spelling has been Americanized. In addition, it offers full-color illustrations and photographs throughout Parts I and II and an expanded Teacher's Book with translations for each part. Parts I-III (now available in hardcover editions) are built around a narrative detailing the life of Horace, now based more closely on historical sources, which helps students to get to know real Romans—with their daily activities, concerns, and habits—and to develop an understanding of Roman civilization during the time of Cicero and Augustus. Part IV (paperback) is a reader consisting of extracts from Caesar, Cicero, Catullus, Virgil, Livy, and Ovid. The second edition of the Oxford Latin Course has been carefully designed to maximize student interest, understanding, and competence. It features a clearer presentation of grammar, revised narrative passages, new background sections, more emphasis on daily life and on the role of women, a greater number and variety of exercises, and review chapters and tests. Each chapter opens with a set of cartoons with Latin captions that illustrate new grammar points. A Latin reading follows, with new vocabulary highlighted in the margins and follow-up exercises that focus on reading comprehension and grammatical analysis. A background essay in English concludes each chapter. Covering a variety of topics—from history to food, from slavery to travel, these engaging essays present a well-rounded picture of Augustan Rome. The Oxford Latin Course, Second Edition offers today's students and teachers an exceptionally engaging and attractive introduction to the language, literature, and culture of Rome—one that builds skills effectively and is exciting to use.

The world's bestselling introductory Latin course. Developed by the University of Cambridge School Classics Project, this bestselling Latin program provides an enjoyable and carefully paced introduction to the Latin language, complemented by background information on Roman culture and civilization. Starting in Roman Britain and moving on to imperial Rome itself, Unit 3 focuses on the murderous schemes and machinations of Gaius Salvius Liberalis, as he plots his ruthless and apparently unstoppable rise to power.

Exercises in Style

Appendix

Minimus Pupil's Book

The 2009-10 volume of the formal governing regulations of the University of Cambridge, annually updated.

Praised by teachers for many years, this format is now easier to manage. Passages are carefully controlled to use only vocabulary and syntax already taught and tested. Reading-skills instruction and translation help prepare students for second-year Latin. Twenty lessons formerly in Level I are now at the beginning of Level II, thereby providing better overall pacing.

The articles in this collection, written by medievalists and Renaissance scholars, are part of the recent "cultural turn" in translation studies, which approaches translation as an activity that is powerfully affected by its socio-political context and the demands of the translating culture. The links made between culture, politics, and translation in these texts highlight the impact of ideological and political forces on cultural transfer in early European thought. While the personalities of powerful thinkers and translators such as Erasmus, Etienne Dolet, Montaigne, and Leo Africanus play into these texts, historical events and intellectual fashions are equally important: moments such as the Hundred Years War, whose events were partially recorded in translation by Jean Froissart; the Political tussles around the issues of lay readers and rewriters of biblical texts; the theological and philosophical shift from scholasticism to Renaissance relativism; or European relations with the Muslim world add to the interest of these articles. Throughout this volume, translation is treated as a form of writing, as the production of text and meaning, carried out in a certain cultural and political ambience, and for identifiable - though not always stated - reasons. No translation, this collection argues, is an innocent, transparent rendering of the original.

Starting Out in Latin

The Politics of Translation in the Middle Ages and the Renaissance

Learn to Read Latin

Statutes and Ordinances of the University of Cambridge 2004

A companion to Bloomsbury's popular two-volume Greek to GCSE, this is the first course for Latin students that directly reflects the curriculum in a clear, concise and accessible way. Enhanced by colour artwork and text features, the books support the new OCR specification for Latin (first teaching 2016) as well as meeting the needs of later students, both at university and beyond. Written by students based on a keen understanding of what pupils find difficult, concentrating on the essentials and on the explanation of principles in both accidence and syntax; minor irregularities are postponed and subordinated so that the need for rote learning is reduced. User-friendly, it also gives pupils a firm foundation for further study. Part 1 covers the basics and is self-contained, with its own reference and a vocabulary of 275 Latin words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: the Fall of Troy, the Journeys of Aeneas, the founding of Rome and the early kings, providing an excellent introduction to Roman culture alongside the language study.

This collection of ancillary Latin narrative passages is intended to supplement the Cambridge Latin Course, and can be used to provide extra practice in translation and/or comprehension, or to provide material for evaluation purposes on tests and examinations. The stories have served both purposes in the classes for which they have been composed over the last 20 years. The Cambridge Latin Course is a well-known and well-used text, and this new collection of stories will help to ensure that it continues to be a successful and enjoyable part of the curriculum. The stories are written in a clear and accessible style, and are designed to be read and understood Latin, mainly because its stories are so interesting that students want to be able to read them. That success, however, poses a challenge to the teacher/evaluator. To measure a student's success in achieving the Course's primary aim, the student has to be asked to translate or answer comprehension questions "at sight" on a connected passage of Latin. The Fabulae Ancilliarum are a new addition to the Cambridge Latin Course, yet are new to the student.

The Fourth Edition Cambridge Latin Course is an introductory program organized into four well-integrated units. Cambridge's proven approach includes a stimulating continuous story line, interwoven grammatical development and cultural information, supportive illustrations and photographs, and a complete Language Information section. Reading is the heart of the Cambridge Latin Course, and all the elements of the program - illustrations, vocabulary, grammar and syntax, cultural contexts and references, activities - are carefully introduced and arranged to provide students with the skills they need to read with comprehension and enjoyment from the very first page. The thorough Omnibus Workbook complements and enhances the Student Book, providing students with a wealth of creative, motivating opportunities to practice their new language skills and to enjoy the process of learning Latin. The Student Book is a spiral-bound volume that provides a wealth of information and aids that make providing quality, integrated instruction easier than ever. The manual includes: course scope and sequence Stage summary: cultural background, story line, language features, focus of exercises thorough background on cultural references and photographs teaching suggestions for each section of the Stage translations of readings and exercises additional testing materials answer keys for the Student Book and Omnibus Workbook bibliography

Alexander the Great

A classic anthology for GCSE. The eight thematic sections of poetry include works by Catullus, Horace, Lucretius, martial, Ovid, Petronius, Seneca and Virgil. The eight sections of adapted prose include sections from Apuleius, Caesar, Cicero, Pliny, Sallust, Tacitus, and the Acts of the Apostles in the Vulgate. Glosses and other explanations are provided opposite each of the texts, and the writing is illustrated throughout by paintings and photographs of artifacts in the Roman world. For the student, there is a complete vocabulary at the end of the book. For the teacher, there is an accompanying handbook giving additional suggestions for discussions in the classroom.

This is the latest updated edition of the University of Cambridge's official Statutes and Ordinances.

The world's bestselling introductory Latin course.

Fabulae Ancillantes: Units 1 and 2

Workbook Part 2

A New York Times Notable Book for 2011 One of The Economist's 2011 Books of the Year People speak different languages, and always have. The Ancient Greeks took no notice of anything unless it was said in Greek; the Romans made everyone speak Latin; and in India, people learned their neighbors' languages—as did many ordinary Europeans in times past (Christopher Columbus knew Italian, Portuguese, and Castilian Spanish as well as the classical languages). But today, we all use translation to cope with the diversity of languages. Without translation there would be no world news, not much of a reading list in any subject at college, no repair manuals for cars or planes; we wouldn't even be able to put together flat-pack furniture. Is That a Fish in Your Ear? ranges across the whole of human experience, from foreign films to philosophy, to show why translation is at the heart of what we do and who we are. Among many other things, David Bellos asks: What's the difference between translating unprepared natural speech and translating Madame Bovary? How do you translate a joke? What's the difference between a native tongue and a learned one? Can you translate between any pair of languages, or only between some? What really goes on when world leaders speak at the UN? Can machines ever replace human translators, and if not, why? But the biggest question Bellos asks is this: How do we ever really know that we've understood what anybody else says—in our own language or in another? Surprising, witty, and written with great joie de vivre, this book is all about how we comprehend other people and shows us how, ultimately, translation is another name for the human condition.

The text, designed for a third or fourth year college Spanish course, presents the history, theory and practice of Spanish-to-English translation. The emphasis is on general material to be found in current journals and newspapers, with some specialized material from the fields of business, the social sciences, and literature.

Cambridge Latin Course 2 Student Study Book Answer Key

An Introductory Course Based on Ancient Authors

This collection of Stage Tests is designed for students who are using Unit 2 of the Cambridge Latin Course. The tests are consistent with the goals of the Cambridge Latin Course. Each test starts with a reading passage, followed by a variety of exercises including: reading comprehension questions in the form of true/false statements or multiple choice questions; questions to evaluate the student's knowledge of grammar in the sight passage, and of grammar from the Stage being tested; sections devoted to the student's knowledge of derivatives based on vocabulary from the Stage being tested; exercises on culture based on the culture reading in the Stage being tested.

Learn to Read Latin helps students acquire an ability to read and appreciate the great works of Latin literature as quickly as possible. It not only presents basic Latin morphology and syntax with clear explanations and examples but also offers direct access to unabridged passages drawn from a wide variety of Latin texts. As beginning students learn basic forms and grammar, they also gain familiarity with patterns of Latin word order and other features of style. Learn to Read Latin is designed to be comprehensive and requires no supplementary material; explains English grammar points and provides drills especially for today's students; includes numerous unaltered examples of ancient Latin prose and poetry; incorporates selections by authors such as Caesar, Cicero, Sallust, Catullus, Vergil, and Ovid, presented chronologically with introductions to each author and work; offers a comprehensive workbook that provides drills and homework assignments. This enlarged second edition improves upon an already strong foundation by streamlining grammatical explanations, increasing the number of syntax and morphology drills, and offering additional short and longer readings in Latin prose and poetry.

Alexander the Great is the towering hero of the classical world: a fearless general, the conqueror of the Persians, and the visionary ruler of a vast empire. In this seminal biography, Paul Cartledge, one of the world's foremost scholars of ancient Greece, gives us the most reliable and intimate portrait of the man himself. Cartledge brilliantly evokes Alexander's remarkable political and military accomplishments, cutting through the myths to show why he was such a great leader. He explores our endless obsession with Alexander and gives us insight into both his capacity for brutality and his sensitive grasp of international politics. As he brings Alexander vividly to life, Cartledge also captures his enduring impact on world history and culture.
