It is a first attempt in its area worldwide. (With additional sections 305 visual and 22 video) We would like you to accompany us in this imaginary and mental journey of discovery. There is only one fixed price for a ticket of the Journey: A strong sense of wonder in the search for truth. In this book, which is an explanatory work based on the "26th Word", that is, the Treatise of Divine Determining (Qadar)" of Risale-i Nur, the issue of "how to differentiate between the Divine Determining and free will" is addressed; and the evidences as to the fact that "things could take place only with the will of Allah" are dealt with. In addition, the questions related to the fact that "Qadar" does not give anybody any discomfort or strain, on the contrary it provides a perfect ease of mind and convenience and to the reconciliation of the ugliness of the troubles/evils that we see in the world with the fact that "everything coming from Qadar is good" are answered with such a proficiency that has not been witnessed in the history of Islam. In this book, you will see the explanations in relation to the essence of Qadar and Free Will; how they could be reconciled, the meaning of the belief in Qadar for human life, and the evidences of the existence of Qadar. Moreover, you will witness the harmonious friendship of a persuasive, crystal clear and fluent style with the logical inferences satisfying both mind and the heart. This work is part of our source book "Journey of Discovery for an Extraordinary Treasure:

Risale-i Nur Training Program”, over which our “Journeys of Discovery Risale-i Nur Training Program” is based and it is “The Truth of Divine Determining and Free Will”, which is the “Fifth Truth” of the six “truths” in that Book’s the second part called “Proving the Treasury of Faith with Evidences” We strongly suggest and present this book to those who regularly read Risale-i Nur as well as to those who want to get some information for the first time. The epilogue of our book which is entitled “Your Journey Just Begins Now!” is also included in this work as it contains emotional, striking and impressive points coming sincerely from the deepest parts of our hearts about the reading of Risale-i Nur and attendance to the Risale-i Nur Lectures. We have to state and admit the following sincerely: although we did not have any idea about what to write before explanatory notes came into the being, (every time without any exception) , we were astonished by the resultant texts and realized that we had never understood these issues this clear before. While controlling the texts, we had great joy and pleasure and we were reading the texts as if they were written by someone else. The writings were helping us, in an unexpected way, in overcoming our greatest distresses, giving us a strong state of faith. Because, what we were writing was talking about eternal truths of faith and Quran and they were having such qualities which were having much more different than a work presented with the individual proficiency and capability of a person. Therefore, the beauty and the excellence of these truths must have been reflected in our word as well. For sure, we were pursuing an immensely difficult and tedious effort; sometimes it was taking 3-5 hour to complete 1-2 pages of explanatory notes. We were spending an equal amount of time for footnotes and the glossary of concepts. But, the feeling of joy, happiness and spiritual satisfaction were exceedingly worth this effort. At this stage, we realized and felt the reason behind Bediüzzaman’s saying: “I am also a student of Risale-i Nur. I am your classmate in learning the Teachings of Quran, I am also in need of Risale-i Nur.” And we understood that he was not trying to be humble while saying this. Although we had an humble purpose of “conducting to a higher level of our comprehension than the reader could get on his or her own, we achieved better results than our expectations. All praise is due to Allah, so we praise him. In deed our share is only that of praising. Now if you look at our personality, you may not see much value. This is normal, because neither could we see any. What we see is just this: our weakness in our distressed search, our needs, our sincere wishes and our actual prayers (prayers supported with actions). As a requirement of being a human, we wanted to share what we had found and felt, with those who had the same needs and who were in the same search. This is what we mean when we say that we are not like a teacher who makes you sit before her and starts teaching you. Maybe rather we are like a guest who himself is entreated a dining table as he is as hungry and needy as everybody, and he is sincerely inviting you to this dining table. Or maybe we are like a curious kid, who has found the key of a magnificent and inexhaustible treasure, and who wants to inform others of its existence and share it with them. WHY A VISUAL/INTERACTIVE BOOK Reading and watching the written truths in a verbal and visual format (with additional explanations not provided in our book) enables you to better understand and feel them. In this way, you are following the most fruitful method in understanding the knowledge of faith, which cannot be understood just with intellect but rather are “felt truths”, and in opening the door for new perspectives for them. We keenly believe that with this method of reinforcement (Allah willing) highest level of benefit will be realized in terms of understanding Risale-i Nur and the universe. When you open Pdf document on your computer with Adobe Reader you can read it better by choosing “two pages” option and zooming in. Since full-screen mode of the “Microsoft Word” changes the places of the visuals, you should read it in page format by zooming in. We would rather prefer if you would download it in Pdf format and read it with Adobe Acrobat due to both its small size and readability it in this way. It is possible to click links and open the word and Pdf files and videos within this interactive book in your computers and cell phones. (In your cell phone use Wps Office for Word and Adobe Acrobat Reader for Pdf files. Wps Office is a useful program which opens the footnotes when clicked upon but it can’t open the links

in this way. For this reason, we suggest that you use Adobe Acrobat Reader in order to benefit from the interactive features of the book.)

**This major reference book presents a wealth of statistical information on Soviet society that has only recently become available in the era of glasnost. Drawing on primary sources in the Russian language, it provides a range of statistical information on hitherto 'hidden' aspects of the USSR. Although comparable data has long been available in most high income countries, the Soviet time-series are appearing in print either for the first time or after a gap of many years. The book represents an important landmark in understanding social trends in the USSR since 1945.**

**In What If?: Contemplations of an Undergrad, author Christy Clarke has compiled several of her most passionate beliefs and contemplations. Beginning with a bit of insight into the author's personality and reasons for writing this book, Clarke then delves into the debate between science and religion, and offers an explanation of her own personal ontology. However, the primary focus of this book is on animal rights, consciousness, and experimentation. Arguments are made to provoke contemplation of what different areas of research have suggested about these controversial issues in hopes of arousing greater popular interest in them. Among the controversial topics it explores are: connecting animal cruelty to human slavery, a consideration and response to the debate between science and religion, and an investigation of what alternative health therapies contribute to the debate over nonhuman animal consciousness. Significant research and thought has gone into each of the pages in this book, and its enthusiastic arguments are sure to provoke reader**

contemplation, whether one agrees or disagrees with the author's additional arguments and decision to acknowledge and embrace personal biases rather than try to work outside of them.

<http://www.youtube.com/c/EdizSözüer> ACADEMIC PROOF OF THE CREATOR - New Perspectives from the Treatise of Nature - (An imaginary and mental journey of discovery in the depths of divine technology) Providing academic proof of the truth of the Belief in Allah on an intellectual and scientific basis. This book is penned down in order to introduce you a piece of work, that is so unbelievably and astonishingly perfect that it will surprise you with the high truths and grand scientific discoveries contained therein and will make some of you say " How come I have never heard of it until now!" (Or could not really discover it). The main subject of study of these books and the Treatise of Nature is the following: To give correct answers to three basic questions of existence, which have remained as the unknown secrets of the universe that have been always wondered by the humanity. The discovery of the right answers in these areas has been possible not only with the use of the mind/intellect which is incapable of reaching to the truth on its own but rather with the common guidance of divine revelation and the mind. Nevertheless, the answers to the questions that were asked have been discovered solely with rational inferences and logical evidences. These three questions are: "Where did this universe and those within it come from? Where will they go? And Why are they here, what is their mission? That is to ask "What are we doing here?" High truths, which the whole humanity needs and which are appealing to all those who look for the explanation of the basic reality of existence and which is more interesting for the world of science and the scientists and which is brought by divine revelation, are discovered once again and proved with rational methods in these works. Especially today, while quantum physics, astronomy and astrophysics have reached to such advanced levels, common answers are looked for these three questions on matter, universe and human being; the science and these works study the same subjects and share a common ground of work. Here you are: The work, which contains in itself a spiritual/immaterial treasury for people who have an irresistible interest and passion for science and learning, is called RISALE-I NUR (TREATISE OF LIGHT). The Treatise of Nature has a special place within Risale-i Nur. In "the New Perspectives from the Treatise of Nature", you are invited for an adventure of looking for and finding out the truth. \* Studying academically, on the basis of

logic and science, the theories which are developed as alternatives to the existence of a Creator in order to explain the astonishing happenings and the liveliness in the universe. \*In a world where we stand as observers, looking for answers to questions: Where did we come from? Where are we going and who are we? What are we doing here? Together we are setting on a journey of discovery along the lines that we wrote in order to make some contribution to the efforts to understand the functioning and the purposes of the universe, which is the final target and the arrival point for all sciences. We have a very strong reason to begin this journey: to witness the magnificent details of the divine technology and uniqueness of the artful creation and hence, to take a big step on the way of achieving the true faith that was demanded from us by Allah. From the #1 New York Times bestselling author of *Eat to Live* and *The End of Diabetes*, an unflinching, provocative exploration of how our food is killing us and the ways in which we are unwitting participants in an unprecedented and exploding health crisis. Fast food is far more than just the burgers, fries, and burritos served at chain restaurants; it is also the toxic, human-engineered products found in every grocery store across America. These include: cold breakfast cereals; commercial and preserved (deli) meats and cheeses; sandwich breads and buns; chips, pretzels, and crackers; fried foods; energy bars; and soft drinks. Fast foods have become the primary source of calories in the United States and consequently the most far-reaching and destructive influence on our population. The indisputable truth is that our highly processed diet is the source of a national health crisis that is exploding into a genocide with unseen tragic implications. Heart attacks, strokes, cancer, obesity, ADHD, autism, allergies, and autoimmune diseases all have the same root cause – our addiction to toxic ingredients. New York Times bestselling author, board-certified physician, nutritional researcher, and leading voice in the health field Joel Fuhrman, M.D., explains why the problem of poor nutrition is deeper, more serious, and more pervasive than anyone imagined. *Fast Food Genocide* draws on twenty-five years of clinical experience and research to confront our fundamental beliefs about the impact of what we eat. This book identifies issues at the heart of our country's most urgent problems. Fast food kills, but it also perpetuates bigotry and derails the American dream of equal opportunity and happiness for all. It leaves behind a wake of destruction creating millions of medically dependent and sickly people burdened with poor-quality lives. The solution hiding in plain sight — a nutrientdense healthful diet — can save lives and enable humans to reach their intellectual potential and achieve successful and fulfilling lives. Dr. Fuhrman offers a life-changing, scientifically

sound approach that can alter American history and perhaps save your life in the process.

A literal interpretation of Revelation 6:12-17 states survivors from a future great earthquake shall flee to hide in

dens And The rocks of mountains. Such behavior is very unusual. Earthquake survivors normally flee to open spaces, away from buildings, To avoid injury from falling debris. All Shall Hide uses the findings from historical, aerospace, astrophysical, geophysical, and medical studies to show why world populations will be frightened into seeking heavily shielded shelters. What is the source of their terror? People suddenly collapsing in public from increased rates of heart failure caused by a great space weather storm. The awesome intensity of its cosmic ray output and harsh variations in the Earth's magnetic field will dwarf the Carrington Event of 1859. All Shall Hide shows the foretold darkening of the Sun to levels beneath global tempest of sunspots shall be the cause the perfect space weather storm. All Shall Hide formed its multidisciplinary, literal interpretation of Apostle John's scripture from the fiery truths of scientific studies. For example, statistically significant correlations between the variations in cosmic ray neutron rates and changes in the rates of death caused by acute myocardial infarction (heart attack), sudden cardiac death, cerebrovascular accident (stroke), or arrhythmia were manifested from collaborative research by Israel, Bulgaria, Lithuania, Azerbaijan, Russia, and Greece. The ability of the Moon to glow in the absence of sunlight was derived from observations and studies of solar particle induced lunar luminescence. The dates of solar blackouts, like the darkness at the crucifixion And The third Persian invasion of Greece, were deduced from trustworthy historical accounts of acute solar darkening events that could not be attributed to solar eclipses and/or clouds. All Shall Hide is a must read for those concerned with strengthening their beliefs in the Holy Bible.

The surge in inflammatory illnesses such as gastrointestinal disorders and asthma. Mass uprisings around the world in response to systemic racism and violence. Rising numbers of climate refugees. Our bodies, societies, and planet are inflamed. Boldly original, *Inflamed* takes us on a medical tour through the human body—our digestive, endocrine, circulatory, respiratory, reproductive, immune, and nervous systems. Unlike a traditional anatomy book, this groundbreaking work illuminates the hidden relationships between our biological systems and the profound injustices of our political and economic systems. Inflammation is connected to the food we eat, the air we breathe, and the diversity of the microbes living inside us, which regulate everything from our brain's development to our immune system's functioning. It's connected to the number of traumatic events we experienced as children and to the traumas endured by our ancestors. It's connected not only to access to health care but to the very models of health that physicians practice. Raj Patel, the renowned political economist and New York Times bestselling author of *The Value of Nothing*, teams up with the physician Rupa Marya to offer a radical new cure: the deep medicine of decolonization. Decolonizing heals what has been divided, reestablishing our relationships with the Earth and one another. Combining the latest scientific research and scholarship on globalization with the stories of Marya's work with patients in marginalized communities, activist passion, and the wisdom of Indigenous groups, *Inflamed* points the way toward a deep medicine that has the potential to heal not only our bodies, but the world.

**Clinical practice related to sleep problems and sleep disorders has been expanding rapidly in the last few years, but scientific research is not keeping pace. Sleep apnea, insomnia, and restless legs syndrome are three examples of very common disorders for which we have little biological information. This new book cuts across a variety of medical disciplines such as neurology, pulmonology, pediatrics, internal medicine, psychiatry, psychology, otolaryngology, and nursing, as well as other medical practices with an interest in the management of sleep pathology. This area of research is not limited to very young and old patients—sleep disorders reach across all ages and ethnicities. Sleep Disorders and Sleep Deprivation presents a structured analysis that explores the following: Improving awareness among the general public and health care professionals. Increasing investment in interdisciplinary somnology and sleep medicine research training and mentoring activities. Validating and developing new and existing technologies for diagnosis and treatment. This book will be of interest to those looking to learn more about the enormous public health burden of sleep disorders and sleep deprivation and the strikingly limited capacity of the health care enterprise to identify and treat the majority of individuals suffering from sleep problems.**

Science for English Language Learners brings you the best practices from different but complementary fields of science education and English language teaching, integrating the two. The book is designed so you can easily dip in and out of the topics you want. It's organized into four sections.

This book makes four bold claims: 1) life is an ultimate datum, open to philosophical analysis and irreducible to physical reality; hence all materialist-reductionist explanations - most current theories - of life are false. 2) All life presupposes soul (entelechy) without which a being would at best fake life. 3) The concept of life is analogous and the most direct access to life in its irreducibility is gained through consciousness; 4) All life possesses an objective and intrinsic value that needs to be respected, human life possesses beyond this an inviolable dignity. Life and personal life are pure perfections, it being absolutely better to possess (personal) life than not to possess it. Chapter 1: the metaphysical essence and the many meanings of 'life,' as well as its 'transcendental' character. Chapter 2: the irreducibility of biological life, its amazing empirical and philosophically intelligible essential features, and the ways of knowing them. Chapter 3: the immediate evidence and indubitable givenness of mental, conscious life as well as questions of (brain-) death and immortality. Chapter 4: the inviolable objective dignity of personal life and its self-transcendence; a new theory of the fourfold source of human dignity and rights. Chapter 5 (in dialogue-form): methods and results of philosophy versus those of empirical life-sciences.

Get Acquainted With the Books Discovering the Secret of the Universe! This book is penned down in order to introduce you a piece of vision

is so unbelievably and astonishingly perfect that it will surprise you with the high truths and grand scientific discoveries contained therein

and make some of you say "How come I have never heard of it until now!" (Or could not really discover it). The main subject of study of the book

is the following: To give correct answers to three basic questions of existence, which have remained as the unknown secrets of the universe

and have been always wondered by the humanity. The discovery of the right answers in these areas has been possible not only with the use of the human

mind/intellect which is incapable of reaching to the truth on its own but rather with the common guidance of divine revelation and the

use of the human mind. Nevertheless, the answers to the questions that were asked have been discovered solely with rational inferences and logical evidences.

The three questions are: "Where did this universe and those within it come from? Where will they go? And Why are they here, what is their mission

and purpose? Why are we here? What are we doing here?" High truths, which the whole humanity needs and which are appealing to all those who look for the e

of the basic reality of existence and which is more interesting for the world of science and the scientists and which is brought by divine revelations are discovered once again and proved with rational methods in these works. Especially today, while quantum physics, astronomy and astrophysics have reached to such advanced levels, common answers are looked for these three questions on matter, universe and human being; the answers in these works study the same subjects and share a common ground of work. Here you are: The work, which contains in itself a spiritual/religious treasure for people who have an irresistible interest and passion for science and learning, is called RISALE-I NUR (TREATISE OF LIGHT). The content of the book is composed of 19 basic epistles selected from the Collection of Risale-i Nur. Some selected parts related to the subject of the 23rd Word Epistle of Nature, Epistle of Resurrection, first eight Words and some other epistles are included in our book. The main texts of Risale-i Nur are placed in the beginning, the words and concepts are explained in the footnotes and the explanatory texts are provided in the footnotes. In addition, occasionally, as the need arises, explanatory texts are included within the text of the book in the form of an intermediary note. The first part of our book, which consists of two main sections is entitled as "Discovering the Value of the Treasure of Faith." In this section, the following is presented: the meaning and the importance of the faith and worship, which are proposed by the Religion to the man; how the secret of the universe is solved by the religion; the beauty of faith and how the true value of man comes to light with faith, and the level of science and philosophy in terms of understanding the Secret of the Universe. Finally, we are trying to look closely at the great good news and the resurrection for death brought by the religion through prophets and we are looking for the answer to this question: "What are the characteristics of the religion that will enable us to earn the eternal life?" We can regard this first part as the understanding of how great and precious a treasure is the secret part of the book is entitled as " Proving the Existence of the Treasure of Faith with Evidences". In this section, six pillars of faith are presented with detailed evidences. In other words, in the second section, the existence of the treasure sought to be achieved, whose value is understood in the first section, is proved; its place is discovered, and this great and magnificent treasure is acquired. Primarily understanding that faith is such a great blessing and a treasure with a great value would determine the importance that we would give to that treasure and its evidence. Nevertheless, you will also observe that in the first part, a serious effort has also been made to search for the truth and evidences. On the way to complete the book, you will have completed an important reading that could be considered as a brief summary of the Risale-i Nur collection. You have taken a serious step in studying the high knowledge of faith that is taught by these works. In "The Journeys of Discovery Risale-i Nur Training Program", you are invited for an adventure of looking for and finding out the truth. We have a very strong reason to begin this journey: the magnificent details of the divine technology and uniqueness of the artful creation and hence, to take a big step on the way of achieving the faith that was demanded from us by Allah. We would like you to accompany us in this imaginary and mental journey of discovery. There is one fixed price for a ticket of the Journey: A strong sense of wonder in the search for truth.
