in a detailed manner how a governmental entity can implement the complex standards established by GASB-34 and beyond through a worksheet approach. (A companion publication, Governmental GAAP Guide, discusses financial accounting and reporting standards necessary to prepare the basic external financial statements of a governmental entity.) The emphasis of Governmental GAAP Practice Manual is on the process of preparing financial statements. Chapter 1 of the Governmental GAAP Practice Manual provides a detailed analysis of the interrelationship of the two bases of accounting and measurement focuses. Numerous transactions that governmental entities experience must first be recorded on the modified accrual basis and current financial resources focus (for presentation in the

Included in Chapter 1 is a comprehensive checklist of transactions and events that typically require a worksheet conversion entry. An understanding of these entries will provide a governmental accountant with a basis for analyzing unique and complex transactions and then converting their initial recording on the modified accrual basis to the accrual basis. Starting in Chapter 2 is a comprehensive illustration that continues through the remaining chapters of the product. For governmental funds, a variety of transactions are illustrated and journalized in Chapter 2 through Chapter 6, which result in a year-end trial balance for each individual

of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

Financial Strategy for Public Managers is a new generation textbook for financial management in the public sector. It offers a thorough, applied, and concise introduction to the

essential financial concepts and analytical tools that today's effective public servants need to know. It starts "at the beginning" and assumes no prior knowledge or experience in financial management. Throughout the text, Kioko and Marlowe emphasize how financial information can and should inform every aspect of public sector strategy, from routine procurement decisions to budget preparation to program design to major new policy initiatives. They draw upon dozens of real-world examples, cases, and applied problems to bring that relationship between information and strategy to life. Unlike other public financial management texts, the authors also integrate foundational principles across the government, non-profit, and "hybrid/for-benefit" sectors. Coverage

FINANCIAL STATEMENT FRAUD Strategies for Detection and Investigation Although financial statement fraud is the least frequently encountered fraud, it is by far the most costly, at a median loss of \$1 million per case. Yet, the indirect losses from financial statement fraud—jobs, support, morale, and loyalty—are also significant and almost impossible to measure. Learn how to spot the warning signs before the damage is done. Financial

Statement Fraud explores the many different methods of perpetrating financial statement fraud, the accounting principles that are exploited, and the methods to detect and prevent fraud in any organization. Assuming an understanding of basic financial statements and the purpose each serves, as well as basic accounting concepts, author Gerard Zack highlights the many different types of fraud schemes. Financial Statement Fraud provides auditors, fraud investigators, government agencies, and investment analysts with detailed descriptions of the most common or emerging schemes involving the preparation and issuance of fraudulent financial statements. Filling the need for practical guidance on financial statement fraud and the roles and responsibilities within companies,

strategy by starting with a discussion of real financial statements first, rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates accountants by grounding the discussion in the real world, showing them the relevance of the topics covered to their careers.
