Whether it's your first mergers and acquisitions transaction or your 100th, the new M&A Practice Guide will help you through the process from the initial planning phase through implementation and closure. Written by seasoned experts from the law firm of Gibson Dunn, the M&A Practice Guide is your one-stop source for tips, insights, and practical information about the complex world of mergers and acquisitions. The LexisNexis M&A Practice Guide lets you tap into the actual research and strategies successful practitioners have used in their own practices, with emphasis on guidance that can be put to use immediately. The book dissects each task, providing you a step-by-step outline with an analytical overview, checklists, expert practice tips, cross-references to complementary analytical products to expertly handle your issue. You'll be able to better: - Plan mergers and acquisitions transactions and choose the right structure under the circumstances - Negotiate deal terms and preliminary agreements - Structure purchase price provisions and other key provisions in the acquisition agreement - Comply with disclosure and registration requirements under federal securities laws Every mergers and acquisitions attorney in your law firm should own a copy, especially associates new to the field. The publication's purpose is to focus and discuss Chinese taxation from the perspective of daily business operations of a market participant, including a company, a partnership, and an individual business. The targeted users are business managers of multinational corporations, in-house counsels with legal departments of multinational corporations, tax professionals, associates and partners of law firms or accounting firms, and business lawyers at law firms. This treatise systematically explains Chinese partnership taxation and the tax implications for a complete life cycle of a Chinese company, including a foreign-invested company and Chinese corporate reorganization. It not only includes discussion of the current tax rules but also incorporates tax structuring strategies in the analysis of tax implications for market participants. Accordingly, this treatise knits rules and tax planning strategies and solutions into the daily business operations of a market participant, including a company, a partnership (a general partnership and a limited partnership), and an individual investor. Its 19 chapters cover reporting requirements; the potential anti-avoidance regime in cross-border equity transactions; tax structuring strategies and solutions; general tax rules; and specific tax rules for foreign-service providers, foreign lessors, foreign licensors, and foreign lenders, and much more. This treatise also includes an Appendix providing a comparison of the Chinese income tax rates under applicable tax treaties on China-sourced income of foreign investors. This is the only guide with the most thorough coverage and practical guidance available regarding the Chinese tax system. It covers all vital areas including concerns of multinational enterprises headquartered inside and outside mainland China, equity and asset acquisitions, corporate reorganizations, Chinese indirect tax, and tax collection and tax returns. It is replete with examples, practice tips, notes, and case studies to help clarify concepts.

Adopted by the State of Arkansas for 2008 Once again, the State of Arkansas has adopted An Arkansas History for Young People as an official textbook for middle-level and/or junior-high-school Arkansas-history classes. This fourth edition incorporates new research done after extensive consultations with middle-level and junior-high teachers from across the state, curriculum coordinators, literacy coaches, university professors, and students themselves. It includes a multitude of new features and is now full color throughout. This edition has been completely redesigned and now features a modern format and new graphics suitable for many levels of student readers. The completely revised fourth edition includes new unit, chapter, and section divisions as well as five brand-new chapters: an introductory chapter with information on the symbols, flag, and songs of Arkansas; chapter 2, which covers the geography of Arkansas; chapter 3, on state and local government; chapter four, on economics and tourism; and a "modern" chapter on the Arkansas of today and the future, which completes the learning adventure. This edition also has two "special features": one on the Central High School crisis of 1957 and another on the William J. Clinton Presidential Library. It also has new and interesting features for students like the "Guide to Reading" (at the beginning of each chapter, there is a list of important terms, people, places and events for the student to keep in mind as he or she reads [corresponding to blue vocabulary words in the text, which are define in the margin]), "County Quest," "I Am an Arkansan," "Did You Know?" "Only in Arkansas," "A Day in the Life," "Chapter Reflection" questions and activities, over forty-five new content maps, and a comprehensive new map atlas.

"This study guide is designed for use with The Developing Person Through the Life Span, Sixth Edition, by Katleen Stassen Berger. It is intended to help students evaluate their understanding of that material, and to review any problem areas. [Sections such as] 'How to Manage Your Time Efficiently,' 'Study more effectively', and 'Thing Critically' provide detailed instructions on how to use the textbook. Each chapter ... includes a Chapter Overview, a set of Guided Study questions, a Chapter Review section, and three review tests." --Preface.

The Guide to International Legal Research is an authoritative and comprehensive reference tool for law students and practitioners. Authored annually by The George Washington International Law Review, the Guide is designed to assist both novices and professionals with their international legal research. Following an introduction by Professor Christopher J. Borgen, the Guide is organized into two parts. In the first part, chapters are divided by regions. Each regional chapter includes an overview of the geopolitical climate in that region and lists government resources, legal resources, media resources, and resources by topic. Where appropriate, these sources are subdivided by country. Many of the chapters discuss general multi-national organizations as well as international trade organizations and agreements that are specific to the region. The Guide also provides an overview of what each source covers and how it can be most effective. The second part of the Guide covers substantive areas of international law, including general international law, public health law, space law, human rights law, group rights, intellectual property, international trade, international business transactions, tax law, environmental law, labor law, and international security law, among other topics. Much like the regional sections, the substantive chapters begin with a section on international governance followed by a section on secondary sources pertinent to that subject area.

While Active Learning Classrooms, or ALCs, offer rich new environments for learning, they

present many new challenges to faculty because, among other things, they eliminate the room's central focal point and disrupt the conventional seating plan to which faculty and students have become accustomed. The importance of learning how to use these classrooms well and to capitalize on their special features is paramount. The potential they represent can be realized only when they facilitate improved learning outcomes and engage students in the learning process in a manner different from traditional classrooms and lecture halls. This book provides an introduction to ALCs, briefly covering their history and then synthesizing the research on these spaces to provide faculty with empirically based, practical guidance on how to use these unfamiliar spaces effectively. Among the questions this book addresses are: • How can instructors mitigate the apparent lack of a central focal point in the space? • What types of learning activities work well in the ALCs and take advantage of the affordances of the room? • How can teachers address familiar classroom-management challenges in these unfamiliar spaces? • If assessment and rapid feedback are critical in active learning, how do they work in a room filled with circular tables and no central focus point? • How do instructors balance group learning with the needs of the larger class? • How can students be held accountable when many will necessarily have their backs facing the instructor? • How can instructors evaluate the effectiveness of their teaching in these spaces? This book is intended for faculty preparing to teach in or already working in this new classroom environment; for administrators planning to create ALCs or experimenting with provisionally designed rooms; and for faculty developers helping teachers transition to using these new spaces.
