

Sims' Symptoms in the Mind: Textbook of Descriptive Psychopathology E-Book

Fully updated to include recent advances in the field, Sleisenger and Fordtran's Gastrointestinal and Liver Disease Review and Assessment, 11th Edition, prepares you for certification and recertification exams using an effective question-and-answer format that follows the ABIM blueprint. Every question reflects current standards of practice and simulates what you're likely to see on the exam. Use this review tool as a stand-alone resource, or combine it with the Sleisenger and Fordtran's Gastrointestinal and Liver Disease text for further information and study. Contains more than 1,000 board-style (vignette) questions that mimic the ABIM blueprint for the gastroenterology boards, including detailed rationales for each question. Questions are designed to test your medical knowledge, clinical reasoning, interpretation, and problem solving skills. Includes updated coverage of hepatitis B and C, Barrett's esophagus, colorectal cancer, and enteric microbiota and probiotics. Provides visual support with full-color images throughout, as well as helpful videos online. Features access to an online test component that offers both untimed study mode and timed assessment mode, with detailed answers for a complete interactive experience.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Suicide is an event that cannot be ignored, minimized, or left untreated. However, all too often mental health professionals and health care practitioners are unprepared to treat suicidal clients. This text offers the latest guidance to frontline professionals who will likely encounter such clients throughout their careers, and to educators teaching future clinicians. The book discusses how to react when clients reveal suicidal thoughts; the components of comprehensive suicide assessments; evidence-based treatments such as crisis intervention, cognitive behavior therapy, dialectical behavior therapy, and more; and ethical and legal issues that may arise. Case studies, exercises, quizzes, and other features make this a must-have reference for graduate level courses. Key topics: Risk and identification of suicidal behaviors across the lifespan (children, adolescents, adults, and the elderly) The links between suicidality and mental illness (psychotic disorders, mood disorders, and substance abuse) Suicide risk among special populations (military personnel, LGBTQ individuals, the homeless, and more) A model for crisis intervention with suicidal individuals

Concise, career focused, and completely up to date, the exciting new CRIMINAL JUSTICE IN ACTION: THE CORE, 8th Edition, delivers an accessible, applied, and real-world introduction to the field. Master the patient assessment skills you need to provide effective respiratory therapy! Wilkins' Clinical Assessment in Respiratory Care, 7th Edition prepares you to assist physicians as they make treatment decisions, evaluate the effectiveness of treatment, and determine if changes in the treatment need to be made. This edition expands coverage of infection control and cardiopulmonary symptoms, and follows a more logical progression through the many aspects of assessment. Written by Dr. Albert Heuer and Dr. Craig Scanlan, this comprehensive resource also helps you prepare for the NBRC CRT and RRT credentialing exams by cross-referencing material within the book to the NBRC exam matrices. A comprehensive approach covers all of the most important aspects of assessment, so you can assess patients effectively. Case studies offer real-life clinical scenarios challenging you to interpret data and make accurate patient assessments. Assessment questions help you review by reflecting the learning objectives and the NBRC Exam format, with answers including rationales for correct answer options. Ask Yourself boxes list questions that you should ask patients (e.g., coughing, sputum, shortness of breath) or ask yourself (e.g., lung sounds you are hearing, blood pressure, respiratory rate). Simply Stated boxes highlight and promote understanding of important concepts. Learning objectives, chapter outlines, chapter overviews, and key terms lists begin each chapter, preparing you for the key topics and content you will learn. Key Point summaries at the end of each chapter emphasize the learning objectives and provide an overview of important material. NEW! Correlation of content to the NBRC combined CRT/RRT exam matrices is provided on the Evolve companion website, helping you prepare for these difficult exams by cross-referencing material within the book to the NBRC exam matrices for the CRT and RRT credentialing exams. NEW! Emphasis on infection control includes expanded content on topics such as the prevention and treatment of VAP (ventilator-associated pneumonia) and nosocomial infections in the hospital and home setting. NEW or expanded coverage includes cardiopulmonary symptoms, neurologic assessment, blood gas interpretation, and Electronic Medical Records (EMR). NEW! Expert authors Albert Heuer and Craig Scanlan are well-known, recognized educators in the field of respiratory therapy. NEW! List of common abbreviations on the inside front cover offers quick and easy access to abbreviations and acronyms used in the text and throughout the profession.
