Cheryl Wakerhauser, the award-winning chef and owner of Pix Patisserie, brings new artistry to classic French desserts. With recipes like Le Royale, Amélie, Pear Rosemary Tart, Pistachio Picnic Cake, Bûche de Noël, Crème Brûlée Cookies and Macarons, you will be sure to wow any guest with complex flavors and textures that are unique to French pastry. French dessert is a study in components, and Cheryl breaks each recipe down, providing information on classic techniques while imbuing each recipe with a new twist. Her Amélie recipe, the winner of the Patis France Chocolate Competition, combines orange vanilla crème brûlée, glazed chocolate mousse, caramelized hazelnuts, praline crisp and orange liqueur génoise. Cheryl trained with MOF Philippe URRACA, a prestigious patisserie located in southern France. She has been featured in World of Fine Wine, Delta Sky magazine, Thrillist Portland, Food Network Magazine, The Wall Street Journal, USA Today and Bon Appétit. This book will have 41 recipes and 80 photos.

“The macaron bible that we have all waited for . . . filled with imagination, creativity and wonder” by the universally acknowledged king of French pastry (Cooking by the Book). With shops in Tokyo, Paris and London, Pierre Herme has taken the world by storm and has even been described as a couturier of pastry. This is a man at the top of his art and there is no question his macarons are in a league of their own.

Macarons are the aristocrats of pastry; these brightly colored, mini meringues, daintily sandwiched together with gooey fillings have become a holy grail for cookery fanatics and there are even food blogs dedicated to them. Like Pierre Herme’s famous macarons, it would be difficult for any macaron book to surpass this universal bestseller. There are 208 pages of recipes and beautiful food photography, and because making macarons is mostly about technique, rather than just a standard recipe, readers will appreciate the 32 step-by-step photo-illustrated instructions for making shells and fillings. All the classics are here like dark chocolate, praline, coffee, and pistachio, but others feature the more unusual macarons that Herme is justly famous for: Isfahan is one, with lychee, rose and raspberry, Arabesque with apricot and pistachio, Satine with passion fruit, orange and cream cheese, Mandarin and pink pepper, black truffles, balsamic vinegar as well as a bright-green macaron filled with fresh mint.

Le chou, grand classique de la pâtisserie est à nouveau très tendance. Tout le monde aime les choux et chouquettes. Souvenirs d'enfance, douceurs incroyables, les choux sont très nombreux : choux à la crème vanille, choux au sucre ou à la praline, choux au glaçage coloré, choux salés appelés gougères... Après les macarons et les spéculoos, Christophe Felder met sa créativité au service des petits choux : 40 recettes toutes plus belles les unes que les autres. Le chou attendrit et nous fait fondre de plaisir. Tout petit, il faut le déguster sans modération.

To build a good house, it must first have a solid foundation! The same principles apply when making laminated pastry products. My book The Art of Lamination is built on a solid knowledge of understanding the recipes, methods, processes and ingredients required to make the finest laminated viennoiserie possible. This book is the culmination of seven years of research, in particular, it was my chosen subject during my masters degree studies. As an international competitor, lecturer, businessman and international jury member, I have witnessed the work of exceptional craftsmen and carefully documented procedures and practices. In my business, I was able to try the latest cutting edge techniques and sell beautiful products to my customers. In my role as a lecturer at TU Dublin, I generated much new class content and took note of the most common problems encountered by students in pastry making and also the questions asked by my students. I identified and documented all the stages of production of laminated pastry and engaged in problem solving for students and bakers during my masterclasses in foreign countries. The result is a clearly explained road map, how to plan and execute perfect pastry. I explain some of the basic lamination systems used in industry with a modern twist, and take the reader through a step by step approach on how to become proficient at making laminated viennoiserie. In my capacity as a jury member at the world championships I have witnessed as close to perfection as is possible to make beautiful products. Many of the more advanced products in the book have been inspired directly by my observations over the past 25 years of competitive baking at the cutting edge of creativity. This book will serve as an essential guide for students, bakers, pastry chefs, home bakers and hobbyists. I include detailed process notes for both commercial bakers using mechanical sheeters and home bakers and students, who want to make laminated pastry at home. I have stripped down the procedures of laminated pastry production to the very basics, building on that knowledge and adding more advanced levels throughout the book. I hope my book will both educate and inspire you, the readers now, and in your future baking.

The second volume in the Grand Livre de Cuisine series comprehensively covers the art of making desserts, pastries, candy, and other sweets. The book's 250 recipes are accompanied by 650 color photos, including a full-page, close-up photo of each finished dish. Cross-sectional drawings clearly display the internal "architecture" of some of the more complex creations.

A career flavor scientist who has worked with such companies as Lindt, Coca-Cola and Cadbury organizes food flavors into 160 basic ingredients, explaining how to combine flavors for countless results, in a reference that also shares practical tips and whimsical observations.
