Graves described poetry as his ruling passion, and for him love was 'the main theme and origin of true poems'. He created a rich mythology where love, fear, fantasy and the supernatural play an essential role. Intimate yet universal, passionate yet precise, their brilliant alchemy of realism and magic made Graves's poems some of the finest of the last century. In this edition the poems appear without critical apparatus or commentary. The volume represents in its purest form the achievement of Graves's seventy productive years.

Reading Lessons turns struggling readers into happy readers – For Grades 2-5. Many struggling readers are embarrassed to read aloud. They are often intimidated or bored by texts that conventional programs require them to practice. So, instead of catching up, they fall further behind. Currently 67% of American fourth graders can't read grade-level text. Reading specialist Amy Buswell has spent eight years looking for remediation methods that work. "What is needed," Buswell explains, "is a program that improves the motivation of struggling readers, because that accounts for 90% of the problem." Four

years ago, Buswell came up with a brainstorm. She knew her best readers enjoyed reading Bruce Lansky's poetry books for pleasure. The more poems they read, the better the reading got. Why not use Lansky's kid-tested poems as texts struggling readers could practice on to improve their reading—using six research-based strategies: choral reading, echo reading, paired reading, repeated reading, sustained silent reading and “say it like the character” reading. — This book is the result of that brainstorm and the resulting collaboration between Buswell and Lansky. It gives teachers and parents everything they
