unique human dimension to the Soviet Union of the 1930s and a new understanding of Stalinism as a cultural and psychological phenomenon. From 1931 to 1937, School No. 25 was the most famous and most lavishly appointed school in the Soviet Union—instructing the children of such prominent parents as Joseph Stalin, head of the Communist Party, Viacheslav Molotov, head of the Soviet State, and Paul Robeson, American actor and singer. Relying on published records, materials in eleven archives, accounts left by visiting foreigners—including the prominent American

educator George Counts—and thirty six interviews with surviving pupils from the 1930s, Holmes brings the school to life. The school's administrators, teachers, pupils, friends, and foes become companions as well as objects of this study as we walk the schools halls, enter its classrooms, eavesdrop on feuding officials who debate its fate, and learn something of what the school and the period meant for its youth. Photographs of the school's teachers and students, and reproductions of the students' notebooks, drawings, and watercolors add personality to this compelling story. Holmes

uses the experience of School No. 25 as a microcosm and mirror of Stalinism, illuminating the interplay of state and society in decision making, and providing an opportunity to examine Stalinism from ideological, cultural, and psychological perspectives. While placing the school's history in the context of the coercion, corruption and repression of the 1930s, Holmes challenges the prevailing view that state and public spectacle on the one hand, and society and private life, on the other, were contrasting entities. School No. 25 molded these elements into an organic whole. In the intimate setting of Stalin's

In a mutually reinforcing way, forced compliance and voluntary choice moved individual teachers and pupils to accept a structured environment both at school and in society as the means to a powerful, prosperous, and just Soviet Union.

phénomène musical, et de leurs mécanismes. Cette prise en compte centrale est résultée d'un inéluctable mouvement d'intégration des sciences de la musique aux sciences du vivant dans une perspective évolutionniste, sous la poussée notamment de la psychologie et des neurosciences de la musique. Dans cette perspective, qui nous invite à passer de l'essence au processus, du produit à la fonction, de l'actuel au potentiel, de la perception à l'intention, l'approche de la musique en termes d'"universaux" n'a pas pour objet de rendre compte de la rigidité des structures mais bien de la plasticité du vivant ; non pas définition de la norme, mais ouverture sur des possibles.

To be successful, teachers of English in grades 6–12 need more than basic content knowledge and classroom management skills. They need a deep understanding of the goals and principles of teaching literature, writing, oral discourse, and language in order to make sound instructional decisions. This engaging book explores the pedagogical foundations of the discipline and gives novice and future teachers specific guidance for creating effective, interesting learning experiences. The authors consider such questions as what makes a literary text worth studying, what students gain from literary analysis, how to make writing meaningful, and how to weave listening and speaking into every class meeting.
