A captivating, atmospheric mystery set in the crystalline winterland of Russia. Abandoned in a

blinding blizzard in the wintry wilds of Russia, Sophie Smith fears for her life. But just like in a fairy tale, a princess comes to her rescue: the beautiful, exotic Anna Volkonskaya. Over a river of ice in a horse-drawn sleigh, she brings Sophie and her friends to a magnificent, if weathered, winter palace. At first, Sophie is enchanted by Princess Anna's stories of long-ago royalty, of white wolves and gray diamonds. But when the princess takes a particular interest in her, Sophie grows concerned. What is her place in the sinister mystery that surrounds her? Even as the wind and wolves howl outside, is she more in danger now, a prisoner of the palace, than she ever was lost in the snow?

The Cambridge Primary Review Research Surveys is the outcome of the Cambridge Primary Review – England's biggest enquiry into primary education for over forty years. Fully independent of government, it was launched in 2006 to investigate the condition and future of primary education at a time of change and uncertainty and after two decades of almost uninterrupted reform. Ranging over ten broad themes and drawing on a vast array of evidence, the Review published thirty-

one interim reports, including twenty-eight surveys of published research, provoking media headlines and public debate, before presenting its final report and recommendations. This book brings together the twenty-eight research surveys, specially commissioned from sixty-five leading academics in the areas under scrutiny and now revised and updated, to create what is probably the most comprehensive overview and evaluation of research in primary education yet published. A particular feature is the prominence given to international and comparative perspectives. With an introduction from Robin Alexander, the Review's director, the book is divided into eight sections, covering: children's lives and voices: school, home and community children's development, learning, diversity and needs aims, values and contexts for primary education the structure and content of primary education outcomes, standards and assessment in primary education teaching in primary schools: structures and processes teaching in primary schools: training, development and workforce reform policy frameworks: governance, funding, reform and quality assurance. The Cambridge Primary Review Research Surveys is an essential reference tool for professionals, researchers, students and policy-makers working in the fields of early years, primary and secondary education.
