Tunnels and Underground Cities: Engineering and Innovation meet Archaeology, Architecture and Art. Volume 10: Strategic use of underground space for resilient cities contains the contributions presented in the eponymous Technical Session during the World Tunnel Congress 2019 (Naples, Italy, 3-9 May 2019). The use of underground space is continuing to grow, due to global urbanization, public demand for efficient transportation, and energy saving, production and distribution. The

growing need for space at ground level, along with its continuous value increase and the challenges of energy saving and achieving sustainable development objectives, demand greater and better use of the underground space to ensure that it supports sustainable, resilient and more liveable cities. The contributions cover a wide range of topics, from investing in urban underground space, via effective use of underground space for sustainable cities, and the use of new energy carriers to the compound use of underground space for integrated campus-urban development. The book is a valuable reference

The most popular type of ATV is the sport-utility quad, a machine that is both a fun, capable trail machine and equipped with racks and hitches so it is useful around the house or farm. This book shows how to do the most popular types of modifications to the ATV, most of which consist of bolting on a rack, or other accessory. Also included are some basic maintenance tips and a few

performance modifications which include exhaust, suspension, and some drivetrain mods. About the Author Len Nelson is a long-time ATV rider and a contributing editor at ATV Rider magazine. He has worked for Motorcycle Online and several other motorcycle magazines and is a first-rate writer, photographer, and ne'er do well. He also has a thing for Underdog, Tom Waits, and George Winston. He lives in North Carolina.
