Q&A Is Alzheimer's disease hereditary? Are there memory exercises I should be doing now? Is all dementia Alzheimer's, or are there other forms? How do I make time for both my parent with Alzheimer's and my children? How long can someone live with this disease? All caregivers and families touched by Alzheimer's and dementia face a seemingly overwhelming number of emotional decisions. The Alzheimer's Answer Book serves as a much-needed resource for you in this difficult time and is full of the sound advice and immediate guidance you need. Written by an experienced doctor who began his career as a geriatric psychiatrist, The Alzheimer's Answer Book covers such topics as: What are the causes of Alzheimer's and dementia What preparations do I need to make immediately after diagnosis? Are there medications available that help slow the progress of the disease? How can I tell if my parent is in pain? How can I avoid "caregiver burnout" when I'm constantly caring for a parent? Where can I find resources and support in my community? What are the differences between Medicare and Medicaid, and how do I know what insurance will and will not cover? Written in an easy-to-read Q&A format, The Alzheimer's Answer Book explains confusing medical lingo and provides straightforward answers to all of your most pressing questions.

Practical assignments reinforce the information in the text, and learning activities and exercises challenge you to apply your knowledge to real-world situations. Case studies ask you to solve a real-world problem related to health insurance, such as completing a CMS-1500 claim form or explaining how HIPAA could affect someone recently out of work. Critical Thinking activities strengthen your ability to apply health insurance concepts to a variety of challenging situations. Performance objectives include hands-on,

application-based learning activities in areas such as completing claim forms, posting payments to a patient's ledger, filling out Release to Return to Work forms, and filling out Medicare appeals. Chapter assessments test your knowledge of text content with multiple choice, true/false, short answer, fill-in-the-blank, and matching questions. Application exercises ask you to apply your knowledge and skills to real-world situations. Defining Chapter Terms help you review and understand key terms in each chapter. Problem solving/collaborative (group) activities emphasize the importance of teamwork in the health care field. In-class projects and discussion topics enhance your understanding of specific content from the text. Internet Exploration exercises in each chapter help you learn how to perform research online. **NEW!** Key coverage of new topics includes medical identity theft and prevention, National Quality Forum (NQF) patient safety measures, ACSX12 Version 5010 HIPAA transaction standards, EMS rule on mandatory electronic claims submission, and standards and implementation specifications for electronic health record technology. **UPDATED!** Additional ICD-10 coding content prepares you for the upcoming switch to the new coding system. **UPDATED!** Medicare chapter reflects updates and changes from the new presidential administration.

This basic legal guide contains the extensive information respiratory therapists need to know about the court system, lawyers, law, and litigation. Written by the author, a lawyer and therapist with 13 years of clinical experience ranging from floor therapy to administrative and management functions, this book combines the author's knowledge of the complex interactions in the legal system and how the legal system relates to therapy delivered at the bedside. A resource for students and professionals, the book presents 16 areas of the law, including medical negligence, hospital law and employment law. The text also contains a series of questions and answers about the subject areas of the law, and provides extensive guidance for therapists navigating the treacherous currents of ever changing laws. This is a book for anyone who treats respiratory therapy patients or manages therapists. Most legal texts are written either by non-

lawyers or non-therapists. Non-lawyers do not understand the complex interactions in the legal system, and are not permitted to give advice. Non-therapists may understand the law very well, but be unable to relate to how therapy is delivered at the bedside. This book is written by a therapist who is a lawyer, and who has been at the bedside. With thirteen years of clinical experience ranging from floor-therapy to administration and management functions, the author understands how a hospital works. The result is a book that is useful both as a course-book and as a reference.
