#1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University “Extraordinary . . . an act of courage and self-invention.”—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA'S FAVORITE BOOKS OF THE YEAR • BILL GATES'S HOLIDAY READING LIST • FINALIST: National Book Critics Circle's Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara's older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she'd traveled too far, if there was still a way home. “Beautiful and propulsive . . . Study guide and review for Advanced Placement United States History for the student serious about doing well in the course. It serves as a great resource either while going through the course, or at the end of the course as a review before the AP exam. This book is directly aligned with "American Pageant" (15th Edition) so the student will do as well as possible during the course. Included are detailed outlines. The outlines link directly to each chapter and to each chapter's sub-sections, thus making it great for a student taking U.S. History and using Bailey and Kennedy's "American Pageant" as his or her main text and who strives to excel in the course. Note: this is the ebook/epub/ipad version. No other radical historian has reached so many hearts and minds as Howard Zinn. It is rare that a historian of the Left has managed to retain as much credibility while refusing to let his academic mantle change his beautiful writing style from being anything but direct, forthright, and accessible. Whether his subject is war, race, politics, economic justice, or history itself, each of his works serves as a reminder that to embrace one's subjectivity can mean embracing one's humanity, that heart and mind can speak with one voice. Here, in six sections, is the historian's own choice of his shorter essays on some of the most critical problems facing America throughout its history, and today.

This is Volume I (chapters 1-15) of WE THE PEOPLE. Crafted from the ground up to be a "brief" U.S. History text (rather than a condensed version of a larger text), WE THE PEOPLE tells the story of America through five recurring, interwoven themes: (1) the role of interacting cultures in the development of the American nation; (2) the social/cultural environment's interaction with political forces; (3) the evolution of a national identity; (4) changing cultural values; and (5) individuals' attempts to impose order on physical space and chronological time. Frequent quotations from individuals at all levels of society make this text well-rounded in its presentation of social and cultural history. In addition, each chapter opens with a story that features a longer quotation that illuminates the topics, events, and themes explicated in that chapter. WE THE PEOPLE is available in the following split options: WE THE PEOPLE, Complete, First Edition (Chapters 1-30), ISBN: 0534593550; WE THE PEOPLE, Volume I to 1877 (Chapters 1-15), ISBN: 0534593569; WE THE PEOPLE, Volume II, Since 1865 (Chapters 15-3), ISBN: 0534593577.

Major Problems in American History

Born a Crime

What was America? The question resounds today more than ever. While countless contemporary textbooks have sought to relate this country's history, most have done so in fragmented, diluted, or unapproachable ways. These two volumes break down all the barriers to a full understanding of America: it has just two authors, each with a strong point of view; it is told in pure narrative form, befitting its riveting story; and it is as low-cost a textbook as there has ever been. Unlike other open access textbooks, Building the Republic is authoritative and coherent. Throughout, Harry Watson and Jane Dailey emphasize the enduring and multifarious influence of religion, the evolution of law and legal norms, and the distinctive history and influence of the South. And they take a capacious view of the role of politics in US history, beyond simple "political history." These two volumes sweep the reader up in the inimitable history of a country forever remaking itself.

#1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong’o, Time), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.” —Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah’s unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man’s relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother’s unconditional love.

This current, comprehensive history of American education is designed to stimulate critical analysis and critical thinking by offering alternative interpretations of each historical period. In his signature straight-forward, concise style, Joel Spring provides a variety of interpretations of American schooling, from conservative to leftist, in order to spark the reader’s own critical thinking about history and schools. This tenth edition follows the history of American education from the seventeenth century to the integration into global capitalism of the twenty-first

century to the tumultuous current political landscape. In particular, the updates focus on tracing the direct religious links between the colonial Puritans and the current-day Trump administration. Chapters 1 and 2 have been rewritten to take a closer look at religious traditions in American schools, leading up to the educational ideas of the current U.S. Secretary of Education Betsy DeVos. An updated Chapter 15 further links traditional religious fundamentalist ideas and the twentieth century free market arguments of the Chicago school of economists to President Trump's administration and the influence of the Alt-Right.

Nothing But Freedom examines the aftermath of emancipation in the South and the restructuring of society by which the former slaves gained, beyond their freedom, a new relation to the land they worked on, to the men they worked for, and to the government they lived under. Taking a comparative approach, Eric Foner examines Reconstruction in the southern states against the experience of Haiti, where a violent slave revolt was followed by the establishment of an undemocratic government and the imposition of a system of forced labor; the British Caribbean, where the colonial government oversaw an orderly transition from slavery to the creation of an almost totally dependent work force; and early twentieth-century southern and eastern Africa, where a self-sufficient peasantry was dispossessed in order to create a dependent black work force. Measuring the progress of freedmen in the post-Civil War South against that of freedmen in other recently emancipated societies, Foner reveals Reconstruction to have been, despite its failings, a unique and dramatic experiment in interracial democracy in the aftermath of slavery. Steven Hahn's timely new foreword places Foner's analysis in the context of recent scholarship and assesses its enduring impact in the twenty-first century.

A longtime professor of Ethnic Studies at the University of California at Berkeley, Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of *A Different Mirror* was published in 1993, *Publishers Weekly* called it "a brilliant revisionist history of America that is likely to become a classic of multicultural studies" and named it one of the ten best books of the year. Now Rebecca Stefoff, who adapted Howard Zinn's best-selling *A People's History of the United States* for younger readers, turns the updated 2008 edition of Takaki's multicultural masterwork into *A Different Mirror for Young People*. Drawing on Takaki's vast array of primary sources, and staying true to his own words whenever possible, *A Different Mirror for Young People* brings ethnic history alive through the words of people, including teenagers, who recorded their experiences in letters, diaries, and poems. Like Zinn's *A People's History*, Takaki's *A Different Mirror* offers a rich and rewarding "people's view" perspective on the American story.

Published by OpenStax College, *U.S. History* covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. *U.S. History* is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Vol 2 opens as America struggles to regain its footing, reeling from a presidential assassination and facing massive economic growth, rapid demographic change, and combusive politics.

AMERICAN PASSAGES COMPACT ADVANTAGE VERSION, SECOND EDITION examines U.S. history the way people live--in the flow of time. Rather than pursuing one topic (such as politics, culture, society, reform, the military, or economics) at a time, each chapter of the text interweaves important themes and issues into one interrelated narrative. Through this method of presentation, students can observe the many ways that events, movements, and groups of people have served to shape history and can learn to make connections between these themes and issues. For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. **A Patriot's History of the United States** corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

President Franklin Roosevelt told Americans in a 1936 fireside chat, "I do not look upon these United States as a finished product. We are still in the making." These United States builds on this foundation to present a readable, accessible history of the United States throughout the twentieth century—an ongoing and inspiring story of great leaders and everyday citizens marching, fighting, voting, and legislating to make the nation's promise of democracy a reality for all Americans. In the college edition of **These United States**, Gilmore and Sugrue seamlessly weave insightful analysis with all of the support tools needed by students and instructors alike, including paired primary source documents, review questions, key terms, maps, and figures in a dynamic four-color design.

Crafted from the ground up to be a "brief" U.S. History text (rather than a condensed version of a larger text), WE THE PEOPLE tells the story of America through five recurring, interwoven themes: (1) the role of interacting cultures in the development of the American nation; (2) the social/cultural environment's interaction with political forces; (3) the evolution of a national identity; (4) changing cultural values; and (5) individuals' attempts to impose order on physical place and chronological time. Frequent quotations from individuals at all levels of society make this text well-rounded in its presentation of social and cultural history. In addition, each chapter opens with a story that features a longer quotation that illuminates the topics, events, and themes explicated in that chapter. WE THE PEOPLE is available in the following split options: WE THE PEOPLE, Complete, First Edition (Chapters 1-30), ISBN: 0534593550; WE THE PEOPLE, Volume I to 1877 (Chapters 1-15), ISBN: 0534593569; WE THE PEOPLE, Volume II, Since 1865 (Chapters 15-30), ISBN: 0534593577.

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," Leaves of Grass The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.
