Study Guide to
Accompany Basics for
Chemistry is an
18-chapter text designed
to be used with Basics
for Chemistry textbook.
Each chapter contains
Overview, Topical
Outline, Skills, and
Common Mistakes,
which are all keyed to

and section numbers as they appear in the textbook. The Fill-in, Multiple Choice are two sets of questions that include every concept and numerical exercise introduced in the chapter and the Skills section provides developed exercises to apply the new concepts in the chapter to particular examples. The

and economic decisions.

This book is based on three principles: that all aspects of chemical education should be associated with research; that the development of opportunities for chemical education should be both a continuous process and be linked to research; and that the professional
