Ship to shore! Or whatever that expression is... Yup, still here on this dumb island, and still no sign of rescue. Feels like all we've been doing is hauling firewood around and gathering food. Cleaning up an island is one thing, but this is not what I signed up for! Anyway, now we're planning a dance, if you can believe that. The sky looks a little overcast, but the dance might be fun (even though it was Evil Angela's idea). Especially since I'm trying to figure out whether Josh likes me or not. If only Kenny would stop bugging me, things might be okay. I mean, seriously, what else could go wrong?

**ADRIFT AT SEA**, Tom Tin and his four convict companions are only too glad when they come upon a deserted ship. The boys clamber aboard, not knowing whether they've been saved or set on a course toward doom. But after rescuing two men stranded on a melting iceberg, Tom begins to suspect that these unsavory sailors are dangerous castaways from this very vessel. The more Tom questions the men, the more they dislike him. So, when Tom overhears them plotting to get rid of him, he knows they mean it. But the other boys don't feel threatened - at least not until the sailors attempt to sell them as slaves, a decision that ends with death for some . . . and with Tom sailing the ship home to England. Soon Tom discovers that he has to cast away every ill-intentioned companion from his voyage home before he can truly be free.

"At once a penetrating work of literary analysis and a riveting historical narrative." -Nathaniel Philbrick Merging maritime adventure and early colonial history, *A Brave Vessel* charts a little-known chapter of the past that offers a window on the inspiration for one of Shakespeare's greatest works. In 1609, aspiring writer William Strachey set sail for the New World aboard the *Sea Venture*, only to wreck on the shores of Bermuda. Strachey's meticulous account of the tragedy, the castaways' time in Bermuda, and their arrival in a devastated Jamestown, remains among the most vivid writings of the early colonial period. Though Strachey had literary aspirations, only in the hands of another William would his tale make history as *The Tempest*-a fascinating connection across time and literature that Hobson Woodward brings vividly to life.

*Declared "the best survival book in a decade" by Outside Magazine, 438 Days is the true story of the man who survived fourteen months in a small boat drifting seven thousand miles across the Pacific Ocean. On November 17, 2012, two men left the coast of Mexico for a weekend fishing trip in the open Pacific. That night, a violent storm ambushed them as they were fishing eighty miles offshore. As gale force winds and ten-foot waves pummeled their small, open boat from all sides and nearly capsized them, captain Salvador Alvarenga and his crewmate cut away a two-mile-long fishing line and began a desperate dash through crashing waves as they sought the safety of port. Fourteen months later, on January 30, 2014, Alvarenga, now a hairy, wild-bearded and half-mad castaway, washed ashore on a nearly deserted island on the far side of the Pacific. He could barely speak and was unable to walk. He claimed to have drifted from Mexico, a journey of some seven thousand miles. A "gripping saga," (Daily Mail), 438 Days is the first-ever account of one of the most amazing survival stories in*
