Live in the Meow Dot Grid Journal

A stylish, illustrated gift book profiling notable cat-loving men throughout history. Some of history's greatest men have been cat lovers, and their cats have contributed to their genius and legacy: the static charge from a cat's fur sparked young Nikola Tesla's interest in electricity; Sir Isaac Newton is said to have invited the first cat flap; visitors to Ernest Hemingway and Winston Churchill's homes still encounter the descendants of their beloved cats; William S. Burroughs and Andy Warhol both wrote books inspired by their feline friends. Stylishly illustrated and full of charming, witty profiles and quotes from history's most notable "cat men," *Of Cats and Men* pays tribute to thirty luminaries and visionaries who have one thing in common: a pure and enduring love of cats.

*The Old Man and The Cat* is a story of how Nils Uddenberg, retired Professor of Psychology became a beloved cat-owner even though he had never wanted a pet of any kind. One winter morning the author discovered a cat—whom he would later find was homeless—sitting outside his bedroom window, staring at him with big yellow eyes. Slowly but surely the cat worked itself into his life. This award-winning writer who has a background in psychology could not stop himself from going deeper into the cat's inner life. Does she have a sense of humor? Is it possible to attach human feelings to her? And the trickiest question of all:

Is our little cat actually interested in our attachment to her? With humor and self-awareness, Nils describes how his existence changed after the cat moved into his house. The feelings she stirs up are a surprise to him and he quickly finds himself falling in love with this speckled grey-brown little lady.
