This is a story of a man's greed, and the ends to which he will go to achieve his goals, including murder, rape and kidnapping. When a family, removed from their farm in Zimbabwe by the land reforms, set out to start a deep-sea game fishing business in Mozambique they have no idea what they are letting themselves in for. By chance they are caught up in the diamond dealings, elephant and rhino poaching operations run by a notoriously ruthless individual, Jan Van Zyl. Their involvement leads to a series of exciting and dangerous adventures, as they chase across Africa and the Indian Ocean islands in their endeavour to help bring the man to justice.

BPP Learning Media's Study Text for TOPCIMA will help you pass CIMA's Test of Professional Competence in Management Accounting case study exam. In preparing the Text we have taken note of past papers, questions put to the examiners, the assessment methodology and previous case study exams. The key to the case is to prepare and to practise. Prepare by working through this Study Text before CIMA issues the pre-seen data. Later, practise with the BPP Learning Media TOPCIMA Toolkit that is written around the real pre-seen data. The Toolkit contains analyses and exercises to get you thinking, as well as a number of 'mock' unseen questions to get you ready for the real thing. Methods, Tools and Case Studies

**Writing is one of the key factors in professional success. It is one of the ways in which managers appraise you. Write well and clients and colleagues will rate you. Write poorly and you could harm your prospects. This book explains how to write well in the workplace. Christopher Stoakes is a lawyer and trainer acclaimed for his concise style**

**This book examines the practice of strategic business planning, including its functions, methods, tools, and the way in which they are employed. It does so in a practical way through case studies, which help in demonstrating how to innovate in order to overcome obstacles and cover new and evolving challenges. The book is divided into six parts : • part 1 focuses on the strategic plan, as master plan of the enterprise • part 2 covers the management functions whose able execution makes the difference between success and failure: forecasting, planning, organizing, staffing, directing, and controlling • part 3 demonstrates that modern accounting rules, promoted by IFRS and US GAAP, not only assist in strategic financial planning but also provide a solid basis for management supervision and control • part 4 brings your attention the fact that costs matter. Strategic business plans that pay little or no attention to cost factors are doomed • part 5 addresses the issues associated with strategic products and markets. These range from research and development to market research, product planning, the able management of marketing functions, and sales effectiveness • part 6 concludes the book with an emphasis on mergers, acquisitions, and consolidations and the risks associated with an M&A policy Chief executives, operating officers, treasurers, financial officers, budget directors, accountants, auditors,**

**product planners, marketing directors, and management accounting specialists will find this book of practical examples helpful to their decisions and to their work. \* Shows the factors to consider when planning how to take your company to the next level, from identifying and making strategic choices to capital allocation and financial planning. All from a professional accountant's perspective and in their language \* Full of case studies to help you relate your ideas to what other major companies have done before, including IBM, Delta Airlines, and Bloomberg - so you can learn from their success or failure \* Shows why strategic cost control is good governance, why and how to account for the cost of risk and how IFRS relates to strategic accounting principles**
