Part of a series designed to support poor readers. Here we read of the 2CV connection with the James Bond franchise and through that a curious connection to Queen Elizabeth I. We also see how the car can be adapted for the 21st Century and the need to clean up the air. This car was a combination of engineering innovation and utilitarian bodywork for extra

strength without extra weight.

Chapters: Volkswagen Jetta, Mercedes-Benz C-Class, Honda Accord, Citroen 2CV, Ford Fiesta, Lexus LS, Toyota Camry (XV40), Holden Commodore, Chevrolet Impala, Chevrolet Caprice, Toyota Prius, Holden VE Commodore, Pontiac Grand Prix. Excerpt: The Volkswagen Jetta is a compact car, produced by German automaker Volkswagen Group for the Volkswagen Passenger Cars marque since 1979. Positioned to fill a saloon/sedan niche above the firm's Golf hatchback offering, it has been marketed over six generations variously as the Atlantic, Fox, Vento, Bora, City Jetta, Jetta City, GII, Jetta, and Sagitar. The Jetta was originally adapted by adding a conventional trunk to the Golf hatchback, and some distinctive styling (usually the front end, and sometimes slight interior changes). It has been offered in two- and four-door saloon (sedan), and five-door estate (station wagon) versions - all as five-seaters. As of 2005, over 6.6 million cars have been sold worldwide, over one-third in the United States alone. Since the original version in 1980, the car has grown in size and power with each successive generation. By mid 2011, almost 10 million Jettas have been produced and sold all over the world. The Jetta nameplate is a reference to the Atlantic 'jet stream', reflecting the period in Volkswagen's history when it named its vehicles after prominent winds. These also included the Volkswagen Passat (after the German word for trade wind), Volkswagen Bora (after bora), and Volkswagen Scirocco (after sirocco). Although the Golf had reached considerable success, in the North American markets, Volkswagen observed that the hatchback body style lacked some of the appeal to those who preferred the traditional three-box configuration. The styling of the 1970 AMC Gremlin was controversial for truncating the Hornet sedan, but Volkswagen stylists reversed...

In this readable and informative book, motoring expert Malcolm Bobbit tells the story of one of the most iconic cars in motoring history. Designed as affordable and practical transport for French farmers traveling on either bad roads or plowed fields, it also found its way into the fashionable quarters of Paris. The book shows how designers successfully achieved the specification for rugged and utilitarian design suitable for times of austerity while at the same time producing a truly classless car. The author explains the history of the car, conceived when Citroen was owned by the Michelin tire company, and how the idea evolved. He covers the ingenious design aspects of the car, including the corrugated metal bonnet, hammock seats, push-pull gear lever, and twin-cylinder air-cooled engine. Such was the success of the 2CV that it spawned variants such as the Dyane, Ami 6 and Ami 8, and the British-built Bijou, all of which are covered in the book. Illustrated with a unique collection of high-quality photographs and written by an authority on Citroen cars, this concise book tells you all you need to know about the famous 2CV.

by John Reynolds The Citroën 2CV is a cultural icon that formed as essential a part of the French way of life as Beaujolais or Camembert. The pure logic of its engineering and the integrity of its design won it a legion of fans around the world, not least in the UK. Almost seven million of its various versions and derivatives were built, and today, years after its manufacture ceased, it is still as popular as ever. How to Build Brick Cars

Different is Everything

Twelve years in design and development and 41 years in manufacture, the Citroen 2CV is one of the longest-running motoring success stories. Almost seven million of its various versions were built and this text chronicles the conception, life and death of the French people's car.

"Half-silly, half-serious and full of human interest."--The Wall Street Journal Get ready for a wild ride with this classic and fun World War II adventure about a boy who helps invent a car the Nazis would love to get their hands on! Thirteen-year-old Angelo knows that his father's job is in jeopardy. Only one thing can save it: inventing a car the world has never seen before. On vacation in the French countryside, Angelo gets an idea. So far, cars have only been made for the rich. Someone should create a car for everyday working people. Angelo thinks he's up to the challenge! After a lot of failures, and some rather painful crashes, Angelo, with help from his friend

Camille and some other villagers, builds a prototype that just might work. But testing it won't be easy—especially when war is declared and he finds out the Nazis are planning to steal his design! This funny adventure will have you speeding through the pages. So buckle up and enjoy the wild ride! "Kids will appreciate Angelo's confident, headlong enthusiasm and his hilarious mishaps driving across pocked fields, while adults will enjoy the new angle on both automotive and war history."--Kirkus Reviews "An unusual look at a much-studied historical period . . . Black-and-white chapter-heading illustrations are a charming addition."--Booklist "A feel-good story about the French Resistance that might very well inspire more than a few designers and engineers.--School Library Journal "A captivating book for young people of all ages." —T.E. Carhart, bestselling author of *The Piano Shop on the Left Bank* "Charming." —The Guardian "A thoroughly engaging read." —The Spectator "Feel-good, funny, romping, filmic adventure." —The Sunday Times "A fantastic family read." —Mr Ripley's *Enchanted Books* "Refreshingly different and very engaging." —Reading Zone "A delightful book." —Historical Novel Society "Unusual and delightful." —Parents in Touch "I loved this delightful novel. It's intended for middle grade readers but people of all ages will love it." —The Bookbag

Citroen 2CV Matt White. The Citroen 2CV was designed as an inexpensive car for rural France in the early post-war years. With its twin-cylinder engine and basic interior it was ideal for taking produce to the market, and its high ground clearance enabled it to cross rough country roads with ease. Later developments added a level of refinement but the car never lost its immense appeal. Here Matt White tells the full story, and includes details of the 2CV racing class that has a following all its own. Hdbd., 7 1/2"x 9 1/2", 2 pgs., 15 b&w ill., 8 color pgs.

The Auto Biography of the Citroen looks at the history of this unusual vehicle from its pre-war conception through to the last car to roll off the production line in 1990. It explains how the car was intended to be a lightweight cheap car for farmers and the common person and how the designers developed this umbrella on wheels. It also takes a nostalgic look at its many derivatives including a four wheel drive version and kit cars built on the 2CV chassis. Though the car is often the butt of jokes and given derogatory names such as "dustbin on wheels"--it was manufactured for over 40 years and nearly 4 million were produced. To top everything it beat flashier cars such as Aston Martin and Lotus Esprit to come top of a poll in James Bond car chases. Not bad for a modest little car! The 2CV has become something of a cult car with its unique and quirky design and The Auto Biography of the 2CV provides a brief but fascinating look at this enduring motoring icon.

In this new view of the Citroen story, automotive/aviation writer and design specialist Lance Cole investigates not just the details of the cars of Citroen, but the aeronautical and cultural origins that lay behind Citroen's form and function. The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history. Using interviews, translations, archive documents and specially-commissioned photographs, the Citroen journey is cast in a fresh perspective. It explains in detail the influences upon Citroen design: Voisin, Lefebvre, Bertoni, Boulanger, Mages, Opron and recent Citroen designers such as Coco, Blakeslee and Soubirou. As well as all the men of the great period of 1920s-1970s expansion, it also cites well-known names of Citroen's French engineering, design, and influence such as Cayla, Gerin, Giret, Harmand, Dargent and others, to give a full picture of Citroen heritage. The book provides an in-depth analysis of all major Citroen models with an engineering and design focus and profiles key individuals and cars up to the present day and Citroen's 'DS'-branded resurgence. It features many newly commissioned photographs, rare archive drawings and interviews with Citroen owners. Researched amongst leading Citroen experts and restorers, Lance Cole provides a fresh perspective on the Citroen car manufacturer, its design language and the legacy of its extraordinary engineering which will be of great interest to all Citroen and motoring enthusiasts. Superbly illustrated with 329 colour photographs, many newly commissioned along with rare archive drawings.
