### Chapter 18 Section 3 Guided Reading The Cold War Comes Home Answers

Are chronic diseases such as diabetes, cardiovascular problems, and joint pains troubling you? Are anxiety, depression, and anger and other such emotions bringing you and your performance down? Are you constantly on medications for digestion and respiratory issues? If you answer "yes" to any of the above questions, you are probably suffering from an imbalance of energy in your subtle, non-physical body. So, what is the subtle body? In many spiritual traditions, the subtle body is the sacred

or the immortal body. It never dies and when the physical body dies, your subtle body merges into the universe. It comprises of the intelligence, mind and ego, aspects that control the human physical body. The terms "aura" and "chakras" refer to parts of your subtle plane of existence. These are usually seen by the mind's eye and not your physical eyes. Disturbances in your auric field or imbalances in the flow of energy through the chakras manifests as physical, mental, and emotional disorders in the physical world. Mostly, when people fail to heal their physical bodies with modern medicine, the only solution is to turn towards healing the non-physical subtle body. Just by working on balancing your chakras

*The use of data in society has seen an exponential growth in recent years. Data science, the field of research concerned with understanding and analyzing data, aims to find ways to operationalize data so that it can be beneficially used in society, for example in health applications, urban governance or smart household devices. The legal questions that accompany the rise of new, data-driven technologies however are underexplored. This book is the first volume that seeks to map the legal*

*implications of the emergence of data science. It discusses the possibilities and limitations imposed by the current legal framework, considers whether regulation is needed to respond to problems raised by data science, and which ethical problems occur in relation to the use of data. It also considers the emergence of Data Science and Law as a new legal discipline.*
