The story covers three generations and touches on two major historical events that bring their significance to life. Yvonne Lehman has dug deep to bring us a story worthy of the Titanic's 100th anniversary." - Ane Mulligan, Sr. Editor of Novel Rocket "In spite of one of the greatest tragedies the world has ever known being the setting for Hearts that Survive, this is one novel you will not want to miss reading. Yvonne Lehman has made alive a story of love with adventure and romance, sin and redemption. Hearts that Survive drew me in immediately with believable dialogue and heart-breaking intrigue. Books have been written, films made, we have raised the Titanic and watched her go down again on numerous occasions, but out of the wreckage Frances Wilson spins a new epic: when the ship hit the iceberg on 14 April 1912 and a thousand men prepared to die, J Bruce Ismay, the ship's owner and inheritor of the White Star fortune, jumped into a lifeboat with the women and children and rowed away to safety. Accused of cowardice, Ismay became, according to one headline, 'The Most Talked-of Man in the World'. The first victim of a press hate campaign, his reputation never recovered and while other survivors were piecing together their accounts, Ismay never spoke of his beloved ship again. With the help of that great narrator of the sea, Joseph Conrad, whose Lord Jim so uncannily predicted Ismay's fate - and whose manuscript of the story of a man who impulsively betrays a code of honour and lives on under the strain of intolerable guilt went down with the Titanic - Frances Wilson explores the reasons behind Ismay's jump, his desperate need to make sense of the horror of it all, and to find a way of living with lost honour. For those who survived the Titanic the world was never the same again. But as Wilson superbly demonstrates, we all have our own Titanics, and we all need to find ways of surviving them.

Surviving a Shipwreck

How to Survive the Titanic or The Sinking of J. Bruce Ismay

Two survivors' accounts of the sinking of the Titanic. The information contained in Colonel Gracie's story is available from no other source. He provides details of the final moments, including names of passengers pulled from the ocean and of those men who, in a panic, jumped into lifeboats as they were being lowered. Walter Lord, author of *A Night to Remember*, calls Gracie "an indefatigable detective." John Thayer was, like Gracie, one of the last to leave the ship. His account, *The Sinking of the S.S. Titanic*, is meticulously detailed. The sinking of the Titanic was, in his eyes, a symbol of the end of the world that he knew, and the beginning of a frightening new era.

Violet Jessop's life is an inspiring story of survival. Born in 1887 in Argentina, the eldest child of Irish immigrants, at the age of 21 she became the breadwinner for her widowed mother and five siblings when she commenced a career as a stewardess and nurse on some of the most famous ocean going vessels of the day. Throughout her 40 year time at sea she survived an unbelievable series of events including the sinking of the TITANIC. "One awful moment of empty, misty blackness enveloped us in its loneliness, then an unforgettable, agonizing cry went up from 1500 despairing throats, a long wail and then silence and our tiny craft tossing about at the mercy of the ice field." For most people one sinking would be enough. But four years later Violet, now a nurse with the British Red Cross, was on board the World War I hospital ship BRITANNIC when it struck a mine and sank to the bottom of the Aegean. To her, this disaster was even more horrifying-- "Just as life seeming nothing but a whirling, choking ache, I rose to the light of day, my nose barely above the little lapping waves. I opened my eyes on an indescribable scene of slaughter, which made me shut them again to keep it out." By the end of her story we have a met a woman who could handle whatever life threw at her with determination and good humor. She knew that only by her own strength of character would she survive. But *Titanic Survivor* is much more. A unique autobiography for those who want to know how it really felt, a story that could be told only by a Titanic Survivor.

A heartwarming story from the author of the *I Survived* series The endearing, if not quirky, Emma-Jean Lazarus is back in the companion to *Emma-Jean Lazarus Fell Out of a Tree*. When Emma-Jean thinks about asking Will Keeler to the Spring Fling dance, she gets a fluttering feeling in her heart. What would someone like Will say to someone like Emma-Jean? After all, Emma-Jean is a little—different. Meanwhile, Emma-Jean's best friend, Colleen, has a secret admirer. With the Spring Fling just days away, she asks Emma-Jean to figure out who he is so maybe then Colleen could ask him to the dance. It's a perfect plan. But what Emma-Jean discovers could have consequences for everyone?.

Audisee® eBooks with Audio combine professional narration and sentence highlighting to engage reluctant readers! "Iceberg, Right Ahead!" Only 160 minutes passed between the time a sailor on lookout duty uttered these chilling words and the moment when the mighty ocean liner Titanic totally disappeared into the cold, dark waters of the North Atlantic. This century-old tragedy, which took more than 1,500 lives, still captivates people in the twenty-first century. Seventy-three years separate the two major Titanic events—the 1912 sinking of the vessel and the dramatic 1985 discovery of the wreck by Robert Ballard. But additional stories about the victims, survivors, rescuers, reporters, investigators, and many others show the far-reaching effects this tragedy had on society. Award-winning author Stephanie Sammartino McPherson has collected numerous personal accounts of the event, including the knighted man who spent the rest of his life in seclusion because he was accused of dishonorable behavior in a lifeboat, the stewardess who survived two shipwrecks and a mid-ocean collision, and

the New York Times executive who sent multiple reporters to meet the rescue ship, thus earning a national reputation for his newspaper. She also links the Titanic tragedy to changes in regulations worldwide. After a Senate Inquiry and a British trial attempted to assign blame for the disaster, new laws on ship safety were put in place. A group of nations also banded together to form an ice patrol, eventually leading to the formation of the U.S. Coast Guard. Even the most avid Titanic fans will learn something new as McPherson brings the reader up to date on the politics and intrigue still surrounding the wreck—including what modern science can reveal about what really happened to the ship and who was at fault. Prepare to follow the never-ending story of the Titanic into its second century.

Hearts That Survive

The most terrifying events in history are brought vividly to life in this New York Times bestselling series! Ten-year-old George Calder can't believe his luck -- he and his little sister, Phoebe, are on the famous Titanic, crossing the ocean with their Aunt Daisy. The ship is full of exciting places to explore, but when George ventures into the first class storage cabin, a terrible boom shakes the entire boat. Suddenly, water is everywhere, and George's life changes forever. Lauren Tarshis brings history's most exciting and terrifying events to life in this New York Times bestselling series. Readers will be transported by stories of amazing kids and how they survived!

IN the early morning hours of April 15, 1912, the icy waters of the North Atlantic reverberated with the desperate screams of more than 1,500 men, women, and children—passengers of the once majestic liner Titanic. Then, as the ship sank to the ocean floor and the passengers slowly died from hypothermia, an even more awful silence settled over the sea. The sights and sounds of that night would haunt each of the vessel's 705 survivors for the rest of their days. Although we think we know the story of Titanic—the famously luxurious and supposedly unsinkable ship that struck an iceberg on its maiden voyage from Britain to America—very little has been written about what happened to the survivors after the tragedy. How did they cope in the aftermath of this horrific event? How did they come to remember that night, a disaster that has been likened to the destruction of a small town? Drawing on a wealth of previously unpublished letters, memoirs, and diaries as well as interviews with survivors' family members, award-winning journalist and author Andrew Wilson reveals how some used their experience to propel themselves on to fame, while others were so racked with guilt they spent the rest of their lives under the

Titanic's shadow. Some reputations were destroyed, and some survivors were so psychologically damaged that they took their own lives in the years that followed. Andrew Wilson brings to life the colorful voices of many of those who lived to tell the tale, from famous survivors like Madeleine Astor (who became a bride, a widow, an heiress, and a mother all within a year), Lady Duff Gordon, and White Star Line chairman J. Bruce Ismay, to lesser known second- and third-class passengers such as the Navratil brothers—who were traveling under assumed names because they were being abducted by their father. Today, one hundred years after that fateful voyage, Shadow of the Titanic adds an important new dimension to our understanding of this enduringly fascinating story.

Recounts the true tale of 12-year-old Elizabeth Becker, who was returning from India to America with her mother and siblings on the Titanic when the great ship collided with an iceberg. Simultaneous.

The circumstances in which this book came to be written are as follows. Some five weeks after the survivors from the Titanic landed in New York, I was the guest at luncheon of Hon. Samuel J. Elder and Hon. Charles T. Gallagher, both well-known lawyers in Boston. After luncheon I was asked to relate to those present the experiences of the survivors in leaving the Titanic and reaching the Carpathia. When I had done so, Mr. Robert Lincoln O'Brien, the editor of the Boston Herald, urged me as a matter of public interest to write a correct history of the Titanic disaster, his reason being that he knew several publications were in preparation by people who had not been present at the disaster, but from newspaper accounts were piecing together a description of it. He said that these publications would probably be erroneous, full of highly coloured details, and generally calculated to disturb public thought on the matter. He was supported in his request by all present, and under this general pressure I accompanied him to Messrs. Houghton Mifflin Company, where we discussed the question of publication. Messrs. Houghton Mifflin Company took at that time exactly the same view that I did, that it was probably not advisable to put on record the Loss of the SS. Titanic, by Lawrence Beesle 4 incidents connected with the Titanic's sinking: it seemed better to forget details as rapidly as possible.

However, we decided to take a few days to think about it. At our next meeting we found ourselves in agreement again, --but this time on the common ground that it would probably be a wise thing to write a history of the Titanic disaster as correctly as possible. I was supported in this decision by the fact that a short account, which I wrote at intervals on board the Carpathia, in the hope that it would calm public opinion by stating the truth of what happened as nearly as I could recollect it, appeared in all the American, English, and Colonial papers and had exactly the effect it was i

The ship sank after a boiler explosion in 1838, and the wreckage was just discovered, 180 years later. These aristocratic women were part of Savannah's society, but when the ship exploded, each was faced with difficult and heartbreaking decisions.
