

Chapter13 Primary Source Political Cartoon

Baby Lit is a fashionable way to introduce your toddler to the world of classic literature. With clever, simple text by Jennifer Adams, paired with stylish design and illustrations by Sugars Alison Oliver, these books are a must for every savvy parents nursery library.

The terms "coexistence," "partnership," "citizenship" and "globalization" all have a profound impact on today's decision makers and their policy formation, as well as on individuals. While these terms have been widely used all over the world, particularly in the West, in the construction of identity, they have been considered unworthy of a detailed analysis in the context of Muslim identity. Some scholars argue that Muslim-Christian relations are caught between advocates of homogenization, on the one hand, and supporters of self-affirmation on the other. While the former concept favours relativism, the latter is seen to encourage fanaticism. In addition, such scholars claim that the tension between Muslims and Christians is due to a complex history of rivalry and war, which has led to the issue of Muslims' positive coexistence being elucidated from historical and sociological points of view. Given the paucity of literature regarding a faith-based study of Muslim coexistence, this book elaborates on the theological aspect of Muslims' coexistence in non-Muslim lands, and raises a number of theological questions, arguments and counter-arguments pertinent to this issue. Is it permissible for Muslims to live in a non-Muslim country? Is it permissible for Muslims to acquire non-Muslim citizenship? What are the obstacles? How do Muslims perceive civic duties in non-Muslim countries? Are Muslims obliged to fulfil them? The book presents a number of scholarly discussions from past and contemporary sources, as well as international human rights treaties, which stress the significance of the much-overlooked factor of context.

Since its original landmark publication in 1980, A People's History of the United States has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, A People's History is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, A People's History of the United States, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new after, word by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755 – 1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

USAs historie indtil 1996

In August 1941 Churchill and Roosevelt met in a secluded bay off the coast of Newfoundland. It was the first of their wartime meetings and in many respects the most significant. The Atlantic Charter, its result, proclaimed the two leaders' vision of a new world order, a set of principles that would govern international relations with the coming of peace. This remarkable collection of essays is the result of an international conference of American, British, and Canadian scholars held at Memorial University of Newfoundland that marked the 50th anniversary of the historic meeting. The essays discuss both the Charter's formulation and its long-term significance, and provide fascinating perspectives on the Second World War and its aftermath.

In the history of electronic communication, the last quarter of the nineteenth century holds a special place, for it was during this period that the telephone, phonograph, electric light, wireless, and cinema were all invented. In When Old Technologies Were New, Carolyn Marvin explores how two of these new inventions--the telephone and the electric light--were publicly envisioned at the end of the nineteenth century, as seen in specialized engineering journals and popular media. Marvin pays particular attention to the telephone, describing how it disrupted established social relations, unsettling customary ways of dividing the private person and family from the more public setting of the community. On the lighter side, she describes how people spoke louder when calling long distance, and how they worried about catching contagious diseases over the phone. A particularly powerful chapter deals with telephonic precursors of radio broadcasting--the "Telephone Herald" in New York and the "Telefon Hirmondo" of wide-ranging, informative, and entertaining account of the early years of electronic media.

Principles of Comparative Politics offers the most comprehensive and up-to-date introduction to comparative inquiry, research, and scholarship. In this thoroughly revised Third Edition, students now have an even better guide to cross-national comparison and why it matters. The new edition retains a focus on the enduring questions with which scholars grapple, the issues about which consensus has started to emerge, and the tools comparativists use to get at the complex problems in the field. Among other things, the updates to this edition include a thoroughly-revised chapter on dictatorships that incorporates a discussion of the two fundamental problems of authoritarian rule: authoritarian power-sharing and authoritarian control; a revised chapter on culture and democracy that includes a more extensive examination of cultural modernization theory and a new overview of survey methods for addressing sensitive topics; a new section on issues related to electoral integrity; an expanded assessment of different forms of representation; and a new intuitive take on statistical analyses that provides a clearer explanation of how to interpret regression results. Examples from the gender and politics literature have been incorporated into various chapters, the Problems sections at the end of each chapter have been expanded, a nd the empirical examples and data on various types of institutions have been updated. Online videos and tutorials are available to address some of the more methodological components discussed in the book. The authors have thoughtfully streamlined chapters to better focus attention on key topics.

Social studies teachers will find classroom-tested lessons and strategies that can be easily implemented in the classroom The Teacher's Toolbox series is an innovative, research-based resource providing teachers with instructional strategies for students of all levels and abilities. Each book in the collection focuses on a specific content area and integrate low-prep, high-value lessons and strategies in their middle school and high school classrooms. Every strategy follows a practical, how-to format established by the series editors. The Social Studies Teacher's Toolbox contains hundreds of student-friendly classroom lessons and teaching strategies. Clear and concise chapters, fully National Council for the Social Studies standards, cover the underlying research, technology based options, practical classroom use, and modification of each high-value lesson and strategy. This book employs a hands-on approach to help educators quickly learn and apply proven methods and techniques in their social studies courses. Topic tools for analysis, to conducting formative and summative assessments, differentiating instruction, motivating students, incorporating social and emotional learning and culturally responsive teaching. Easy-to-read content shows how and why social studies should be taught and how to make connections across history, geography, political preparation time and increase relevance, student engagement, and comprehension, this book: Explains the usefulness, application, and potential drawbacks of each instructional strategy Provides fresh activities applicable to all classrooms Helps social studies teachers work with ELLs, advanced students, and students with learning differences events while covering standards and working with textbooks The Social Studies Teacher's Toolbox is an invaluable source of real-world lessons, strategies, and techniques for general education teachers and social studies specialists, as well as resource specialists/special education teachers, elementary and secondary educators, and teachers GLOBAL AMERICANS speaks to an increasingly diverse population of students who seek to understand the place of the United States in a shifting global, social, cultural, and political landscape. America's national experience and collective history have always been subject to transnational forces and affected by global events and conditions. I presents a history of North America and then the United States in which world events and processes are central rather than colorful sideights. The narrative recovers the global aspects of America's past and helps students understand the origins of the interconnected world in which they live. By weaving together stories, analysis, interp time and place, this book presents a revised history that reflects America's -- and Americans' -- relationship to events and peoples across the continent and beyond. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

INTRODUCTIONRepresenting Congress presents a selection of politicalcartoons by Clifford K. Berryman to engage studentsin a discussion of what Congress is, how it works,and what it does. It features the masterful work of one ofAmerica's preeminent political cartoonists and showcases hisability to use portraits, representative symbols a provokingsights into the institutions and issues of civic life. The Houseof Representatives and Senate take center stage as nationaelected officials work to realize the ideals of the Founders.This eBook is designed to teach students to analyze history as conveyed in visual media.The cartoons offer comments about various moments in hist perspective and objectivity. Viewed outside their original journalisticcontext, the cartoons engage and amuse as comic art, but they can also puzzlea reader with references to little-remembered events and people. This eBook providescontextual information on each cartoon to help dispel the historical mysteries.Berryman's cartoons were of theWashington Post and the Washington Evening Star at various dates spanning the years from 1896to 1949. Thirty-nine cartoons selected from the more than 2,400 original Berryman drawingspreserved at the Center for Legislative Archives convey thumbnail sketches of Congress inaction to reveal some of the enduring features of our years. Berryman's cartoons engaged readers of Washington's newspapers,illustrating everyday political events as they related to larger issues of civic life.These cartoons promise to engage students in similar ways today. The cartoons intrigueand inform, puzzle and inspire. Like Congress itself, Berryman's cartoons seem familiarat first glance in the depth of analysis and discussion. Using these cartoons, students engage in fun and substantialchallenges to unlock each cartoon's meaning and better understand Congress. As theydo so, students will develop the critical thinking skills so important to academic successand the future health and longevity of our democratic republic.2 BOB IN IS ORGANIZATION by Clifford K. Berrymanorganized in six chapters that illustrate how Congress works.Each page features one cartoon accompanied by links toadditional information and questions.TEACHING WITH THIS BOOKRepresenting Congress is designed to teach students aboutCongress-Its history the analysis of political cartoons. Students will study these cartoons in three stages: 1. Analyze each cartoon using the NARA Cartoon Analysis Worksheet* 2. Analyze several cartoons to discuss how art illustrates civic life using Worksheet* 3. Analyze each cartoon in its historic context using Worksheet 3 (optional)Directions:1. Divide the class into more cartoonists in the chapter "Congress and the Constitution."2. Instruct each group to complete Worksheet 1: Analyzing Cartoons. Direct each group to share their analysis with the whole-class.3. Instruct each group to complete Worksheet 2: Discussing Cartoons. Students shouldapply the questions to all of the cartoons in the chapter.4. Discussion of the chapter 4. Repeat the above steps with each succeeding chapter 5. Direct each group to share what they have learned in the preceding activities in awhole-class discussion of Congress and the Constitution.6. Optional Activity: Assign each group to read the Historical Context Informationstatement for their cartoon. The s This revision of Bloom's taxonomy is designed to help teachers understand and implement standards-based curriculums. Cognitive psychologists, curriculum specialists, teacher educators, and researchers have developed a two-dimensional framework, focusing on knowledge and cognitive processes. In combination, these two define what the curriculum from three unique perspectives-cognitive psychologists (learning emphasis), curriculum specialists and teacher educators (C & I emphasis), and measurement and assessment experts (assessment emphasis). This revisited framework allows you to connect learning in all areas of curriculum. Educators, or others interested in edu

Thomas Nast was a political cartoonist whose pencil was mightier than any sword. His work was so popular that it helped shape much of the political policy of the 1860s and 1870s. This biography, originally published in 1904, serves up his life as well as the times in which he practiced his art.

This award-winning bestseller now includes an expanded introduction addressing the Common Core State Standards This practical book shows middle and high school teachers how to apply Wineburg's highly acclaimed approach to teaching, Reading Like a Historian, to increase academic literacy and sparking students' curiosity. Each chapter begins with an introductory essay that sets the stage of a key moment in American history, beginning with exploration and colonization and the events at Jamestown and ending with the Cuban Missile Crisis. Primary documents, charts, graphic organizers, visual images, and political cartoons follow each essay, as well as guidance for assessing students' understanding of core historical ideas.

A modern-day classic. This highly acclaimed adventure series about two friends desperate to save their doomed city has captivated kids and teachers alike for almost fifteen years and has sold over 3.5 MILLION copies! The city of Ember was built as a last refuge for the human race. Two hundred years later, the great lamps that light the city are beginning to flicker. When Lina finds part of an ancient message, she's sure it holds a secret that will save the city. She and her friend Doon must race to figure out the clues before the lights go out on Ember forever! Nominated to 29 State Award Lists! Katz that was originally published in the October 2000 issue of "The Library of Congress Information Bulletin." The U.S. Library of Congress, based in Washington, D.C., presents the article online. Katz provides a biographical sketch of the American political cartoonist and journalist Herbert Block (1909-2001), who was known as Herblock. Block worked as a cartoonist for "The Washington Post" for more than 50 years, and his cartoons were syndicated throughout the United States. Katz highlights an exhibition of Block's cartoons, that was on display at the U.S. Library of Congress from October 2000. Images of selected cartoons by Block are available online.

The History and Future of the World Trade Organization is a comprehensive account of the economic, political and legal issues surrounding the creation of the WTO and its evolution. Fully illustrated with colour and black-and-white photos dating back to the early days of trade negotiations, the publication reviews the WTO's achievements as well as the challenges faced by the organisation, and identifies the key questions that WTO members need to address in the future. The book describes the intellectual roots of the trading system, membership of the WTO and the growth of the Geneva trade community, trade negotiations and the development of coalitions among the membership, and the WTO's relations with other international organisations and civil society. Also covered are the organisation's robust dispute settlement rules, the launch and evolution of the Doha Round, the rise of regional trade agreements, and the leadership and management of the WTO.

Exploring American Histories opens an entirely new window into the many histories of the nation's past. It integrates an unprecedented number of primary sources—both written and visual—in a unique building blocks approach that enables students to hone their analysis skills while they actively learn the fundamental concepts of American history. By weaving sources into the story and culminating in multidocument projects around a single topic at the end of each chapter, the book brings the history to life while helping students understand how sources form the basis of historical narratives and how to think critically about them.

Sources in Chinese History, now in its second edition, has been updated to include re-translations of over a third of the documents. It also incorporates nearly 40 new sources that work to familiarize readers with the key events, personages, and themes of modern China. Organized thematically, the volume examines China's complex history from the rise of the Qing dynasty in the mid-seventeenth century through the formation of the People's Republic of China up to the present. Each chapter begins with an annotated visual source followed by a chapter introduction and analysis of textual sources, allowing students to explore different types of sources and topics. Sources in Chinese History contextualizes the issues, trends, and challenges of each particular period. Special attention has been made to incorporate a variety of viewpoints which challenge standard accounts. Non-traditional documents, such as movie dialogues, are also included which aim to encourage students to reconsider historical events and trends in Chinese history. This volume includes a variety of sources, such as maps, posters, film scripts, memorials, and political cartoons and advertisements, that make this book the perfect introductory aid for students of Chinese history, politics, and culture, as well as Chinese studies after 1600.

The passage of Citizens United by the Supreme Court in 2010 sparked a renewed debate about campaign spending by large political action committees, or Super PACs. Its ruling said that it is okay for corporations and labor unions to spend as much as they want in advertising and other methods to convince people to vote for or against a candidate. This book provides a wide range of opinions on the issue. Includes primary and secondary sources from a variety of perspectives-eye-witnesses, scientific journals, government officials, and many others.

Implications for U.S. National Security

A New York Times bestseller, this is the 'outstanding' (The Atlantic), insightful, and authoritative account of Dwight Eisenhower's presidency. Drawing on newly declassified documents and thousands of pages of unpublished material, The Age of Eisenhower tells the story of a masterful president guiding the nation through the great crises of the 1950s, from McCarthyism and the Korean War through civil rights turmoil and Cold War conflicts. This is a portrait of a skilled leader who, despite his conservative inclinations, found a middle path through the bitter partisanship of his era. At home, Eisenhower affirmed the central elements of the New Deal, such as Social Security; fought the demagoguery of Senator Joseph McCarthy; and advanced the agenda of civil rights for African-Americans. Abroad, he ended the Korean War and avoided a new quagmire in Vietnam. Yet he also charted a significant expansion of America's missile technology and deployed a vast array of covert operations around the world to confront the challenge of communism. As he left office, he cautioned Americans to remain alert to the dangers of a powerful military-industrial complex that could threaten their liberties. Today, presidential historians rank Eisenhower fifth on the list of great presidents, and The Wall Street Journal shows us why Ike's stock has risen so high. He was a gifted leader, a decent man of humble origins who used his powers to advance the welfare of all Americans. Now more than ever, with this 'complete and persuasive assessment' (Booklist, starred review), Americans have much to learn from Dwight Eisenhower.

In the tradition of Schulz and Peanuts, an epic and revelatory biography of Krazy Kat creator George Herriman that explores the turbulent time and place from which he emerged—and the deep secret he explored through his art. The creator of the greatest comic strip in history finally gets his due—in an eye-opening biography that lays bare the truth about his art, his heritage, and his life on America's color line. A native of nineteenth-century New Orleans, George Herriman came of age as an illustrator, journalist, and cartoonist in the boomtown of Los Angeles and the wild metropolises of New York. Appearing in the biggest newspapers of the early twentieth century—including those owned by William Randolph Hearst—Herriman's Krazy Kat cartoons quickly propelled him to fame. Although fitfully popular with readers of the period, his work has been widely credited with elevating cartoons from daily amusements to anarchic art. Herriman used his work to explore the human condition, creating a modernist fantasia that was inspired by the landscapes he discovered in his travels—from chaotic urban life to the Bockett-like desert vistas of the Southwest. Yet underlying his own life—and often emerging from the contours of his very public art—was a very private secret known as "the Greek" for his swart by complexion and curly hair. Herriman was actually African American, born to a prominent Creole family that hid his racial identity in the dangerous days of Reconstruction. Drawing on exhaustive original research into Herriman's family history, interviews with surviving friends and family, and deep analysis of the artist's work and surviving written records, Michael Tisserand brings this little-understood figure to vivid life, paying homage to a visionary artist who helped shape modern culture.

Huey Long (1893-1935) was one of the most extraordinary American politicians, simultaneously cursed as a dictator and applauded as a benefactor of the masses. A product of the poor north Louisiana hills, he was elected governor of Louisiana in 1928, and proceeded to subjugate the powerful state political hierarchy after narrowly defeating an impeachment attempt. The only Southern popular leader who truly delivered on his promises, he increased the miles of paved roads and number of bridges in Louisiana tenfold and established free night schools and state hospitals, meeting the huge costs by taxing corporations and issuing bonds. Soon Long had become the absolute ruler of the state, in the process lifting Louisiana from near feudalism into the modern world almost overnight, and inspiring poor whites of the South to a vision of a better life. As Louisiana Senator and one of Roosevelt's most vociferous critics, "The Kingfish," as he became himself, gained a national reputation following, forcing Roosevelt to turn his New Deal significantly to the left. But before he could progress farther, he was assassinated in Baton Rouge in 1935. Long's ultimate ambition, of course, was the presidency, and it was doubtless with this goal in mind that he wrote this spirited and fascinating account of his life, an autobiography every bit as daring and controversial as was The Kingfish himself.

Transform your students into smart, savvy consumers of the media. Mass Communication: Living in a Media World (Ralph E. Hanson) provides students with comprehensive yet concise coverage of all aspects of mass media, along with insightful analysis, robust pedagogy, and fun, conversational writing. In every chapter of this bestselling text, students will explore the latest developments and current events that are rapidly changing the media landscape. This newly revised Sixth Edition is packed with contemporary examples, engaging infographics, and compelling stories about the ways mass media shape our lives. From start to finish, students will learn the media literacy principles and critical thinking skills they need to become savvy media consumers.

Mexican history is a comprehensive and innovative primary source reader in Mexican history from the pre-Columbian past to the neoliberal present. Chronologically organized chapters facilitate the book's assimilation into most course syllabi. Its selection of documents thoughtfully conveys enduring themes of Mexican history (land and labor, indigenous people, religion, and state formation) while also incorporating recent advances in scholarly research on the frontier, urban life, popular culture, race and ethnicity, and gender. Student-friendly pedagogical features include contextual introductions to each chapter and each reading, lists of key terms and related sources, and guides to recommended readings and Web-based resources.

This is the first book in English on Chinese animation and socialism that introduces the insider viewpoints of socialist animators at the Shanghai Animation Film Studio. A timely and useful reference book for researchers, students, animators, and fans interested in Chinese and even world animation.

The official U.S. government report on Russian interference in democracy around the worldMost Americans were surprised to learn of Russian efforts to manipulate the results of the 2016 presidential election, and have become increasingly concerned about the vulnerabilities of our democracy. Here for the first time in an official U.S. government report is the fascinating and detailed account of how ex-KGB agent Vladimir Putin has used computer hackers, official state spy agencies, and even Russian organized crime thugs over the past thirty years to achieve his policy agenda—not only for Russian political domination, but also for his own enrichment and the enrichment of the oligarchs who control almost all aspects of the Russian economy. This complete report includes chapters on: Putin's Rise and Motivations Manipulation and Repression Inside Russia Old Active Measures and Modern Malign Influence Operations Weaponization of Civil Society, Ideology, Culture, Crime, and Energy Kremlin Interference in Semi-Consolidated Democracies and Transitional Governments Kremlin Interference in Consolidated Democracies Multilateral and U.S. efforts to Counter the Kremlin's Asymmetric Arsenal in Putin's Asymmetric Assault on Democracy in Russia and Europe, we learn about Vladimir Putin's rise to power through the KGB to mayor of St. Petersburg and eventually as head of the Russian state. We discover the history of how Putin used classic Cold War KGB tactics by weaponizing civil society, culture, ideology, and Russia's criminal element against the nascent Russian democracy by cultivating and using ties to NGOs, thinktanks, extremist political groups, the Russian orthodox church, industrial and energy policy, and the Russian Mafia. We also see how the Kremlin then exported this political extortion, intimidation, and monetary corruption first to its Eastern European neighbors, then their western partners in the European Union, and how it has now landed on America's shores. Just as certain people in the intelligence community became increasingly alarmed at the growing strength and sophistication of Al-Qaeda in the late 1990s, the senators and staffers of the U.S. Senate Committee on Foreign Relations are giving the nation a warning of a 9/11-level assault on the United States, this time by Russia's spy agencies. Putin's Asymmetric Assault on Democracy in Russia and Europe reveals not only the history of Russia's devastating tactics, but how to recognize and counter them.

This poignant novel about a boy's friendship with a burn victim is perfect for fans of R. J. Palacio's Wonder. From the moment Jessica arrives, life is never quite the same for Tom and his seventh-grade classmates. They learn that Jessica has been in a fire and was badly burned, and will be attending St. Catherine's will receiving medical treatments. Despite her appearance and the fear she evokes in him and most of the class, Tom slowly develops a tentative friendship with Jessica that changes his life.

Lots of readers offer lots of sources, but only Going to the Source gives students a clear method for how to use them. The reader's strong pedagogical framework, developed by historians with extensive teaching experience, helps students learn how to ask fruitful questions in order to evaluate documents effectively and develop critical reading skills. Mirroring the chronology of the U.S. history survey, each chapter introduces students to the excitement of working with documents by focusing on a single intriguing historical episode. The reader's wide variety of chapter topics that complement the survey course and its rich diversity of sources -- from personal letters to political cartoons -- provokes students' interest as it teaches them the skills they need to successfully grapple with historical sources.

Aspects of British Political History 1914-1995 examines all the major themes, personalities and issues of this important period in a clear and digestible form. It: * introduces fresh angles to long-studied topics * consolidates a great body of recent research * analyses views of different historians * offers an interpretive rather than narrative approach * gives concise treatment to complex issues * is directly relevant to student questions and courses * is carefully organised to reflect the way teachers tackle these courses * is illustrated with helpful maps, charts, illustrations and photographs.

The Washington Journey is a 7th grade history textbook. The outline for this book is based on Washington's NEW Essential Academic Learning Requirements for social studies and teaches civics, history, geography, and economics. The student edition places the state's historical events in the larger context of our nation's history and has many features such as local images, primary sources, Washington Portraits, timelines, and skill pages based on the EARLs. Table of Contents Unit 1: Setting the Stage Chapter 1 The Far Corner: Washington's Geography and Geology Chapter 2 Early Encounters: Two Worlds Meet Chapter 3 Settlement of the Northwest Unit 2: Washington Takes Shape Chapter 4 From Treaties to Statehood Chapter 5 A State of Growth Chapter 6 An Era of Reform Unit 3: Challenging Times Chapter 7 The Great Depression and World War II Chapter 8 Washington Comes of Age Unit 4: Modern Washington Chapter 9 Our Government in Action Chapter 10 Our State Economy

America and the World in the 1950s

During WW II, the closest most Americans ever came to combat was through the cartoons of Bill Mauldin, the most beloved enlisted man in the U.S. Army. This book brings together Mauldin 's complete works from 1940 through the end of the war under one cover. This collection of over 600 cartoons, most never before reprinted, is more than the record of a great artist: it is an essential chronicle of America 's citizen-soldiers from peace through war to victory.

All animals are equal but some animals are more equal than others. It's just an ordinary farm - until the animals revolt. They get rid of the irresponsible farmer. The other animals are sure that life is improving, but as systems are replaced and half-truths are retold, a new hierarchy emerges . . . Orwell's tale of propaganda, power and greed has never felt more pertinent. With an exciting new cover and inside illustrations by superstar Chris Mould.

In this seminal work, published by the C.I.A. itself, produced by Intelligence veteran Richards Heur discusses three pivotal points. First, human minds are ill-equipped ("poorly wired") to cope effectively with both inherent and induced uncertainty. Second, increased knowledge of our inherent biases tends to be of little assistance to the analyst. And lastly, tools and techniques that apply higher levels of critical thinking can substantially improve analysis on complex problems.
