

## **Captive The Di Scott Baker Crime Series Book 4**

*Florence in the Early Modern World offers new perspectives on this important city by exploring the broader global context of the fifteenth and sixteenth centuries, within which the experience of Florence remains unique. By exploring the city's relationship to its close and distant neighbours, this collection of interdisciplinary essays reveals the transnational history of Florence. The chapters orient the lenses of the most recent historiographical turns perfected in studies on Venice, Rome, Bologna, Naples, and elsewhere towards Florence. New techniques, such as digital mapping, alongside new comparisons of architectural theory and merchants in Eurasia, provide the latest perspectives about Florence's cultural and political importance before, during, and after the Renaissance. From Florentine merchants in Egypt and India, through actual and idealized military ambitions in the sixteenth-century Mediterranean, to Tuscan humanists in late medieval England, the contributors to this interdisciplinary volume reveal the connections Florence held to early modern cities across the globe. This book steers away from the historical narrative of an insular Renaissance Europe and instead identifies the significance of other global influences. By using Florence as a case study to trace these connections, this volume of essays provides essential reading for students and scholars of early modern cities and the Renaissance.*

This book presents a series of possible future scenarios in wildlife and animal tourism by combining critical thinking and imagination to stimulate reflection and ways forward.

The future of wildlife tourism faces uncertainties that revolve around many factors, including climate change, mass wildlife extinction, human population growth, deforestation, sustainability and ethical assumptions. For wildlife tourism to meet these challenges, new ways of thinking are necessary. The chapters in this volume focus on future wildlife tourism development and management; the experiential value, educational components and ethical relevance of tourism–animal encounters; and the technology applied to wildlife tourism. They offer critically-imagined futures in order to encourage readers

Using more than 30 years research from the author team at the Wildlife Conservation Research Unit (WildCRU), this volume reveals how agricultural systems and wildlife interact, presenting examples from scales varying from landscape to microcosm, from populations to individuals, covering plants, invertebrates, birds, and mammals. It demonstrates the essential ecosystem services provided by agricultural land, and discusses the implications of agricultural development for natural habitats and biodiversity.

A tale beautifully, wisely, and masterfully told.”

tale of courage, determination, optimism, and the resilience of the human spirit, set in a small Normandy village on the eve of D-Day. On June 5, 1944, as dawn rises over a small town on the Normandy coast of France, Emmanuelle is making the bread that has sustained her fellow villagers in the dark days since the Germans invaded her country. Only twenty-two, Emma learned to bake at the side of a master, Ezra Kuchen, the village baker since before she was born. Apprenticed to Ezra at thirteen, Emma watched with shame and anger as her kind mentor was forced to wear the six-pointed yellow star on his clothing. She was likewise powerless to help when they pulled Ezra from his shop at gunpoint, the first of many villagers stolen away and never seen again. In the years that her sleepy coastal village has suffered under the enemy, Emma has silently, stealthily fought back. Each day, she receives an extra ration of flour to bake a dozen baguettes for the occupying troops. And each day, she mixes that precious flour with ground straw to create enough dough for two extra loaves—contraband bread she shares with the hungry villagers. Under the cold, watchful eyes of armed soldiers, she builds a clandestine network of barter and trade that she and the villagers use to thwart their occupiers. But her gift to the

Wildlife Tourism Futures

**Welcome to the thrilling and unnervingly prescient world of the slow horses. This team of MI5 agents is united by one common bond: They've screwed up royally and will do anything to redeem themselves. This special tenth-anniversary deluxe edition of a modern classic includes a foreword by the author, discussion questions for book clubs, and an exclusive short story featuring the slow horses. London, England: Slough House is where washed-up MI5 spies go to while away what's left of their failed careers. The "slow horses," as they're called, have all disgraced themselves in some way to get relegated there. Maybe they botched an Op so badly they can't be trusted anymore. Maybe they got in the way of an ambitious colleague and had the rug yanked out from under them. Maybe they just got too dependent on the bottle—not unusual in this line of work. One thing they have in common, though, is they want to be back in the action. And most of them would do anything to get there—even if it means having to collaborate with one another. When a young man is abducted and his kidnappers threaten to broadcast his beheading live on the Internet, the slow horses see an opportunity to redeem**

## **Florence in the Early Modern World**

This annual selection guide covers new novels in the mystery fiction, science fiction, fantasy, horror, western fiction and romance genres. By identifying similarities in various books, it seeks to help readers to independently choose titles of interest published during 1995 - 1996. Entries are arranged by author within six genre sections, and provide: publisher and publication date; series name and number; description of characters; time/geographical setting; review citation; genre and setting notations; and related books.

First published in 1952, the International Bibliography of the Social Sciences (anthropology, economics, political science, and sociology) is well established as a major bibliographic reference for students, researchers and librarians in the social sciences worldwide. Key features \* Authority: Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced. Articles and books are selected on merit by some of the world's most expert librarians and academics. \*Breadth: today the IBSS covers over 2000 journals - more than any other comparable resource. The latest monograph publications are also included. \*International Coverage: the IBSS reviews scholarship published in over 30 languages, including publications from Eastern Europe and the developing world. \*User friendly organization: all non-English titles are word sections. Extensive author, subject and place name indexes are provided in both English and French. Place your standing order now for the 2001 volumes of the the IBSS

*Building from the stories in Under God, each of the 60 four-page readings opens with Scripture and then presents a theme--including justice, mercy, and sacrifice, among others--illustrated in the lives and events of our country's past. Excerpts from Under God are married with deeper biblical exploration of these virtues, followed by tips on how they can be put into action in young people's lives today. Questions for further study and discussion starters facilitate the use of Living Under God in group settings.*

*A standard text in a variety of courses, the Techniques Manual, as it is commonly called, covers every aspect of modern wildlife management and provides practical information for applying the hundreds of methods described in its pages. To effectively incorporate the explosion of new information in the wildlife profession, this latest edition is logically organized into a two-volume set:*
