this useful book will be an ideal introduction to dementia for anyone from child to adult. It will also guide family, friends and carers in understanding and explaining the condition and could serve as an excellent starting point for family discussions.

I write this book for anyone searching for what to believe. Through years of doubting all the conversations heard from friends and family about life in general, I was so very confused about who to believe, and what was the right choice. I questioned everyone and everything. I just existed day by day to get to tomorrow, and I worked hard to be a good student. I had a deeply ingrained desire to "be successful", yet I knew not what to do or how to get there. Time passes and all our choices determine our reality. However, our understanding is also created from life events not of our choosing. I share with you my life before 1987, and then the journey that I traveled since January 16, 1987, when I was in a horrid accident and experienced an out-of-body event. This life event forever

has altered my thinking. I have spent over 30 years traveling this path, and in that journey have experienced some remarkable spiritual moments that have helped to define for me what is most important about this life. I hope that in sharing my experiences you will more fully understand our deep connection to our creator. You will be convinced that the statement Let Go and Let God is a valuable thought to embrace and hold onto.

Karl's poems are often told through story and capture a temperament not commonly found in modern poetry. These poems are accompanied by fifty illustrations by Marta Maszkiewicz to create a powerful thrill for readers looking to be inspired by new ideas and ultimately examine their own lives. In one sentence, Can I Tell You Something? is an exploration of hope in the mystery of humanity. Flores writes: "Read in the dark. Live in the space between the wine and the cork. Live without rhyme, like a vortex, free of them, go wild for any sort. Live like a secret, dance despised, share your mad, let the water soak you, But most: live your true wish and don't let man's template choke you."
