For Beginners. No Reading Sheet Music Required! "Playing the Piano for the rest of us" is a course created for people who want to play the piano without having to commit to

years of study and practice before being able to play songs they really want to. Finally a piano course for people who want to play with other musicians without having to learn to read sheet music, to enjoy themselves or be included in groups, like church groups or bands, or just

friends and family. Most of the piano instruction I have seen falls into two categories... it's too hard, so you quit, or, it doesn't teach enough foundational skills and knowledge so the only thing learned is how to play songs that the course taught. I like the saying, "Give a man a fish, feed

Online Library Chorded Songs For Piano

him for a day. Teach him to fish, feed him for a lifetime." This course hopes to be part of the latter, for people who want to play and enjoy the piano or keyboard. Many existing courses teach too much at once like classical piano finger-skills, music theory and how to read sheet music. Students

open the door for people to play the piano and then release them to grow-on! Learning to read chord music is the difference between a person having to "learn, read and interpret an extremely complicated map with a key of over 20 symbols," compared to having to read a simple map of "start
