organized into five sections. The first three sections provide a theoretical framework for application in section 4, the program design portion of the book. The final

Download Free Chapter 18

Section 4 Guided Reading

Review

section offers practical strategies for administration and management of strength and conditioning facilities. Section 1 (chapters 1 through 10) presents key

Download Free Chapter 18

Section 4 Guided Reading

Review

topics and current research in exercise physiology, biochemistry, anatomy, biomechanics, endocrinology, sport nutrition, and sport psychology and discusses

Download Free Chapter 18 Section 4 Guided Reading Review

applications for the design of safe and effective strength and conditioning programs. Section 2 (chapters 11 and 12) discusses testing and evaluation, including the

Download Free Chapter 18 Section 4 Guided Reading Review

principles of test selection and administration as well as the scoring and interpretation of results. Section 3 (chapters 13 and 14) provides techniques

teaching of stretching and resistance training exercises. This section also includes a set of eight new dynamic stretching exercises. Section 4 examines the

Download Free Chapter 18

Section 4 Guided Reading

Review

design of strength training and conditioning programs. The information is divided into three parts: anaerobic exercise prescription (chapters 15 through 17), aerobic

Download Free Chapter 18 Section 4 Guided Reading Review

endurance exercise prescription (chapter 18), and periodization and rehabilitation (chapters 19 and 20). Step-by-step guidelines for designing resistance, plyometric,
