first, rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates accountants by grounding the discussion in the real world, showing

Financial Strategy for Public Managers is a new generation textbook for financial management in the public sector. It offers a thorough, applied, and

Download Ebook Chapter 13 Financial Statement Analysis Notes

concise introduction to the essential financial concepts and analytical tools that today's effective public servants need to know. It starts "at the beginning" and assumes no prior knowledge

or experience in financial management. Throughout the text, Kioko and Marlowe emphasize how financial information can and should inform every aspect of public sector strategy, from routine

procurement decisions to budget preparation to program design to major new policy initiatives. They draw upon dozens of real-world examples, cases, and applied problems to bring

that relationship between information and strategy to life. Unlike other public financial management texts, the authors also integrate foundational principles across the government, non-

profit, and "hybrid/for-benefit" sectors. Coverage includes basic principles of accounting and financial reporting, preparing and analyzing financial statements, cost analysis,

and the process and politics of budget preparation. The text also includes several large case studies appropriate for class discussion and/or graded assignments.

CCH's Governmental GAAP Practice Manual demonstrates in a detailed manner how a governmental entity can implement the

Notes

complex standards established by GASB-34 and beyond through a worksheet approach. (A companion publication, Governmental GAAP Guide, discusses financial accounting and

Download Ebook Chapter 13 Financial Statement Analysis Notes

reporting standards necessary to prepare the basic external financial statements of a governmental entity.) The emphasis of Governmental GAAP Practice Manual is on

Download Ebook Chapter 13 Financial Statement Analysis Notes

the process of preparing financial statements.

Chapter 1 of the Governmental GAAP Practice Manual provides a detailed analysis of the interrelationship of the two

Download Ebook Chapter 13 Financial Statement Analysis Notes

bases of accounting and measurement focuses.

Numerous transactions that governmental entities experience must first be recorded on the modified accrual basis and current

Download Ebook Chapter 13 Financial Statement Analysis Notes

financial resources focus (for presentation in the governmental fund financial statements) and then converted to the accrual basis and economic resources focus (for

Download Ebook Chapter 13 Financial Statement Analysis Notes

presentation in the government-wide financial statements). Included in Chapter 1 is a comprehensive checklist of transactions and events that typically require a worksheet

Download Ebook Chapter 13 Financial Statement Analysis Notes

conversion entry. An understanding of these entries will provide a governmental accountant with a basis for analyzing unique and complex transactions and then

Download Ebook Chapter 13 Financial Statement Analysis Notes

converting their initial recording on the modified accrual basis to the accrual basis. Starting in Chapter 2 is a comprehensive illustration that continues through the remaining chapters of the

Download Ebook Chapter 13 Financial Statement Analysis Notes

product. For governmental funds, a variety of transactions are illustrated and journalized in Chapter 2 through Chapter 6, which result in a year-end trial balance for each individual

Download Ebook Chapter 13 Financial Statement Analysis Notes

fund based on the modified accrual basis of accounting and current financial resources measurement focus. In Chapter 14 these trial balances are used as the basis for developing the

Download Ebook Chapter 13 Financial Statement Analysis Notes

information needed to prepare the fund financial statements. Chapter 16 illustrates the reconciliation for converting the information related to governmental funds

Download Ebook Chapter 13 Financial Statement Analysis Notes

(modified accrual basis and current financial resources focus) to information that is needed for the governmental activities column of the government-wide financial statements (accrual basis

Download Ebook Chapter 13 Financial Statement Analysis Notes

and economic resources focus). A similar approach is used for proprietary funds (Chapter 7 and Chapter 8) and fiduciary funds (Chapter 9 through Chapter 13):
Illustrative entries are

Download Ebook Chapter 13 Financial Statement Analysis Notes

developed for each of the funds, and the resulting trial balances become the basis for preparing fund financial statements (Chapter 13) and the business-type activities column of the government-

Download Ebook Chapter 13 Financial Statement Analysis Notes

wide financial statements (Chapter 14). However, because proprietary fund financial statements and the business-type activities column in the government-wide financial statements

Download Ebook Chapter 13 Financial Statement Analysis Notes

are presented on the same basis of accounting and measurement focus (accrual basis and economic resources focus), generally a conversion is not necessary for these funds and

Download Ebook Chapter 13 Financial Statement Analysis Notes

activities. In addition, because fiduciary funds are not presented in the government-wide financial statements, a conversion is not needed. In Chapter 16 the basic financial

Download Ebook Chapter 13 Financial Statement Analysis Notes

statements (including the fund financial statements and government-wide statements) are prepared based on the information developed in Chapter 13 and Chapter 14. Chapter 17

Download Ebook Chapter 13 Financial Statement Analysis Notes

provides a summarized discussion of note disclosure concepts and a listing of the required note disclosures applicable to state and local government financial statements. For a detailed

Download Ebook Chapter 13 Financial Statement Analysis Notes

discussion, use of the Governmental GAAP Disclosures Manual is preferred. Chapter 18 discusses and develops information related to management's discussion

and analysis and other required supplementary information. Chapter 19 illustrates combining financial statements that are presented as part of supplementary information

included in a governmental entity's Comprehensive Annual Financial Report. Chapter 20 provides the preparers of financial statements with an in-depth review of the statistical
