A Comprehensive Verse-by-Verse Exploration of the Bible

The Story group Bible study provides groups of all sizes the opportunity to discuss and apply what they experience during the 31-week The Story church campaign. To understand the Bible, says Frazee, you need bifocal lenses, because two perspectives are involved. The Lower Story, our story, is actually many stories of men and women interacting with God in the daily course of life. The Upper Story is God's story, the tale of his great, overarching purpose that puts the individual stories together like panels in one unified mural. In 31 sessions, The Story video-based group study opens your eyes to God's master plan unfolding in the lives of the Bible's characters and in your own life. Discover the heart of God's Upper Story, and the joy that comes as you align your story with God's. The Story Study Guide and DVD (sold separately) are designed for use by groups of all sizes, including small groups and Sunday school and adult education classes. This is a comprehensive guide for the care of pediatric tracheotomies prepared by a parent who has lived with the anxiety and frustrations that are a part of the everyday experience of those charged with the care of these children. The tremendous social impact such a child makes on the entire family is formidable. Pediatricians encourage parent participation and home care for all children capable of living at home. The most disabled child can be maintained at home and even attend school with the proper medical, nursing and social supports. The author has written in layman's language with simple graphic illustrations for ease of comprehension. The book should enable any parent who wants to bring a child back home again to be able to do so with the expert advice of the child's doctor and home care program.

Joe is a business unit leader faced with the ultimate challenge of change as his company enters a merger. The global culture and gaps in Joe's leadership style threaten the health of the organization and possibly the success of the merger. Will Joe and his team be able to embrace the behaviors necessary to survive the merger and achieve their goals? How will shifts in the overall culture have an impact on Joe's effectiveness as a leader? Paige Whitmire's parable describes common behaviors and characteristics individuals often demonstrate during times of change. The story shows the necessity of strong leadership during times of intense change. The simple yet highly effective TLC model provides a method for skill development that can be used in any personal or professional setting influenced by change small or large.

It fills a void that exists in learning resources currently available to pediatric critical care practitioners. The major textbooks are excellent references, but do not allow concise reading on specific topics and are not intended to act as both text and study guide. There are also several handbooks available, but these are usually written for general pediatric residents and lack the advanced physiology and pathophysiology required for the higher level pediatric critical care practitioner
