***A charming tale of history, creativity, natural inspiration, and a love of gardening. In 1913, Howard Dunington-Grubb and his wife, Lorrie, bought a small plot of land near Sheridan, Ontario, for the cultivation of ornamental plants. Local farmers thought they were crazy. But Howard and Lorrie, landscape architects recently arrived from England, were visionaries who dreamed of creating magnificent gardens in the colonial wasteland. Realizing that Canada had no nurseries that produced the plants they needed, they started one of their own. To manage it they hired Herman Stensson, an expert nurseryman whose references included one from the crown prince of Denmark. The chronicles of the Dunington-Grubbs and the Stensson family form the basis for the incredible history of Sheridan Nurseries, enhanced by the diverse backgrounds and experiences of the many people who helped turn a dream into***

**In this world, we learn much about love, but it is only in relationship with God that we truly learn what love is and what it is not. On this side of eternity, we will not fully know all there is to know about the love of God. In fact, it is the things we experience in this world that reveal what we have believed about love and how we have allowed our experiences, culture, and relationships to shape our lives and define love for us. We then take that definition of love and write it upon the hearts and lives of others. How important it is then that we know the true definition of love and that we know the Author, God. Jesus summed up all the commandments in this: love God and love one another. It sounds so easy, but most times, we find that true love is in fact quite the contrary. It is a hard love. This may not sound like what we would expect to hear, though**

*let us pause but for a moment and consider what we have learned about love. Consider our relationships in this world, and if we are Christians, then let us consider our relationships with those in the body of Christ. Now let us consider how well we have done in loving God and loving one another. Would we still say that it is always easy? Likely, we could each think of times when we have endured suffering, hurt, loss, brokenness, rejection, abandonment, false accusations, and so much more or perhaps how we have not only been on the receiving end of these, but also we have caused others pain in our own pursuit of love. It is my hope that throughout these pages we will examine the truth of each our own hearts and rather than redefining love or passing down a definition of love that we have been taught that is not the love of God that we discover or rediscover the true love of God. It is my hope that these words will reach many hearts that are longing for what our hearts were created for, fellowship with God, to know His love personally and share it with all. In order that we*

Upon first glance, it looks like a random act of big city violence, but it soon becomes clear churchwarden Philip's death was the result of a meticulously calculated ploy by someone who knew him. There are five vestry members and a choir director in addition to the ten homeless men asleep in the church basement. Any one of them could have done it, but what did Philip Graves do to warrant such a merciless death? Struggling to share the case and salvage their personal relationship, Claire, Brian and trusted Detective Eduardo Muñoz work around the clock to uncloak the desires, secrets, and resentments that find home through the iron gates and into the hidden beauty of one historic Romanesque church in Unholy City, the haunting third installment in Carrie Smith's Claire Codella mysteries.*

Child Safety Guidelines for Local Churches deals with the sensitive subject of child sexual abuse and what churches can do to protect children under their care while at the same time minimizing their own liability. Prevention and training are critical elements in developing a structure that ensures the safety of children while they are in God's house. Sadly, many churches are unprepared to combat the possibility of the unthinkable happening to one of their precious little ones. By not taking reasonable precautions, they not only endanger the welfare of their youngsters, but are subject to charges of gross negligence and significant financial judgments against their congregations. The author outlines numerous steps that any congregation can take to protect both the children and churches they serve. Experience shows that churches that are open and transparent engender a greater feeling of trust and willingness on the part of donors. Financial Management for Episcopal Parishes defines the roles of the clergy, staff, vestry, and congregation in the establishment of a transparent and functioning set of checks and balances that can be implemented by any size church. The book is laced with real-life examples of processes and procedures that did and did not work, helping readers to identify with their own church experience and apply the information to their own setting.

Decades of research have demonstrated that the parent-child dyad and the environment of the family "which includes all primary caregivers" are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give

focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Shattering the Illusion

Presents the text of the famous country music song accompanied by full-color illustrations. On board pages.

Public worship is the nursery of the Holy Spirit. As you enter the sanctuary, you notice them at once. Then, as you take your seat next to a family, they are right there beside you.

Throughout the ensuing service, you see them--and hear them. The presence of children in public worship is not only striking, but also increasingly strange in modern American church life. In fact, the idea of your children sitting or standing next to you during prayer, singing, or the pastor's sermon can be downright scary. This book is based in the conviction that public worship is the nursery of the Holy Spirit and that bringing children in is both beneficial and a blessing. The Nursery of the Holy Spirit offers practical advice on how to make this ideal a reality in your children's lives.

This delightful picture Bible tells twenty of the Bible's most beloved stories from creation to the resurrection and introduces little ones to God's love and care. A perfect first Bible for babies and toddlers.

Shattering the Illusion is the first book to gather and comparatively analyze policies addressing child sexual abuse complaints in a selection of religious institutions in Canada. Although there is a substantial body of literature regarding Christianity and sexual abuse, very little of it focuses on religious institutions in Canada and their respective policies. In the foreword, Tracey J. Trothen summarizes the Cornwall Inquiry, out of which this book arose. She then examines the Roman Catholic Church, The United Church of Canada, the Anglican Church, the Mennonite Church, Islam, and the Canadian Unitarian Council/Unitarian Universalist Association, describing in detail the evolution and particular content of policies and procedures that address child sexual abuse complaints directed at paid and volunteer faith community representatives and/ or leaders. She identifies differences and common themes among the approaches taken by the institutions and provides a summary table for an accessible comparative overview. Child

sexual abuse is not new, but the emergence of policies to address abuse complaints within religious institutions is. This book identifies significant and shared causal factors behind the emergence of policy and reviews their content carefully. This review will serve as a significant tool for furthering the development of such policies.

The quick-start program described in this book is designed for the new rector or pastor who wants to "hit the ground running." It is also designed for principal lay leaders who will be instrumental in the transition to new leadership. The program takes the new pastor, vestry, or other leadership bodies from one month prior to the new leader's arrival through the first eighteen months afterward. Organized in a user-friendly workbook format, this guide gives step-by-step suggestions on how the sometimes stalled and directionless period of transition in a faith community can be made dynamic and purposeful - a time of true congregational development.
