the ways the book of Jeremiah has been interpreted by scholars, and to new possibilities of interpretation still open to readers. Outlining approaches the reader encountering the book may best adopt, Mary E. Mills moves into the reception of the prophetic book in the modern period. The role of historical criticism has been fundamental but she shows how it should be supplemented by recent explorations into the rhetorical structures and devices by which the book communicates its messages. Historically oriented scholars drew upon the book as a record of the words and career of a prophet in monarchical Judah. Literary investigation, on the other hand, focuses on the mood and tone of the literary work. Both interpretative strands acknowledge the persistence of a mood of terror and fragmentation within Jeremiah, the result of its origins in a period of great political upheaval. Examination of the poetic devices a society uses to process its social and cultural trauma leads the reader to a deeper appreciation of the variety of sources and genres found in Jeremiah. This study guide provides reading tools which readers can then develop at their own pace.

Sometimes the voices that speak most clearly in the present are those that echo from the past. So it is in this Christian classic by the late pastor and evangelist A. W. Tozer. In *The Pursuit of God*, Tozer brings the mystics to bear on modern spirituality, grieving the hustle and bustle and calling for a slow, steady gaze upon God. With prophetic vigor and flowing prose, he urges us to replace low thoughts of God with lofty ones, to quiet our lives so we can know God ' s presence. He reminds us that life apart from God is really no life at all. Tozer's bestseller, this book has been called "one of the all-time most inspirational books" by a panel of

Good police officers are often promoted into supervisory positions with little or no training for what makes a good manager. Effective Police Supervision provides readers with an understanding of the group behaviors and organizational dynamics necessary to understand the fundamentals of police administration. The Effective Police Supervision Study Guide, which includes quizzes and other study tools, gives students, as well as professionals training for promotional exams, a way to review the material and be fully prepared for examinations and the world of police supervision. This new edition, like the new edition of the textbook it accompanies, includes information on the following topics: police accountability, police involvement with news media, dealing with social media, updates on legal considerations, and avoiding scandals.

Sze-kar Wan examines the social and political ramifications of Paul's last and longest letter. By taking seriously Paul's faithfulness to his ancestral tradition, Wan argues that Paul is engaged in ethnic construction by incorporating non-Jews into Ideal Israel. With its claim of universality and the cosmic Son of God installed as king, Ideal Israel stands in pointed opposition to the Roman Empire. Wan presents the Letter to the Romans as Paul's extended argument to his Gentile audience in defence of Ideal Israel and their place in it, without ignoring such prominent themes as good news, faith and belief, eschatology, and the collection for the

poor. By also including a reading of Romans 13 as resistance against absolute authority, at variance with historical interpretations that defended American slavery and German Nazism, Wan gives readers a new perspective on a defiant message that can be marshalled to resist oppressive regimes.
