Pride and Prejudice goes Hollywood in this winning romantic comedy inspired by Jane Austen's classic. In her teen fiction debut, the author of Knitting Under the Influence goes back to high school for a tale of sisters, misinformation, and star-crossed love. Will Elise's love life be an epic win or an epic fail? At Coral Tree Prep in Los Angeles, who your parents are can make or break you. Case in point: As the son of Hollywood royalty, Derek Edwards is pretty much prince of the school—not that he deigns to acknowledge many of his loyal subjects. As the daughter of the new principal, Elise Benton isn't exactly on everyone's must-sit-next-to-at-lunch list. When Elise's beautiful sister catches the eye of the prince's best friend, Elise gets to spend a lot of time with Derek, making her the envy of every girl on campus. Except she refuses to fall for any of his rare smiles and instead warms up to his enemy, the surprisingly charming social outcast Webster Grant. But in this hilarious tale of fitting in and flirting, not all snubs are undeserved, not all celebrity brats are bratty, and pride and prejudice can get in the way of true love for only so long.

First published in 1936, One Thousand Ways to Make \$1000 is the long out-of-print book that Warren Buffett's biographers credit with shaping the legendary investor's business acumen and giving him his trademark appreciation of compound interest. After pulling a copy of One Thousand Ways off a library shelf at age eleven and devouring F.C. Minaker's plucky and practical business advice, Buffett declared that he would be a millionaire by the time he was

35. Written in the immediate, conversational style of Dale Carnegie's How to Win Friends and Influence People, this book is full of inventive ideas on how to make money through excellent salesmanship, hard work, and resourcefulness. While some of the ideas may seem quaint today-goat dairying, manufacturing motor-driven chairs, and renting out billiard tables to local establishments are among the money-making ideas presented- the underlying fundamentals of business explained in these pages remain as solid as they were over seventy years ago. Covering a wide spectrum of topics including investing, marketing, merchandising, sales, customer relations, and raising money for charity, One Thousand Ways to Make \$1000 is both a durable, classic business book and a fascinating portrait of determined entrepreneurship in Depression-era America. Every effort has been made to reproduce the content exactly as it was originally presented.

A celebration of a beloved and uniquely British garden style. The cottage garden's abundant, informal style is rooted in Victorian dreams of a perfect country life. But it has found new expressions from the Arts & Crafts movement to the present day. This book showcases a selection of National Trust cottage gardens, famous and obscure, including writer Thomas Hardy's cottage in Dorset; the flower-filled cottage garden created at Sissinghurst, Kent, by Vita Sackville-West and Harold Nicolson; the Tudor manor Cothele in Cornwall, Beatrix Potter's Cumbrian home, Hill Top, and the picturesque Alfriston Clergy House in East Sussex. Cottage Gardens also features some of the most famous non-National Trust examples from around the country, including Kelmscott Manor, Dove Cottage and Eastgrove Cottage Garden. With practical advice on creating your own cottage garden, including key plants and techniques, this is a wonderful companion for all garden enthusiasts. With climbing roses, bright hollyhocks, pathways edged with honeysuckle, blossom-filled orchards and wildflower meadows, this is the perfect book to capture the idyllic British country garden.

Reviewers of this book have praised Christina Hoff Sommer's well-reasoned argument against many feminists' reliance on misleading, politically motivated 'facts' about how women are victimised.

This popular series gives teachers practical advice and guidance, along with resource ideas and materials for the classroom. AOC investigates her symbolic and personal significance for so many, from her willingness to use her imperfect bilingualism, to why men are so threatened by her power, to the long history of Puerto Rican activism that she joins. Contributors span a wide range of voices and ages, from media to the arts and politics: Keegan-Michael Key — Preface Lynda Lopez — Introduction: "The Meaning of AOC" Jennine Capó Crucet — "An Open Letter to

Desperate to become clean...even though it feels so good to be dirty.

But even I never expected what came next. Even I never expected my punishment to come so soon. ***Midnight Mass is a novella and a sequel to Priest. It is not necessary to read Midnight Mass to read Sinner.***

NATIONAL BOOK AWARD FINALIST • Frank and April Wheeler are a bright, beautiful, talented couple in the 1950s whose perfect suburban life is about to crumble. • Hailed by Kurt Vonnegut as "The Great Gatsby of my time ... one of the best books by a member of my generation." Perhaps Frank and April married too young and started a family too early. Maybe Frank's job is dull. And April never saw herself as a housewife. Yet they have always lived on the assumption that greatness is only just around the corner. But now that certainty is about to unravel. With heartbreaking compassion and remorseless clarity, Richard Yates shows how Frank and April mortgage their spiritual birthright, betraying not only each other, but their best selves. In his introduction to this edition, novelist Richard Ford pays homage to the lasting influence and enduring power of Revolutionary Road.

A new way of thinking about data science and data ethics that is informed by the ideas of intersectional feminism. Today, data science is a form of power. It has been used to expose injustice, improve health outcomes, and topple governments. But it has also been used to discriminate, police, and surveil. This potential for good, on the one hand, and harm, on the other, makes it essential to ask: Data science by whom? Data science for whom? Data science with whose interests in mind? The narratives around big data and data science are overwhelmingly white, male, and techno-heroic. In Data Feminism, Catherine D'Ignazio and Lauren Klein present a new way of thinking about data science and data ethics—one that is informed by intersectional feminist thought. Illustrating data feminism in action, D'Ignazio and Klein show how challenges to the male/female binary can help challenge other hierarchical (and empirically wrong) classification systems. They explain how, for example, an understanding of emotion can expand our ideas about effective data visualization, and how the concept of invisible labor can expose the

significant human efforts required by our automated systems. And they show why the data never, ever “speak for themselves.” Data Feminism offers strategies for data scientists seeking to learn how feminism can help them work toward justice, and for feminists who want to focus their efforts on the growing field of data science. But Data Feminism is about much more than gender. It is about power, about who has it and who doesn't, and about how those differentials of power can be challenged and changed. When the proprietor of an obscure museum is found dead amidst priceless Greek antiquities--one of which is missing along with the bones of a legendary hero thought to exist only in myth--museum curator Deborah Miller enters into dangerous realm of mystery, murder, and vengeance. #1 NEW YORK TIMES BESTSELLER • Experience the book that started the Quiet Movement and revolutionized how the world sees introverts—and how introverts see themselves—by offering validation, inclusion, and inspiration “Superbly researched, deeply insightful, and a fascinating read, *Quiet* is an indispensable resource for anyone who wants to understand the gifts of the introverted half of the population.”—Gretchen Rubin, author of *The Happiness Project* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY People • O: The Oprah Magazine • Christian Science Monitor • Inc. • Library Journal • Kirkus Reviews At least one-third of the people we know are introverts. They are the ones who prefer listening to speaking; who innovate and create but dislike self-promotion; who favor working on their own over working in teams. It is to introverts—Rosa Parks, Chopin, Dr. Seuss, Steve Wozniak—that we owe many of the great contributions to society. In *Quiet*, Susan Cain argues that we dramatically undervalue introverts and shows how much we lose in doing so. She charts the rise of the Extrovert Ideal throughout the twentieth century and explores how deeply it has come to permeate our culture. She also introduces us to successful introverts—from a witty, high-octane public speaker who recharges in solitude after his talks, to a record-breaking salesman who quietly taps into the power of questions. Passionately argued, impeccably researched, and filled with indelible stories of real people, *Quiet* has the power to permanently change how we see introverts and, equally important, how they see themselves. At 30 years old, Lewis Howes was outwardly thriving but unfulfilled inside. He was a successful athlete and businessman, achieving goals beyond his wildest dreams, but he felt empty, angry, frustrated, and always chasing something that was never enough. His whole identity had been built on misguided beliefs about what "masculinity" was. Howes began a personal journey to find inner peace and to uncover the many masks that men - young and old - wear. In The Mask of Masculinity, Howes exposes the ultimate emptiness of the Material Mask, the man who chases wealth above all things; the cowering vulnerability that hides behind the Joker and Stoic Masks of men who never show real emotion; and the

destructiveness of the Invincible and Aggressive Masks worn by men who take insane risks or can never back down from a fight. He teaches men how to break through the walls that hold them back and shows women how they can better understand the men in their lives. It's not easy, but if you want to love, be loved and live a great life, then it's an odyssey of self-discovery that all modern men must make. This book is a must-read for every man - and for every woman who loves a man.

Literature has not always been written in the same ways, nor has it been received or read in the same ways over the course of Western civilization. Cavallo (Greek palaeography, U. of Rome La Sapienza), Chartier (Ecole des Hautes Etudes en Sciences Sociales, Paris) and a number of other international contributors, address themes that highlight the transformation of reading methods and materials over the ages, such as the way texts in the Middle Ages were often written with the voice in mind, as they would have been read aloud, or even sung. Articles explore the innovations in the physical evolution of the book, as well as the growth and development of a broad-based reading public.
