Based on the authors' combined experience of seventy years working on projects around the globe, *Construction Equipment Management for Engineers, Estimators, and Owners* contains hands-on, how-to information that you can put to immediate use. Taking an approach that combines analytical and practical results, this is a valuable reference for a wide range of individuals and organizations within the architecture, engineering, and construction industry. The authors delineate the evolution of construction equipment, setting the stage for specific, up-to-date information on the state-of-the-art in the field. They cover estimating equipment ownership, operating cost, and how to determine economic life and replacement policy as well as how to schedule a production-driven, equipment-intensive project that achieves target production rates and meets target equipment-related unit costs and profits. The book includes a matrix for the selection of equipment and identifies common pitfalls of project equipment selection and how to avoid them. It describes how to develop an OSHA job safety analysis for an equipment-intensive project, making this sometimes onerous but always essential task easier. The authors' diverse and broad experience makes this a book that ranges from the rigorous mathematical analysis of equipment operations to the pragmatic discussion of the equipment maintenance programs needed to guarantee that the production predicted in a cost estimate occurs. This book looks at fair and equitable treatment as a key standard of international investment law. An overview of Catholic social thought, both official and non-official, particularly in recent decades, first published in 2006.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion -

toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

The so-called Sumerian conjugation prefixes are the most poorly understood and perplexing elements of Sumerian verbal morphology. Approaching the problem from a functional-typological perspective and basing the analysis upon semantics, Professor Woods argues that these elements, in their primary function, constitute a system of grammatical voice, in which the active voice is set against the middle voice. The latter is represented by heavy and light markers that differ with respect to focus and emphasis. As a system of grammatical voice, the conjugation prefixes provided Sumerian speakers with a linguistic means of altering the perspective from which events may be viewed, giving speakers a series of options for better approximating in language the infinitely graded spectrum of human conceptualization and experience.

India's history and culture is ancient and dynamic, spanning back to the beginning of human civilization. Beginning with a mysterious culture along the Indus River and in farming communities in the southern lands of India, the history of India is punctuated by constant integration with migrating peoples and with the diverse cultures that surround the country. Placed in the center of Asia, history in India is a crossroads of cultures from China to Europe, as well as the most significant Asian connection with the cultures of Africa. The Historical Dictionary of Ancient India provides information ranging from the earliest Paleolithic cultures in the Indian subcontinent to 1000 CE. The ancient history of this country is related in this book through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on rulers, bureaucrats, ancient societies, religion, gods, and philosophical ideas.

***Ascetic Culture honors Philip Rousseau's pathbreaking work on early Christian asceticism in a series of essays exploring how quickly the industrious and imaginative practitioners of asceticism, from the early fourth through the mid-fifth century, adapted the Greco-Roman social, literary, and religious culture in which they had been raised. Far from rejecting the life of the urban centers of the ancient world, they refined and elaborated that life in their libraries, households, and communities. The volume begins with a discussion of Egyptian monastic reading programs and the circulation of texts, especially the hugely influential Life of Antony. A second group of essays engages the topic of disciplinary culture in ascetic spaces such as the monastery, the household, and the city. A third group focuses on the topic of imaginary landscapes and ascetic self-fashioning. Ascetic Culture concludes by surveying the scholarly study of asceticism over the last one hundred and fifty years, arguing that previous generations of scholars have regarded asceticism either as a product of the inner dynamism of early Christianity or as a distortion of its earliest aims. Together, the contributors recognize, reflect upon, and extend the themes explored in Rousseau's work on early Christianity's ascetic periphery--a region whose inhabitants reflect in various ways the aspirations of their religion, from the daily to the otherworldly. "Ascetic Culture: Essays in Honor of Philip Rousseau is a significant resource for scholars and students interested in the study of Christianity in late antiquity. It offers a fascinating collection of investigations into early Christian ascetic rhetoric and practice as well as ample self-reflection on contemporary scholarly interpretation of primary source data. In so doing, the authors honor Philip Rousseau's major contributions to the field." --Stephen J. Davis, Yale University***

This book brings together our present-day knowledge about textile terminology in the Akkadian language of the first-millennium BC. In fact, the progress in the study of the Assyrian dialect and its grammar and lexicon has shown the increasing importance of studying the language as well as cataloging and analysing the terminology of material culture in the documentation of the first world empire. The book analyses the terms for raw materials, textile procedures, and textile end products consumed in first-millennium BC Assyria. In addition, a new edition of a number of written records from Neo-Assyrian administrative archives completes the work. The book also contains a number of tables, a glossary with all the discussed terms, and a catalogue of illustrations. In light of the recent development of textile research in ancient languages, the book is aimed at providing scholars of Ancient Near Eastern studies and ancient textile studies with a comprehensive work on the Assyrian textiles.

Over two hundred and thirty years ago the Fallocaust happened, killing almost everything that lived and creating what is now known as the greywastes. A dead wasteland where cannibalism is a necessity, death your reality, and life before the radiation nothing but pictures in dog-eared magazines. Reaver is a greywaster, living in a small block controlled by a distant ruler said to have started the Fallocaust. He is a product of the savage world he was raised in and prides himself on being cold and cruel. Then someone new to his town catches his eye, someone different than everyone else. Without knowing why he starts to silently stalk him, unaware of where it will lead him.

*For decades, historians have debated the meaning and significance of Confederate nationalism and the role it played in the outcome of the Civil War. Yet they have paid little attention to the actual development and content of this Confederate ideology. In The Creation of Confederate Nationalism, Drew Gilpin Faust argues that coming to a fuller understanding of southern thought during the Civil War period offers a valuable refraction of the essential assumptions on which the Old South and the Confederacy were built. She shows the benefits of exploring Confederate nationalism "as the South's commentary upon itself, as its effort to represent southern culture to the world at large, to history, and perhaps most revealingly, to its own people."*
