detailer - a growing area of the car-enthusiast market. Car detailing is essentially high-end car valeting, which includes not only exterior paintwork, but almost every detail of the car - from tyres to mirror class, from engine components to exhaust. A general car wash will take up the form of a wash and vacuum, with exterior washing involving a shampoo wash (of the whole car including wheels and tyres), a dry off using a towel to stop any water spots or streaks, and sometimes a spray wax. Car valeting is a step up, and is generally any offering you see at a car wash. There will be different cost levels from wash, dry and wax - much like the above, but with a little more attention to detail - door shuts may also be

included. There may even be a vacuum and dash polish, which will cost you a little bit more, and if you opt for a top of the range valet, you'll often receive a polish to the paintwork, as well a clean to the windows (inside and out). Detailing is when it goes deeper than what's on top of the paint. Following a snow foam (to remove any loose contaminants) and a good thorough wash (using the two-bucket method) a clay bar will be used to remove embedded contaminants in the paint, such as tar, tree sap or anything that's buried deep enough not to be removed by your wash stage. Much like a valet, there are different tiers to a car detail. Depending on the level of detail you require, you may even decide to go

down the compound route to further smooth the paint. This will often involve the use of a machine polisher. This process helps to remove any imperfections while polishing the paint's surface, leaving a swirl-free finish. Machine polishers remove fine lines in paint, swirl marks and even orange peel, making the car look even better than when it left the factory. Once all this is complete, a detailer will finish all paintwork with the application of a good wax or sealant. This protects the work carried out, but also increases the longevity of the finish. When cleaning wheels, detailers often remove the wheels from the car enabling them to get to the back to clean hard-to-reach areas, while cleaning up the

brakes and components such as the inner wheel-arch lining. Working in the interior, detailers will vacuum all areas, as well as using carpet shampoo to remove any stains. Other surfaces such as upholstery, trims and headlining, will also be wet-cleaned. Special brushes or compressed air may be used to clean vents and instruments. Windows and seals will also be cleaned, and seats will be worked on with very specific products depending on the material. Engine bays may be worked on too. Detailing enables re-spray-style finishes, without actually having to pay for a full re-spray of paint. It is the attention to detail that defines a 'detailer.' Car Care & Detailing covers all aspects of detailing, including the vast array of

Find order and beauty in the kitchen with this delightfully elegant primer on washing the dishes that elevates and illuminates a seemingly routine chore. Washing the dishes is an ordinary, everyday task--but with examination and care, it can become much more. In this reverent guide to the household chore, Peter Miller shows us how washing dishes can become a joy, a delight, a meditative exercise, and an act of grace and rhythm. We pay so much attention to recipes but little attention to maintenance and cleanup. Washing the dishes is as much a part of making a meal as prepping the vegetables, making the sauces, or seasoning

the meats. At times it is quite routine, sometimes raucous, other times complex. It is never convenient. Despite its din and clatter, and despite its reputation, washing the dishes is the coda to the meal. It is a bustling musical of water and soap, of flow and surface, and done well, the fragile shall sit as proudly as the cast-iron. There are some who do the dishes for the clarity and privacy of it, and there are some who relish the quiet isolation of putting things in order where they belong. There are some who feel the time and movement is a kind of digestive. In the evening in particular, there is a silence when it is all done. How to Wash the Dishes brings elegance, art, and a bit of mindfulness to the sink. It is the perfect gift for those who love to clean and equally as apt for those we wish would
