

## Character Education Quotes For Elementary Students

***There's nothing quite like a great quotation to help you think differently or shed light in a difficult or confusing moment. But good words can provide more than just insight—they can actually move you to act. The Ultimate Book of Inspiring Quotes for Kids presents a unique and compelling collection of child-friendly wisdom from many historical greats, including Plato and Albert Einstein, as well as modern leaders, such as Nelson Mandela and Oprah Winfrey. Words can change people—and, ultimately, the world. In order to grow into their best selves, children need inspiration. They need positive influences to counterbalance to the negative words, role models, and behaviors that too often surround them. A great addition to any classroom, home library, or child's bedside, this compilation is organized by themes that range from courage to education to friendship. Each section begins with a brief introduction that relates the topic to kids and explains why it's important to make this value a habit. Thanks to an engaging, uplifting, and easy-to-read style, children and adults alike will enjoy poring over these empowering pages again and again—especially with gems like Helen Keller's "When we do the best that we can, we never know what miracle is wrought in our life, or in the life of another."***

***The words of the wise, famous, or simply experienced, can have a profound impact upon the behaviors and attitudes of others. Often, we underestimate the impressions made by carefully chosen words; words that have the power to embolden, encourage, uplift, and motivate one to greatness. With these concepts in mind, I have undertaken the task of composing this book with the intent to inspire young people to make better choices in their daily interactions with others. This will help build strong, permanent character traits that will help guide them to success and happiness. Throughout this written work are direct quotes of learned individuals, whose opinions and philosophies have spanned generations, yet have lost none of their intrinsic value as words to live by. The purpose behind using quotes is two-fold: 1.) To supplement the lesson being taught, and 2.) to inspire the reader to pay close attention to the words of others; in effect, to be an effective listener. I might also stress that, the quality of some one else's words is not determined by whether they are famous or not. Wisdom can be harvested from the most humble of individuals, as well as the most celebrated. It is not confined to those known for the greatest intellect, but it is found within a vast array of socio-economic circles - among the great and the small. What matters most is whether one's words are meaningful and if they can be of beneficial to others. A teacher's ability to manage the classroom strongly influences the quality of teaching and learning that can be accomplished. Among the most pressing concerns for inexperienced teachers is classroom management, a concern of equal importance to the general public in light of behavior problems and breakdowns in discipline that grab newspaper headlines. But classroom management is not just about problems and what to do when things go wrong and chaos erupts. It's about how to run a classroom so as to elicit the best from even the most courteous group of students. An array of skills is needed to produce such a learning environment. The SAGE Encyclopedia of Classroom Management raises issues and introduces evidence-based, real-world strategies for creating and maintaining well-managed classrooms where learning thrives. Students studying to become teachers will need to develop their own classroom management strategies consistent with their own philosophies of teaching and learning. It is hoped that this work will help open their eyes to the range of issues and the array of skills they might integrate into their unique teaching styles. ***A storm is brewing... Whenever Levi doesn't like the truth, he kinda, sorta makes up other stuff to say. One day his mother explains to him that telling lies will damage the trust of his friends and make him very sad. Whenever you tell a lie, your inside sun goes away. Then a lying cloud forms, and glooms up your day. Each time you tell a lie, another cloud starts to form, and before you can stop it from happening, your insides start to storm. This book is a great resource to help children understand not only the consequences of telling a lie, but also how one lie can often lead to telling several more. It will help parents and teachers understand that lying can be a normal and sometimes healthy response for a child and offers tools to help guide children toward truthfulness.***

Traces the author's experiences as an illegal child immigrant, describing her father's violent alcoholism, her efforts to obtain a higher education, and the inspiration of Latina authors.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B. Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform.

Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

The Core is an important resource that helps parents create ways to incorporate study into daily routines involving the entire family. --Book Jacket.

Character Education in America's Blue Ribbon Schools is based upon descriptive, documentary, and qualitative research conducted on the award winning school applications in the United States Department of Education's Elementary School Recognition Program, i.e. the Blue Ribbon Schools. The purpose of the program is to focus national attention on schools that are doing an exceptional job with all of their students. Areas studied are developing a solid foundation of basic skills and knowledge of subject matter and fostering the development of character, values, and ethical judgement. The first edition of this book reported on the first decade of this program, from 1985 to 1994. The second edition adds the schools that have won the award from 1996-2001. Included are the Blue Ribbon schools that applied for Special Honors in Character Education and five that actually won that recognition in 1998-1999. This edition finds character education much stronger in American schools in recent years and is full of many promising practices. It is a practical book that will guide school administrators, teachers, parents, board members, and concerned citizens interested in starting or strengthening the character education focus of their school.

In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-genius everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In Grit, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among Grit's most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Wittingly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal). America's classrooms need a revolution in character development, and the step-by-step program in this book equips educators, parents, and other key role models with tools to bring it about.

This straight-forward resource gives teachers, counselors, and parents over 140 common-sense lessons with reproducible activities for developing traits selected as representative of good character, such as honesty, generosity and fairness. This guide is organized into three sections focusing on respect for self, respect for others, and a positive outlook on life. Each lesson defines a specific character trait, shows children how to recognize the trait, and provides opportunities for children to apply the trait in their own daily lives.

**DUTY, HONOR, COUNTRY** The eighty-four men and women who tell their stories exemplify these words. From the home front to the battlefield and from behind the lines, their words speak of loss, pain, fear, loneliness, selflessness, faith and hope. As one veteran said, "World War II caused me to understand that I served my country for a purpose greater than myself." Many of these soldiers, sailors, airmen and Marines served in nearly every major battle in Europe and the Pacific including: Pearl Harbor, the invasion of Normandy, the Battle of the Bulge, Guadalcanal, Iwo Jima and Okinawa. Their sacrifice for our country is a debt which cannot be repaid. They represent the best of "The Greatest Generation." "This book is a fitting tribute to those Hoosiers who gave their all for the cause of freedom during World War II. The personal stories of those who served offer a window into a time that should be remembered." -Ray Boomhower, Indiana historian and author "Hodgin and Hardwick have produced an interesting and informative compendium of World War II stories of veterans that should instill a sense of pride in students and adults of all ages. The book has a readable style of a period in our history that we would do well not to forget." John Shively, M.D., Author and WW II historian "A must read for both historians and those desiring to learn more about one of the most decisive periods in our nation's history. The authors have not only captured the veterans' stories but also the sights and sounds of what many were thinking when facing death, hardships and struggling to survive." J. Stewart Goodwin, Brig. Gen., USAF (Ret), Executive Director, Indiana War Memorials "This book is an absorbing collection of stories from the men and women of the "Greatest Generation." Their stories illustrate some of the pain and incredible atrocities they witnessed, and at the same time, the friendships and joys they experienced. A must read for every person who wants to know what it was really like during WW II." Charles "Tom" Applegate, Director, Indiana Department of Veterans Affairs

**NATIONAL BOOK CRITICS CIRCLE AWARD WINNER** • A deep and compassionate novel about a young man who returns to 1940s Cajun country to visit a black youth on death row for a crime he didn't commit. Together they come to understand the heroism of resisting. A "majestic, moving novel ... an instant classic, a book that will be read, discussed and taught beyond the rest of our lives" (Chicago Tribune), from the critically acclaimed author of *A Gathering of Old Men* and *The Autobiography of Miss Jane Pittman*.
