#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she’s showing us how to put those ideas into practice so we can step up and lead. Don’t miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don’t pretend to have the right answers; we stay curious and ask the right questions. We don’t see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don’t avoid difficult conversations and situations; we lean into vulnerability when it’s necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we’re choosing not to invest in developing the hearts and minds of leaders at the exact same time as we’re scrambling to figure out what we have to offer that machines and AI can’t do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, “One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It’s learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It’s why we’re here.” Whether you’ve read Daring Greatly and Rising Strong or you’re new to Brené Brown’s work, this book is for anyone who wants to step up and into brave leadership.

This 230 page atlas is divided into seven parts. Part I, Missouri's Divided Loyalties, and Part II, Missouri's Five Seasons, provide an overview of Missouri's history from the initial settlement of the Louisiana Purchase Territories through the opening years of the American Civil War. The remaining parts cover the Confederate plan, the Confederate movement into Missouri and the Union reaction, the Confederate retreat and Union pursuit into Kansas, and the final Confederate escape back into Arkansas. The atlas has a standard format with the map to left and the narrative to the right. Each narrative closes with two or more primary source vignettes. These vignettes provide an overview of the events shown on the map and discussed in the narrative from the perspective of persons who participated in the events. In most cases there are two vignettes with the first from a person loyal to the Union and the second from a person who supported the southern cause. A few narratives have two or more vignettes from only the Union side. This was done to emphasize disagreements and struggles among senior leaders to establish a common course of action. Map 25, Decision at the Little Blue River, is a good example and the three vignettes emphasize the disagreement between Maj. Gen. Samuel Curtis and his subordinate, Maj. Gen. James Blunt on where to locate the Union defensive line.

Every primary school needs this brightly coloured map of the UK, including the Channel Islands and the Isle of Man. Uncluttered with unnecessary detail, major town and city names are clearly labelled. Political colours, clear lettering and symbols used for easy reference make it ideal for teaching the location of places. Maps are a fundamental teaching tool. ♣️♣️-Where♣️♣️(tm) makes a lesson real and puts it into context. Alongside the large political map is a series of small thematic maps illustrating clearly the correct use of the terms United Kingdom, British Isles and Great Britain. This wall chart is laminated on one side and supplied rolled and shrink-wrapped. It is ideal for mounting on a classroom wall or for home study. Dimensions 915 X 610 mm Makes learning fun. Published in association with the Geographical Association.

COLLINS LITTLE LEARNERS is a three-level course designed to meet the learning requirements of children in the age group of three years to six years. Focused on holistic learning and development, the series covers English, Maths, General Awareness, Art and Craft, and Hindi.

Collins Primary Geography Pupil Book 1 and 2 (Primary Geography)

The Cheyenne Wars Atlas

For primary school geographers aged 7-11, this atlas includes topographical mapping and topic maps. The atlas is divided into sections covering the UK, Europe and the world, with larger scale maps of countries and regions popular for focus studies.

The year is 1962. The family of fourteen-year-old Kevin Collins, caught in white flight, has moved from Beverly, its South Side of Chicago neighborhood, to the city’s northern suburbs. The field of Kevin’s most formative boyhood adventures was Ryan’s Woods, the great South Side forest preserve, mysterious, beautiful, running along the city’s western edge a full mile from 83rd Street to 91st. It now serves as the frame for his memories. Memories of a villain enemy, of games hard-fought as wars, of moments of fear or courage, of moments that transcend racial division, and of first love in all the pure strength of its innocence. Memories, still fresh, of best friendships that Kevin now feels will be forever unrecoverable. And memories especially of his greatest friend, Jackie Leonard, whose death at age thirteen has moved Kevin to turn memory into story.

Prepared specifically to support social studies and geography courses at upper primary and lower secondary levels throughout the Caribbean. The atlas is fully illustrated and includes the most up to date reference and thematic mapping of the countries within the Caribbean Community as well as the broader Caribbean region. Maps are fully supported with illustrations, photographs and data.

World maps cover international issues which have a bearing on Caribbean development.

The new fifth edition of National Geographic’s award-winning atlas is more fascinating and fact-filled than ever! It’s the definitive atlas for middle and high-school students to explore and use in the classroom, college prep, and at home. From the cartographic experts at National Geographic comes the latest edition of its award-winning student atlas, with everything kids want and need to know about our changing world. Dynamic, user-friendly content includes photos, facts, charts, graphics, and full-color political, physical, and thematic maps on important topics. Completely updated maps and statistics ensure that kids have all the latest information as they learn more about current events and become global citizens.

Collins Student World Atlas

The Cheyenne people made up one of the largest tribes in the region during the mid 19th century. Prior to the 18th century, the Cheyenne lived in the Great Lakes region until stronger tribes in that area forced them westward. Over time, the Cheyenne migrated toward the Black Hills and the Platte River valley. Eventually, the massive herds of buffalo roaming the plains lured a branch of the tribe southward across the Platte River into the Arkansas River valley of today’s southern Colorado and Kansas. By the mid 1800s, the Cheyenne had totally abandoned their sedentary agricultural traditions and completely adopted the nomadic buffalo-hunting culture. They replaced their earthen lodges with tepees, and their diet changed from agricultural products to mainly buffalo meat. The Cheyenne flourished in the Arkansas River region up into the late 1840s. War between the US and Mexico in 1846, brought increased traffic onto the Santa Fe Trail, but most travelers passed unmolested through the Cheyenne territory. However, the discovery of gold in California brought hordes of miners through the Cheyenne lands. The gold prospectors were only passing through, but without realizing it, they brought cholera to the Southern Plains in 1849; the disease was devastating to the Cheyenne and may have killed more than half the Southern Cheyenne population.

Especially written to support the language and literacy needs of children aged 6+, this dictionary introduces features such as showing parts of speech (noun, verb, adjective or adverb) and other forms of a word (plurals or past tense of a verb).

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

An ideal world reference atlas for young primary school geographers aged 9-11 years at Keystage 2. Published in association with the Geographical Association, enabling students to learn about the world today by exploring clear and engaging maps, study satellite imagery, understand key facts and statistics, and learn how maps and atlases work. * This atlas has topographical based mapping which helps the young geographer understand the processes which take place during the formation of the earth’s landscapes. The atlas has been designed specifically as an introductory reference atlas for 7-11 year olds studying geography at Keystage 2. * The reference mapping is designed for maximum clarity and accessibility, and is supported with photographs and data files, with detailed map keys and scale information on each map. Specially selected topic maps give additional information linking to knowledge and understanding of distant places. * The atlas is organised into sections covering the UK, Europe, the World and Continents with larger scale maps of countries and regions popular for focus studies. A variety of carefully selected scales are used to allow for comparison of size and distance in different countries.

YEARS 3 - 6 This atlas has been designed for primary school students throughout Australia. The pages are designed around three key questions: Where do we live? How do we and the world interact? What is changing? Features: enables students to use maps interactively by providing questions that will lead each student towards investigation illustrates the impact of social, economic and environmental changes which have taken place in the last 50 years using a variety of styles to present maps, photos, graphs and tables in order to illustrate different themes and familiarise students with various ways of presenting information provides a number of skills pages that assist students in using the atlas more effectively includes a glossary of geographic terms Jacaranda Junior Atlas - CATEGORY WINNER - The Australian Awards for Excellence in Educational Publishing

This atlas includes topographical mapping and topic maps. It is divided into sections covering the UK, Europe and the world, with larger scale maps of countries and regions popular for focus studies.

This introductory atlas for secondary school students aged 11-14 is designed to help students develop map, atlas and data handling skills. The content adheres closely to the requirements of the National Curriculum and incorporates results of classroom testing. Its clear and accessible layout will motivate pupils of all abilities at Key Stage 3 and S1-S2. An easy to follow introductory ‘map and atlas skills’ section, useful for both teacher and pupil, is followed by clear, easy to read reference maps presented with locator maps, fact boxes and flags, descriptive text, detailed map keys and photos. Carefully selected focus country studies include mapping on contrasting regions and special topics. The latest available country-by-country statistics are listed in a separate section and the index includes full latitude and longitude values. The extended world section in this edition covers all the global issues required by the National Curriculum e.g. climate, population, biomes, earthquakes and volcanoes. Colour coding of the titling and marginalia aids the identification of the sections within the atlas.

The iLLamanati have emerged from hidden places of the Earth to shed light on the dark side of human endeavors by collating and publishing literature on the secrets of the Illuminati. Representing the Grand Lama, an omniscient, extradimensional light being who is channeled by our Vice-Admiral, Captain Space Kitten, the iLLamanati is organized around a cast of interstellar characters who have arrived on Earth to wage a battle for the light.Bloodlines of the Illuminati was written by Fritz Springmeier. He wrote and self-published it as a public domain .pdf in 1995. This seminal book has been republished as a three-volume set by the iLLamanati.Volume 1 has the first eight of the 13 Top Illuminati bloodlines: Astor, Bundy, Colli DuPont, Freeman, Kennedy, Li, and Onassis.Volume 2 has the remaining five of the 13 Top Illuminati bloodlines: Rockefeller, Rothschild, Russell, Van Duyn, and Merovingian.Volume 3 has four other prominent Illuminati bloodlines: Disney, Reynolds, McDonald, and Kruppis.

Atlas of the Irish Revolution

The Atlas of the Irish Revolution is a definitive resource that brings to life this pivotal moment in Irish history and nation-building. Published to coincide with the centenary of the Easter Rising, this comprehensive and visually compelling volume brings together all of the current research on the revolutionary period, with contributions from leading scholars from around the world and from many disciplines. A chronological and thematically organized treatment of the period serves as the core of the Atlas, enhanced by over 400 color illustrations, maps and photographs. This academic tour de force illuminates the effects of the Revolution on Irish culture and politics, both past and present, and animates the period for anyone with a connection to or interest in Irish history.

Collins UK in Maps is a multi-topic atlas of the UK, which introduces the most relevant topics to reflect the Geography Key Stage 2-3 requirements of the National Curriculum. Formerly published as Collins Keystart UK Atlas, this collection of maps can be used to investigate different themes and topics. It tells a story in maps, diagrams, charts, words and photographs each of which presents information to compare and examine. We live on a remarkable planet and this atlas helps us to make sense of the UK today and understand how things came to be as well as how they might change in years to come. Suggested activities on each spread encourage users to explore further.

The market-leading atlas for pupils at primary schools, Philip’s Junior School Atlas has been fully revised for its 8th edition. It is a stimulating and authoritative first introduction to the world of maps. The introductory section describes the meaning of scale, how to measure distances using the maps, and explains the symbols on the maps. The following section is devoted to the United Kingdom and Ireland. Thematic maps cover topics such as mountains and rivers, climate and weather, population and cities, farming and fishing, industry and energy, transport, tourism and conservation. Regional maps of England and Wales, Scotland and Ireland complete this section. The rest of the atlas is made up of world thematic maps and world continental maps. Included are topics such as the world’s climate, vegetation, agriculture, energy sources, and environmental concerns, such as global warming. A simple letter-figure index completes the atlas – a useful introduction to help the young reader find his/her way around the maps.

Junior Cycle History Course

Dare to Lead

A ideal reference atlas for young Primary School geographers aged 9-11 years published in association with the Geographical Association.

This reference atlas is designed for the National Curriculum requirements at Key Stage 2. The atlas is supported by a teacher’s guide and copymaster activity material.

Optimised for colour tablets. The images in this e-book are not suitable for viewing on black and white e-ink devices. For children aged 8 and over, this dictionary contains full sentence definitions, examples, synonyms and parts of speech, as well as spelling and grammar tips, word histories, colourful pictures, and two informative supplements.

Philip’s Essential School Atlas has been specially created for lower-secondary geography students (11-14 year olds). It is ideal for work leading up to GCSE (England and Wales) National Curriculum Key Stage 3, and Scotland’s National Qualifications. The maps have been carefully designed so they are uncluttered and easy to read, containing specially selected place names and detail. A clear set of symbols and scale information accompanies each map and there is a useful introductory section covering basic atlas skills, including aerial photographs and satellite images to further explain particular features on the maps. Fully up-to-date, the atlas comprises a 16-page UK and Ireland section and a 42-page World section. Detailed regional maps, charts and satellite images of Europe, Italy, the Middle East, China, Japan, Kenya, USA, Brazil, and the Arctic and Antarctica are included, focusing on areas of special interest for students of geography, such as Japan’s volcanoes and earthquakes, conservation in Kenya, and water supply in the USA. Philip’s Essential School Atlas is ideal for special project work, featuring an informative section of world thematic maps on the environment, climate change, people, quality of life, and energy. Latitude and longitude co-ordinates are included in the index, alongside figure-letter references.

Bloodlines of the Illuminati:

World Atlas

'Collins Student World Atlas', specifically designed for students aged 14 to 16, features 128 pages of reference and thematic mapping, 8 pages of World country-by-country statistics and a fully comprehensive index to all names appearing on the reference maps.

The Oxford Primary Atlas is a clear, bright and informative atlas for all 7-11 year olds. It includes up-to-date country data and easy-to-read colourful mapping. It introduces primary school pupils to key geographical themes and topics, matched to curriculum requirements, including landscapes, water, settlements, connections, and environments.

This atlas is intended to act as a resource material for the study of social studies by Bahamian pupils in Grades 4-9.

With comprehensive coverage of the Caribbean islands, gulfs and bays this atlas focuses on accurate mapping of all the Caribbean countries. Thematic maps of individual countries and the Caribbean region address topics specific to the syllabus. This completely new Collins Caribbean Student Atlas is created for the requirements of CSEC Geography students and is a vital tool for all students, with up-to-date reference and thematic mapping, useful statistics and an extensive index. The Atlas has been specifically designed for CSEC students, however its well-researched content and uncluttered design makes it easy for all student use. Topics include population, climate, economy, industry, trade, tourism, history and the environment. All maps are created using the latest statistical information available. High quality satellite imagery, which has been selectively used within the special topic or study areas, supports data on the maps and is used to illustrate key environmental issues. Up-to-date data aids students wishing to create their own graphics to support individual projects.
